Teaching and Learning in the Intermediate Multiage Classroom Alice Leeds 2002

Teaching and Learning in the Intermediate Multiage Classroom describes in practical detail a creative and effective teaching practice in multiage elementary classrooms, one that integrates challenging academics with personalized teaching and learning. Written by David Marshak, an educator who has studied multiage classrooms for over 12 years, and Alice Leeds, who has taught in multiage classrooms for over a decade, this book describes methods for teaching in this type of environment that provide a better form of education than the conventional age-graded classroom. Leeds and Marshak examine the benefits of multiage classrooms by exploring how such classrooms function and provide a detailed description of an individual unit designed to maximize the potential of this non-traditional form of intermediate education. By describing the benefits multiage classrooms provide in terms of personal, social, and academic achievement, plus outlining a process for teachers to become successful in this environment, this book is bound to interest administrators, teachers, and researchers in education.

Teaching in the Elementary School Judy W. Eby 2009 What are the behaviors or actions that teachers take to create high quality original curricula and programs for their students? The authors have searched out the most creative and adventurous teachers they could find and have weaved their real-life stories into the text. The text shows how teachers can inspire their students while still meeting the federal, state, and local guidelines and testing standards required in today's classrooms. Chapter One begins with a new, updated Reflected Action in Teaching Model designed for teachers who are planning with standards in mind. Each chapter then begins with a new case of how a teacher has tackled a problem in this standards-based environment applying this model. Both hands-on

and practical, the text also addresses how to incorporate technology in the classroom, empowering students to resolve conflicts, and preventing bullying. The real-life examples will encourage new teachers to be as reflective, creative, and independent as possible in today's teaching world.

Successful Teaching in the Elementary Classroom Phillip S. Riner 2000 This book covers classroom management, assessment, planning and various models of teaching, within a framework of thoughtful, critical inquiry. The book does an excellent job of combining effective teaching knowledge with constructivist perspectives of teacher development, and shows how teachers interpret and test knowledge. Includes an entire chapter on inquiry models of teaching. Addresses metacognitive aspects of teacher development in order to promote inquiry. Presents many issues in a question format that invites readers to interpret and reach their own conclusions. For Elementary School Educators and Administrators.

Creating Your Classroom Community Lois Bridges Bird 1995 What do you remember of your own elementary schooling experiences? Chances are the teachers you recall are those who really knew and cared for you as a unique individual with special interests, needs, and experiences. Now, as a teacher with your own classroom and students to care for, you'll want to create a classroom environment that supports each student as an individual while drawing the class together as a thriving learning community.

Creating Your Classroom Community offers the basics of effective elementary school teaching. You'll explore ways to: create a classroom that supports what we know about learning; build a sense of community through shared daily celebrations while helping each of your students to develop and practice self-responsibility; organize your classroom workspace to best support learning; construct a curriculum that focuses not only on what you will teach but how you will teach and evaluate it. draw on learning resources beyond the classroom door-how to turn to parents and the larger community for classroom support. Lois Bridges draws on years of teaching experiences and on the expertise of more than twenty talented classroom teachers from across the country. These educators generously shared their experiences and strategies for creating and maintaining a successful classroom learning community. Their stories inspire, their tips and techniques for effective teaching enlighten, and, in general, what works for them can work for you. Most important, you'll not only learn what to do to create a classroom community that fosters each student as a learner, but why to do it. You'll learn to take your instructional cues from your students rather than from textbooks or teaching manuals. And you'll learn how to use assessment data to guide your instructional decision making. You'll also learn how to revise your teaching through self-reflection. What seems to work well in your classroom and why? What isn't working as well and why? What do you need to rework and how should you go about it? Such questions lead to changes, to appraisal of the results, and to further revision, leading to ever-more effective teaching. With the author as your guide, visit the classrooms of twenty-one talented elementary school teachers. Their vision and expertise form the heart of this inspiring guide to effective teaching.

How to be Successful in Your First Year of Teaching Elementary School Tena Green

2010 The early years of any student s life, those first elementary school years, can be incredibly overwhelming and stressful, resulting in a slew of emotional, behavioral, and study problems that they rely on their teacher to help overcome. As a first year elementary school teacher, your role is more than just knowledgeable teacher; it is to become a mentor, a friend, and an older figure for young children to look up to. This can be overwhelming, and along with all of the other issues that face first year teachers, it can result in high turnover rates and problematic issues. This thorough, well research book has everything first-year teachers in elementary school need to learn how to deal with including supplies, planning, parents, overcrowded classrooms, the requirements of the No Child Left Behind Act, piles of paperwork, money shortages due to budget cuts, negativity from students and other staff members, at-risk students, students who are capable but choose not to work, and special needs students. You will learn how to ask principals and administrators for help, how to memorize names quickly, how to create seating charts, how to write lesson plans, how to follow a daily routine, how to help struggling readers, how to gain respect, how to get a mentor, how to develop and implement a grading system, how to discipline students, how to create assessments, how to find free things for teachers, and how to build your confidence. And of course, as a first year teacher to students learning how to interact with the world, you will learn how to converse with them on a mature level and help them overcome stresses and problems that they may face in life at school and at home. Also, you will read about where to go for support, the reality of spending your own money on classroom supplies, mandated tests, technology solutions, and behavior management skills. We spent countless hours interviewing

second year teachers, as well as veteran teachers, and have provided you with their proven techniques and strategies for surviving your first year as a teacher. This book will provide everything you need to effectively start teaching students that need a mentor, a teacher, and a friend at a young age and prepare you for your second year as you start becoming the inspiring force you always dreamed of being.
