Judicial Experience and the Efficiency and Accuracy of Patent Adjudication Jay P. Kesan

2011 The creation of the U.S. Court of Appeals for the Federal Circuit (CAFC) is generally regarded as an improvement in the system of patent adjudication in the United States. There is, however, considerable support for the

creation of a specialized patent trial court based on the argument that we need to create specialized, judicial human capital at the trial level. Proponents favoring this change base their reasoning on the two-part argument that, because of the complexity of patent cases and the natural limitation on most federal judges to be hearing a significant volume of patent cases, experienced federal judges on a specialized patent trial court will (1) resolve cases more efficiently (i.e., the duration of patent cases will be shorter), and (2) render more accurate decisions (i.e., lower reversal rate on appeal). We treat each part of this argument as hypotheses to be tested by statistically analyzing the relationship between both general and patent-specific judicial experience of federal judges hearing patent cases and the efficiency and accuracy with which their cases were handled. In other words, we empirically answer the question whether federal judges exposed to more patent cases are better in terms of

efficiently and accurately deciding patent cases compared to their judicial counterparts who have lesser exposure to patent cases. We measure general experience in terms of years on the bench (and other variables), cumulative patent experience in terms of the total number of patent cases a judge had presided over since the Federal Circuit Markman ruling, and recent patent experience by the number of patent cases a judge had presided over in the three year previous to the case at hand. We then test the impact of these experience measures on the efficiency with which a case is terminated, measured in terms of duration of the case, and the accuracy of the judge's decisions, measured by the reversal rate on appeal. With respect to efficiency, we find that both general and specialized patent experience shorten case duration, but only by a moderate amount. However, there is some weak evidence that patent cases handled by judges with more time on the bench may be more likely to result in

settlements. Thus, it is possible that the impact of general judicial experience on case duration could be due to the ability of experienced judges to facilitate settlements rather than adjudicating to a ruling on the merits (summary judgment or through to trial). There is, however, no greater propensity to settle in the case of judges with more patent-specific judicial experience. With respect to accuracy, we find that patent-specific judicial experience may increase the probability that a district court judge's rulings are fully affirmed by the Federal Circuit (CAFC) and reduce the probability that they will be at least partially reversed by the CAFC. However, general judicial experience has no statistically significant impact on the reversal rate on appeal in patent cases. When the impact of specialized patent experience is tested for individual legal issues, we find that increased patent-specific experience may lower the reversal rate on appeal for rulings on preliminary injunctions, judgments as a matter of law, and infringement

that involves issues other than claim construction. With respect to the issue of claim construction, our findings are consistent with other work demonstrating that experience with patent cases per se has no impact on the reversal rate of district court claim construction rulings. Our results establish a real but moderate case for the development of patent-specific, judicial human capital at the district court level through the establishment of a specialized patent trial court.

WRONGFUL CONVICTION John A. Humphrey
2018-01-04 The magnitude of wrongful conviction is increasing across the country and around the world, with individuals arrested, convicted, and incarcerated for extended periods of time. This book provides an understanding of legal remedies, organizational reforms, and policy changes that have been proposed and implemented. In various jurisdictions, these procedures reduce the likelihood of a wrongful conviction. Legal and organizational reforms and

changes in criminal justice policy are considered at three key junctures of the process: (1) the investigation, evidence gathering, and forensic analysis, (2) prosecutorial decision-making, and (3) the judicial review and exoneration of a wrongfully convicted defendant. Each chapter opens with a wrongful case vignette that illustrates the reform strategies being considered. The investigatory process is studied on each case, and the police process is analyzed in detail. Part 1 includes the introductory chapter that provides an overview of wrongful convictions, and the investigatory process routinely employed to gather evidence and identify a suspect. The analysis of forensic evidence is explored, including the chain of custody, contamination of the evidence, misinterpretation, and the falsification of forensic reports. Part 2 focuses on the prosecutors, defense attorneys, judges and juries. Plea bargaining strategies, coaching witnesses, violations of the rules of discovery,

use of jailhouse snitches, inadequate defense counseling, lack of preparation and adequate resources are examined. Part 3 analyzes the processes involved in the reversal of wrongful convictions, the judicial review, and obstacles encountered in the exoneration process. In addition, the authors provide a thorough analytical overview of the criminal justice processes involved in wrongful conviction and the reforms that are needed to prevent and reverse injustices. This book is an invaluable resource for prosecutors, defense attorneys, judges, advocates for the wrongfully convicted, criminal justice policymakers, law and society, and will contribute to academic courses in the fields of criminology and justice.

