The Legacies of Modernism David James 2011-10-20 An engagement with the continued importance of modernism is vital for building a nuanced account of the development of the novel after 1945. Bringing together internationally distinguished scholars of twentieth- and twenty-first-century literature, these essays reveal how the most innovative writers working today draw on the legacies of modernist literature. Dynamics of influence and adaptation are traced in dialogues between authors from across the twentieth century: Lawrence and A. S. Byatt, Woolf and J. M. Coetzee, Forster and Zadie Smith. The book sets out new critical and disciplinary foundations for rethinking the very terms we use to map the novel's progression and renewal, enhancing our understanding not only of what modernism was but also what it might still become. With its global reach, *The Legacies of Modernism* will appeal to scholars working not only in the new modernist studies, but also in postcolonial studies and comparative literature.

One Nation Under Seige William P. Chad 2013-09-12 This book is a true story of survival and valor that was written by William P. Chad during the second part of the 20th Century A.D. He has dedicated it to his mother Makroohi. Together they emigrated to The United States of America from Lebanon at the end of WWI after been exiled from Malatya, their homeland of Western Turkey, former Armenian territories. William spent most of his adult life writing it. He did a great job in describing the WWI Era events with the accuracy and confidence of someone who was both directly involved and afflicted by them like a war correspondent. He lived through those horrific events. In his tedious work, William strived for perfection and has achieved it. Then he passed away and the work has passed on to us. The content of this book is a time window into WWI Era when tragedy has struck not only the Armenian but also the Greek, Nestorian and Syrian Peoples for their Christian belief. Millions have perished at the hands of Ottoman Turks and their proxies, Kurd

mercenaries. It is estimated that 3.5 Million people have lost their lives during this era. These events are considered to be the first Holocaust of the 20th Century. Is it easy to kill, to shed blood? Hakim asked. There is nothing to it, nothing at all. After the first kill, all the others are. Hakim interrupted him nervously, I have robbed, but I have never killed, not even a sheep." You will, the Chieftain said. I will have to murder? Hakim questioned. To kill Armenians is not murder. It is legalized execution. We Kurds are not guilty of murdering the Giaourji. We are merely the instruments performing a service. We do not slay, we execute. Is the knife that stabs the life out of a sheep guilty of murder? Enough nonsense! Now go and pass the word to our men of what we are supposed to engage in by Executive Permission: Kill, Kill, and Kill! Hakim stood up for a second then sat down again. How will I know a Turk from an Armenian, hah? They all dress alike Hakim insisted. Pull their pants down; a Christian is never circumcised. It is our hope that such tragedies can be prevented if we strive to raise the awareness of all Peoples on Earth no matter their religious belief Amen! All truth passes through three stages: First it is ridiculed; second, it is violently opposed; and third, it is accepted as self-evident. Arthur Schopenhauer (1778-1860) *The Sleepless Moon*, [by] H. E. Bates Herbert Ernest Bates

The Body and the Song Marilyn May Lombardi 1995 In this original contribution to Elizabeth Bishop studies, Marilyn May Lombardi uses previously unpublished materials (letters, diaries, notebooks, and unfinished poems) to shed new light on the poet's published work. She explores the ways Bishop's lesbianism, alcoholism, allergic illnesses, and fear of mental instability affected her poetry—the ways she translated her bodily experiences into poetic form. A cornerstone of *The Body and the Song* is the poet's thirty-year correspondence with her physician, Dr. Anny Baumann, who was both friend and surrogate mother to Bishop. The letters reveal Bishop's struggles to understand the relation between her physical and creative drives. "Dr. Anny" also helped Bishop unravel the connections in her life between psychosomatic illness and early maternal deprivation—her mother was declared incurably insane and institutionalized in 1916, when Bishop was five years old. Effectively an orphan, she spent the rest of her childhood with relatives. In addition to these letters, Lombardi uses Bishop's unpublished notebooks to demonstrate the poet's resolve to "face the facts"—to confront her own emotional, intellectual, and physical frailties—and translate them into poetry that is clear-eyed and economical in its form. Lombardi argues that in her subtle way, Bishop explores the same issues that preoccupy the current generation of women writers. A deeply private artist, Bishop never directly refers to her homosexuality in her published work, but the metaphors she draws from her carnal desires and aversions confront stifling cultural prescriptions for personal and erotic expression. In choosing restraint over confession, Bishop parted company with her friend Robert Lowell, but Lombardi shows that her reticence becomes a powerful artistic strategy resulting in poetry remarkable for its hermeneutic potential. Informed by recent gender criticism, Lombardi's lucid argument advances our understanding of the ways the material circumstances of life can be transformed into art.

