Manele in Romania Margaret Beissinger 2016-08-08 This edited volume examines manele (sing. manea), an urban Romanian song-dance ethnopop genre that combines local traditional and popular music with Balkan and Middle Eastern elements. The genre is performed primarily by male Romani musicians at weddings and clubs and appeals especially to Romanian and Romani youth. It became immensely popular after the collapse of communism, representing for many the newly liberated social conditions of the

post-1989 world. But manele have also engendered much controversy among the educated and professional elite, who view the genre as vulgar and even “alien” to the Romanian national character. The essays collected here examine the “manea phenomenon” as a vibrant form of cultural expression that engages in several levels of social meaning, all informed by historical conditions, politics, aesthetics, tradition, ethnicity, gender, class, and geography.

Say Goodbye to Your PDI (Personality Disordered Individuals) Stan Kapuchinski 2007-06-15 It's Not You . . . It's THEM! Have you ever hung up with your boss and felt like you were nine years old again? Do you get a pang in the pit of your stomach when you see a certain “friend's” number on your caller ID? Do you find yourself frequently apologizing to a family member even though you know you've done nothing wrong? If any of these scenarios sound familiar or you have ever felt bullied, manipulated, guilty, or threatened in a relationship, you could have a PDI! In *Say Goodbye to Your PDI*, he sheds light on five types of personality disorders and teaches: • How PDIs ensnare us into repeatedly dealing with them • How to spot a PDI at work and in our personal lives • Coping mechanisms to handle PDIs who we cannot eliminate from our lives • Techniques and advice on how to get rid of a PDI for good *Say Goodbye to Your PDI* will help you stop your misery and will help you deal more effectively with the users, the manipulators, the smooth talkers, and the guilt-trippers out there. Stan Kapuchinski, M.D. , writes the widely read column “Ask Dr. K.” A board-certified psychiatrist, Dr. Kapuchinski has served as assistant professor of psychiatry at the University of Connecticut and special psychiatric consultant in Queensland, Australia. Why Smart People Make Big Money Mistakes and How to Correct Them Gary Belsky 2010-01-12 Protect and grow your finances with help from this definitive and practical guide to behavioral economics—revised and updated to reflect new economic realities. In their fascinating investigation of the ways we handle money, Gary Belsky and Thomas Gilovich reveal the psychological forces—the patterns of thinking and decision making—behind seemingly irrational behavior. They explain why so many otherwise savvy people make foolish financial choices: why investors are too quick to sell winning stocks and too slow to sell losing shares, why home sellers leave money on the table and home buyers don't get the biggest bang for their buck, why borrowers pay too much credit card interest and savers can't sock away as much as they'd like, and why so many of us can't control our spending. Focusing on the decisions we make every day, Belsky and Gilovich provide invaluable guidance for avoiding the financial faux pas that can cost thousands of dollars each year. Filled with fresh insight; practical advice; and lively, illustrative anecdotes, this book gives you the tools you need to harness the powerful science of behavioral economics in any financial environment.

Plant Taxonomy Tod F. Stuessy 2009 The field of plant taxonomy has transformed rapidly over the past fifteen years, especially with regard to improvements in cladistic analysis and the use of new molecular data. The second edition of this popular resource reflects these far-reaching and dramatic developments with more than 3,000 new references and many new figures. Part 2 outlines the different types of data used in plant taxonomic studies with suggestions on their efficacy and modes of presentation and evaluation. This section also lists the equipment and financial resources required for gathering each type of data. References throughout the book illuminate the historical development of

taxonomic terminology and philosophy while citations offer further study. *Plant Taxonomy* is also a personal story of what it means to be a practicing taxonomist and to view these activities within a meaningful conceptual framework. Tod F. Stuessy recalls the progression of his own work and shares his belief that the most creative taxonomy is done by those who have a strong conceptual grasp of their own research.

A great relationship is designed to get you to grow up and grow into yourself, and a strong, loving relationship has the power to help you accomplish and achieve more in your life. The love quotes found in this relationship book are a gold mine. Read slowly and digest each sentence. You can ponder each one alone and together. You might have to discuss, disagree, and work through a quote, just like you would a normal difference in your own lives. Doing so will be considered "practice" for your relationship or marriage (you can even share your wins and challenges in our private community of Smart Couples). You reap what you sow each day in your relationship, and my strong wish is for you to take good care of your precious relationship by attending to it daily. May these quotes help guide you into a more realistic and magnificent love that lasts.