Reversed! How to Appeal Any Case

Briefing and Arguing Federal Appeals Frederick Bernays Wiener 2009-06 Originally

published: Washington, D.C.: BNA Incorporated, 1961. iii (New Introduction), xvi, 506 pp. With a New Introduction by Bryan A. Garner, President, LawProse, Inc. This book tells how to brief and how to argue a Federal case on appeal. Its primary purpose is to explain to the lawyer how to best persuade a Federal appellate court to decide a case in his favor. It is neither a practice manual nor a text of Federal appellate procedure, being written on the assumption that all the procedural steps necessary to perfect the appeal have been or will be timely taken. Consequently this book deals with problems that are common to appeals in whatever Federal court they may be presented. Many of the principles defined and discussed herein are applicable also to the argument, oral and written, of questions of fact and law presented and heard in Federal trial courts. The task of presenting facts and law effectively, the psychology of persuasion, the requirements of candor and accuracy-these are matters common

to forensic effort in every courtroom, at every state of a litigated proceeding. In addition to its discussion of appellate advocacy and a description of procedure in the federal appellate courts (Supreme Court, U.S. Court of Appeals, and specialized federal courts), it provides valuable guidelines for writing briefs and appeals and the preparing oral arguments. Among other lessons, it teaches ways to -think before writing, -state facts and phrase issues persuasively, -use argumentative headings, -employ clear, forceful English, -handle questions in oral argument, -use maps and charts effectively and -prevent "forensic halitosis." AALS Law Books Recommended for Libraries List 26, Legal Profession, page 20, "A" Rated. "To get into court and to maintain your right to be there is the object of all pleading and is as important in an appellate court as in a trial court (...) This book is a guide to handling of cases on appeal in the Federal courts by one who is eminently qualified to instruct and direct in this

field." --from the foreword by Sherman Minton, Associate Justice, U.S. Supreme Court "Anyone familiar with Mr. Wiener's reputation as an appellate advocate and with his earlier works would expect his new book to be either required reading or strongly recommended in a course in Appellate Practice and Procedure. My own choice for next spring's seminar at this law school is to require it. This is not to say, however, that the book is directed solely to the student in law school. There are probably few practicing attorneys who would not benefit substantially from the author's ability, drawing on his vast personal experience, to expound the art of appellate advocacy in a fascinating and instructive way." -- Monroe H. Freedman, *The George Washington Law Review* 30 (1961-62) 148. "This is a brilliant book by a brilliant mind. It's the seminal 20th-century book on appellate advocacy, with wisdom, insight, and concrete examples packed into page after page." --Bryan A. Garner *Frederick Bernys Wiener [1906-1996]*,

or "Fritz" as he was known to his friends, was educated at Brown University and Harvard Law School, where he was a note editor on *Harvard Law Review*. In addition to several years in private practice, Wiener held positions in the U.S. Department of the Interior, the Judge Advocate General's Corps (as an officer during the Second World War) and the Solicitor General's Office, where he successfully argued the landmark Supreme Court case *Reid v. Covert*. Also a scholar of vast learning and high reputation, he wrote copiously on courts-martial, martial law and legal history.

Learned Hand's Court Marvin Schick 1970
Bush v. Gore E.J. Dionne 2010-12-01 On December 12, 2000, a controversial decision by the Supreme Court of the United States effectively ended the disputed presidential contest between George W. Bush and Albert Gore Jr. with a 5-4 ruling that revealed the court to be as bitterly divided as the electorate. Four days earlier, the Florida Supreme Court had

abruptly changed the dynamics of the election by reversing a lower court and ordering hand recounts of "undervotes" statewide. The U.S. Supreme Court quickly stepped in to halt the recounts and agreed to hear *Bush v. Gore*. After brief oral arguments and a short period of deliberation, the high court reversed the state court decision. The justices in both cases were bitterly divided, and passionate language emerged in both the majority rulings and the dissents. The drama and divisiveness of this extraordinary saga come to life in the rulings, opinions, and dissents from these two cases: U.S. Supreme Court case 00-949 (*Bush v. Gore*) and Florida Supreme Court case 00-2431 (*Gore v. Harris*). The first section of this volume gathers the complete text of both rulings, along with selections from oral arguments in the U.S. Supreme Court case. The second section of the book gathers the most significant opinion pieces from journalists and scholars on both sides of the political fence. Selected and organized by

political analysts E.J. Dionne and William Kristol, these articles illuminate the perspectives of both sides about the various twists and turns in the post-election campaign, and the landmark judicial intervention. A companion website will provide links to documents from additional legal proceedings and other related documents and writings. The legal and historical significance of the 2000 election will be studied and debated for years to come. This volume combines the most important source documents with the most intelligent opinion and analysis about the conflict and its controversial resolution.