Moon Edgar Williams 2014-06-15 Long before a rocket hit the Man in the Moon in the eye in Georges Méliès's early film *Le Voyage dans la Lune*, the earth's lone satellite had entranced humans. We have worshipped it as a deity, believed it to cause madness, used it as a means of organizing time, and we now know that it manipulates the tides—our understanding of the moon continues to evolve. Following the moon from its origins to its rich cultural resonance in literature, art, religion, and politics, Moon provides a comprehensive account of the significance of our lunar companion. Edgar Williams explores the interdependence of the Earth and the moon, not only the possibility that life on Earth would not be viable without the moon, but also the way it has embedded itself in culture. In addition to delving into roles the moon has played in literature from science fiction and comics to poetry, he examines how Elizabeth I was worshipped as the moon goddess Diana, the moon's place in folklore and astrology, and humanity's long-standing dream of inhabiting its surface. Filled with entertaining anecdotes, this book is the kind of succinct, witty, and informative look at everything lunar that only comes around once in a blue moon.

Moon Bernd Brunner 2010-11-18 Using werewolves and Wernher von Braun, Stonehenge and the sex lives of sea corals, aboriginal myths, and an Anglican bishop in this new book, the author weaves variegated information into a glimpse of Earth's closest celestial neighbor, whose mere presence inspires us to wonder what might be out there. Going beyond the discoveries of contemporary science, he presents a cultural assessment of our complex relationship with Earth's lifeless, rocky satellite. As well as offering an engaging perspective on such age old questions as "What would Earth be like without the moon?" he surveys the moon's mythical and religious significance and provokes existential soul searching through a lunar lens, inquiring, "Forty years ago, the first man put his footprint on the moon. Will we continue to use it as the screen onto which we cast our hopes and fears?" Drawing on materials from different cultures and epochs, he walks readers down a moonlit path illuminated by more than seventy-five vintage photographs and illustrations. From scientific discussions of the moon's origins and its chronobiological effects on the mating and feeding habits of animals to an illuminating interpretation of Bishop Francis Godwin's 1638 novel *The Man in the Moone*, his interdisciplinary explorations recast a familiar object in an original light.

Swinburne's Apollo Yisrael Levin 2016-04-01 Focusing on Algernon Charles Swinburne's poems on Apollo, Yisrael Levin calls for a re-

examination of the poet's place in Victorian studies in light of his contributions to nineteenth-century intellectual history. Swinburne's Apollonian poetry, Levin argues, shows the poet's active participation in late-Victorian debates about the nature and function of faith in an age of changing religious attitudes. Levin traces the shifts that took place in Swinburne's conception of Apollo over a period of four decades, from Swinburne's attempt to define Apollo as an alternative to the Judeo-Christian deity to Swinburne's formation of a theological system revolving around Apollo and finally to the ways in which Swinburne's view of Apollo led to his agnostic view of spirituality. Even though Swinburne had lost his faith and rejected institutional religion by his early twenties, he retained a distinct interest in spiritual issues and paid careful attention to developments in religious thought. Levin persuasively shows that Swinburne was not simply a poet provocateur who enjoyed controversy but failed to provide valid cultural commentary, but was rather a profound thinker whose insights into nineteenth-century spirituality are expressed throughout his Apollonian poetry.

Black Moon Kenneth Calhoun 2015-03-20 Imagine a world without sleep. A world driven to the brink of exhaustion. A waking nightmare. The world has stopped sleeping. Restless nights have grown into days of panic, delirium and, eventually, desperation. But few and far between, sleepers can still be found "a gift they quickly learn to hide. Matt Biggs is one of the sleepers. After six restless days and nights, Biggs wakes to find his wife gone. He stumbles out of the house in search of her to find a world awash with pandemonium. Sleep, it seems, is now the rarest and most precious commodity and there are those who would kill to have it!"

The Sleepless Moon Herbert Ernest Bates 2005

Black Moon Kenneth Calhoun 2015-01-20 For fans of *The Age of Miracles* and *The Dog Stars*, *Black Moon* is a hallucinatory and stunning debut that Charles Yu calls "Gripping and expertly constructed." Insomnia has claimed everyone Biggs knows. Even his beloved wife, Carolyn, has succumbed to the telltale red-rimmed eyes, slurred speech and cloudy mind before disappearing into the quickly collapsing world. Yet Biggs can still sleep, and dream, so he sets out to find her. He ventures out into a world ransacked by mass confusion and desperation, where he meets others struggling against the tide of sleeplessness. Chase and his buddy Jordan are devising a scheme to live off their drug-store lootings; Lila is a high school student wandering the streets in an owl mask, no longer safe with her insomniac parents; Felicia abandons the sanctuary of a sleep research center to try to protect her family and perhaps reunite with Chase, an ex-boyfriend. All around, sleep has become an infinitely precious commodity. Money can't buy it, no drug can touch it, and there are those who would kill to have it. However, Biggs persists in his quest for Carolyn, finding a resolve and inner strength that he never knew he had. Kenneth Calhoun has written a brilliantly realized and utterly riveting depiction of a world gripped by madness, one that is vivid, strange, and profoundly moving.