Life Compass Nevzat Keles This is a choice. A choice you should make sooner or later. Just like the choice Neo is offered between a red pill and a blue pill to go out of the Matrix. This is the moment of truth and you have to decide now. Will you take the red pill and reject to be prisoned in the Matrix like all the other people in order to walk on your own path? Or will you take the blue pill and stay in the comfortable simulated reality of the Matrix, like all the other silent and obedient millions of people. In other words will you reject the chance of building your own life and walking on your own path easily? Yes, this is just up to you. Every single human being is unique and equipped with different abilities. Each single person has his own way, his own project and his own mission in this world. All you need to do is to think and find that project of your own. One man's life cannot be simply consisted of eating, drinking, sleeping, populating the world, gathering wealth and prosperity and just living among the given boundaries. Your life should have a more significant purpose and you are probably meant for something bigger. You should get rid of your mood being unhappy for the weekdays but just happy for the weekend. Waiting for weekend, holiday or retirement to live is big nonsense. In fact, you are continuously postponing your life without being aware of that. As if you have an evidence for more enough time to come. You prefer to define your happiness under specific circumstances, and most of the time postpone your happiness instead of living the moment. However, the happiness or unhappiness is actually in your hands. Now, move on. Get into action and stop postponing yourself and your life. Take a step. Today or even right now. Otherwise pour tears after 5 or 10 years for your time and dreams which you could not make come true. Crash your head on the walls as you haven't done anything about what you could. Whine to your close friends. Get sad. Listen to melancholic music. Complain about the time which is passing so fast. Continue to postpone your goals and dreams to the next years. If you really want to be successful then for sure you will be. You are the only one who can prevent yourself being as successful as in your dreams. Means, you are the only who can stop you.

I Siciliani Lou Quattro 2012-05 The idea for I SICILIANI came during Lou's time in Tuscany where, working in land development, he gained the opportunity to know many Sicilians, and came to understand their background, passions and what motivates them. This work of fiction looks at Sicilian history, the founding of La Cosa Nostra, and the values that shape it. It explores how the tentacles of the Sicilian way reach north into Tuscan life. The book teems with the themes of intrigue, conspiracy, murder, religion, politics and sex. The arrest of a sitting mayor in Tuscany and the subsequent illegal investigation of the local maresciallo, as well as the involvement of a Cosa Nostra family, bring into play the battle Italy has had with corruption and the lengths its people will go to for power....

Wising Up Hal Milton 2004-07-26 Wising Up is for everybody: the middle-aged, aging boomer, and anyone interested in Wising Up and living more consciously. After over forty years of combined experience in teaching and creating and facilitating workshops, Milton realized that our cultures focus is primarily on recreation and prolonging life, rather than the quality of that life. He concluded that people who were willing to look at their own personal histories are better able to make changes that produce a more satisfying life without regrets. These concepts can recreate the promise of hopefulness you may have forgotten: Self-awareness Awareness of attitudes and behaviors that limit and contribute to a sense that somehow life is not working. Conscious living Conscious living implies your choices are based on today's reality. Awakening to wholeness Rediscover your own wholeness and a sense of hope. Wising Up reassures that life has meaning and instructs how to find that meaning. The book provides methods to increase consciousness and broaden narrowed perspectives. Through the authors own experience, as well as the teachings of others, you will learn the process involved in self-discovery and greater attentiveness to living. Participate in Wising Up and live life without regrets.

Practicing Citizenship in Contemporary China Sophia Woodman 2020-04-02 This book examines citizenship as practiced in China today from a variety of angles. Citizenship in China—and elsewhere in the Global South—has often been perceived as either a distorted echo of the ‘real’ democratic version in Europe and North America, or an orientalized ‘other’ that defines what citizenship is not. By contrast, this book sees Chinese citizenship as an aspect of a connected modernity that is still unfolding. The book focuses on three key tensions: a state preference for sedentarism and governing citizens in place vs. growing mobility, sometimes facilitated by the state; a perception that state-building and development requires a strong state vs. ideas and practices of participatory citizenship; and submission of the individual to the ‘collective’ (state, community, village, family, etc.) vs. the rising salience of conceptions of self-development and self-making projects. Examining manifestations of these tensions can contribute to thinking about citizenship beyond China, including the role of the local in forming citizenship orders; how individualization works in the absence of liberal individualism; and how ‘social citizenship’ is increasingly becoming a reward to ‘good citizens’, rather than a mechanism for achieving citizen equality. This book was originally published as a Special Issue of the journal *Citizenship Studies*.

Capitol Games Roger C. Thompson 2008-07-30 When a gambling magnate comes into possession of the original 17th century deed to Manhattan and uses it to bargain for a casino in the heart of New York City, the stage is set for a devastating blow to the presidential aspirations of the Governor and an economic meltdown of the State of New York. Caught in the ensuing turmoil is Senate staffer Jack Carnavan, a seasoned political pro with integrity rarely found in the tough game of politics. When Carnavan's boss, a Senate leader whose twisted fantasies are catered to by his power-lusting secretary, ends up on the wrong side of the Governor's ambition, egos and lobbyist influence force Carnavan into a career-shattering situation. But when a moralistic Senator and his conservative followers seek to use the gambling issue to nullify the Governor and his presidential hopes, a chance encounter by Carnavan uncovers a scandal that could devastate the Senate and the entire administration. In a stunning climax, Carnavan bends the moral rules and shows that when the stakes are high, politics truly is a blood sport.

The 48 Laws of Power Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