2016-03-29 When a cat-show judge is murdered,

Mr. and Mrs. North are drawn into a hairy homicide There are three things Pamela North can't resist: cocktails, kittens, and murder. Today, she'll get all three. Still mourning the death of her beloved cat, Martini, Pamela gathers the strength to attend the fifty-third annual Colony Cat Club championship show, where she meets tomcats and tabbies of every stripe. Each one is more adorable than the last, but one of them might just be worth killing for. Those who dedicate their lives to breeding felines would do anything for one of the Colony's blue ribbons. So when one of the judges is accused of corruption, Pamela writes it off as sour grapes. But when the judge is found with his head bashed in and his precious kitties mewling beside his body, Pamela and her husband, Jerry, jump at the chance to investigate. For Mrs. North, this kind of killing is catnip. *The Judge Is Reversed* is the 24th book in the Mr. and Mrs. North Mysteries, but you may enjoy reading the series in any order.

Affirmative Action on Trial Melvin I. Urofsky
1997 Affirmative action continues to be one of
the most hotly contested issues in America.
Volatile and divisive, the debates over its
legitimacy have inspired a number of "reverse

discrimination" suits in the federal courts. Like
the landmark 1978 Bakke decision, most of these
have focused on preferential treatment given
racial minorities. In Johnson v. Santa Clara,
however, the central issue was gender, not race
discrimination, and the Supreme Court's
decision in that case marked a resounding
victory for women in the work force. Johnson v.
Santa Clara involved two people who in 1980
competed for a dispatcher position with the
transportation department of Santa Clara
County, California. Paul Johnson had more
experience and slightly higher test scores, but
Diane Joyce was given the job based on
affirmative action. An irate Johnson sued the
county and won, only to have the decision
reversed in appellate court. That reversal was
subsequently upheld in the Supreme Court's
1987 decision, reaffirming that it was legitimate
for employers to consider gender in hiring.
Preeminent legal historian Melvin Urofsky
proves an exemplary guide through the

complexities of this case as he takes us from the workplace through the various levels of our federal court system. Balancing the particulars of the case with an overview of constitutional law and judicial process, he creates a model legal history that is both appealing and enlightening for the non-scholar. Urofsky is especially good at highlighting the fundamental human drama of this case and shows how Johnson and Joyce were simply ordinary people, each with valid reasons for their actions, but both ultimately caught up in legal and social issues that reached well beyond their own lives. *Affirmative Action on Trial* pointedly addresses the issue of sex discrimination and the broader controversy over the place of affirmative action in American society. The latter continues to generate headlines, like those that followed the 1996 Supreme Court decision to let stand a lower-court ruling that race cannot be used as a determination for admission to academic programs. More recently, several states have

even taken steps to end affirmative action altogether. While it's hard to tell how such actions will ultimately impact affirmative action, there's no question that the rulings in cases like *Johnson v. Santa Clara* will continue to guide and influence the debates both inside and outside the courtroom.

The History of the New York Court of Appeals, 1847-1932 Bernard Meyer 1985 From 1932 to 2003, the New York Court of Appeals—the highest court in the state—decided crucial cases pertaining to the social and legal issues of the day. The judges' rulings affected laws regarding motion picture censorship; obscenity, indecency, and immorality; religion; capital punishment; torts; the right to control personal medical care; and abortion. This comprehensive history completes a two volume series that began with *The History of the New York Court of Appeals, 1847-1932*. Each case is richly recounted and analyzed, detailing the decisions and dissenting opinions. Short biographies are

provided for the judges who served during this period, and changes in the selection of judges, as well as the court's jurisdiction, are thoroughly explained. Particular to this volume, the authors provide the legal, social, and political contexts for these cases, showing how the law has evolved over time. They examine the court's view concerning its constitutional power to respond to an economic emergency during the Great Depression; they outline cases in which the judges ruled on the government's role in legislating morals and morality; and they focus on the evolution of the court's opinions regarding statutory interpretation, judicial federalism, censorship, constitutional reform, criminal law and capital punishment, rules of evidence, education, family law, and antitrust and labor law.
