Big Man on Campus Stephen
Joel Trachtenberg 2009-04-07
An eye-opening and at times
controversial insider's look at

~~the current state of higher~~
education in America, from one
of the nation's most
distinguished and down-to-
earth university presidents. At
a time when daily news
headlines scream of
competitive college
enrollments, skyrocketing
tuition, campus violence,
alcohol and drug abuse, and
other campus scandals, the
former president of The George
Washington University tells it
like it really is. Educated at
Columbia, Yale, and Harvard
universities, with a
membership in Phi Beta Kappa,
more than fifteen honorary
doctorates, four books, and
numerous published articles,
Stephen Joel Trachtenberg is
one of the leading voices in
American higher education.
Here he brings his thirty years
of experience, wisdom, and wit
to reveal what goes on behind
the scenes in the difficult and
rewarding challenge of running
a university. Using wonderful
anecdotes from his own life,
Trachtenberg explains with
compassion and his trademark
humor the insight he has

Serving The University Of Missouri A Memoir Of Campus

gained from the halls of learning. For parents who will write big checks to send their sons and daughters to college, for businesspeople of all kinds looking for leadership lessons, and for anyone invested in America's system of higher education, this book is a major work about the importance of sustaining our nation's natural brain trust.

Digital Social Work Lauri
Goldkind 2018-10-31 In a rapidly advancing technological culture, social work practitioners are frequently challenged to invent new strategies to meet client needs and foster social change. Despite the Council on Social Work Education's new standards for technology in social work practice, few schools of social work teach the use of technology for practice, and many instructors struggle with the integration of this increasingly necessary dimension into education. Digital Social Work is designed to offer engaging, meaningful, and easy-to-use technology content that can be incorporated into generalist and advanced social work practice courses. The chapters in this volume offer instructors and students insight into the knowledge, skills, and values required of those who practice social work 2.0; by providing concrete examples of

Serving The University Of Missouri A Memoir Of Campus And System Administration

technology tools, they complement traditional social work curricula dealing with micro, mezzo, and macro systems. Chapters can be used singly--to augment Practice, Research, or Policy courses--or can provide a format to discuss technology in courses addressing practice with individuals, youth, and families. Virtual worlds, social media, GIS, blogs, and many other technology tools are represented in this collection.

A History of Missouri 1977
Teardown Gordon Young
2021-02-23 After living in San Francisco for fifteen years, journalist Gordon Young found himself yearning for his Rust Belt hometown: Flint, Michigan, the birthplace of General Motors and the “star” of the Michael Moore documentary *Roger & Me*. Hoping to rediscover and help a place that had once boasted one of the world’s highest per capita income levels but had become one of the country's most impoverished and dangerous cities, he returned to Flint with the intention of

buying a house. What he found was a place of stark contrasts and dramatic stories, where an exotic dancer could afford a lavish mansion, speculators scooped up cheap houses by the dozen on eBay, and arson was often the quickest route to neighborhood beautification. Skillfully blending personal memoir, historical inquiry, and interviews with Flint residents, Young constructs a vibrant tale of a once-thriving city still fighting—despite overwhelming odds—to rise from the ashes. He befriends a ragtag collection of urban homesteaders and die-hard locals who refuse to give up as they try to transform Flint into a smaller, greener town that offers lessons for cities all over the world. Hard-hitting, insightful, and often painfully funny, *Teardown* reminds us that cities are ultimately defined by people, not politics or economics.

OAH Newsletter 2004

[Plenty Ladylike](#) Claire

McCaskill 2015-08-11 The senator from Missouri shares her “straightforward,

Serving The University Of Missouri A Memoir Of Campus And System Administration

plainspoken, and at once deeply personal and thoroughly political” (Publishers Weekly) story of embracing her ambition, surviving sexism, making a family, losing a husband, outsmarting her enemies—and finding joy along the way. Claire McCaskill grew up in a political family, but not at a time that welcomed women with big plans. She earned a law degree and paid her way through school by working as a waitress. By 1982 Claire had set her sights on the Missouri House of Representatives. That door was slammed in her face, but Claire always kept pushing—first as a prosecutor of arsonists and rapists and then all the way to the door of a cabal of Missouri politicians, who had secret meetings to block her legislation. In this candid, lively, and forthright memoir, Senator McCaskill describes her uphill battle to become who she is today, from her failed first marriage to a Kansas City car dealer—the father of her three children—to her current marriage to a

Missouri businessman whom she describes as “a life partner.” She depicts her ups and downs with the Clintons, her long-shot reelection as senator after secretly helping to nominate a right-wing extremist as her opponent, and the fun of joining the growing bipartisan sisterhood in the Senate. Unconventional, unsparing in its honesty, full of sharp humor and practical wisdom, and rousing in its defense of female ambition, “Plenty Ladylike is a powerful, unapologetic primer on the successful exercise of real power and what it takes to get it, keep it, and use it. This is a brilliant memoir that nearly explodes with encouragement for women on how to achieve their dreams” (Sheryl Sandberg, Facebook COO and author of Lean In).

Going After the Cows Gary L Jackson 2008-01-14 Decaying farmsteads with sagging unpainted houses, lone barns, and isolated windmills are common sights along roadways throughout America and particularly in the Midwest.

Serving The University Of Missouri A Memoir Of Campus And System Administration

Many small towns are in similar decline with empty stores, vacant houses, closed churches and schools. Some that were thriving in the 1950s are nearly gone. *Going After The Cows* is a memoir that describes the life of a farm boy living in one of those communities in northwestern Missouri in the 1940s and 50s. During that time he witnessed the transition from horsepower to tractor power and changes to the agricultural economy which caused people to leave rural areas and small towns. The author describes and reflects on experiences, institutions, and some of the people and special places that influenced his childhood. The narrative is divided into four interwoven parts. The first deals with daily events on the farm, including the havoc caused by a tornado and his experiences in rural schools and a country church. A second describes four neighbors who provided special memories: an alcoholic hired man; the author's nearest neighbor and hunting buddy; a wealthy

neighbor who could not drive, but owned the latest model automobile; and a well-educated eccentric bachelor who could quote the classics. Several chapters are devoted to special places, including the marsh and creek, and to activities such as duck hunting and fishing that enriched daily life and led to his appreciation of nature. In the final chapter he reflects on changes which have occurred in rural life during the past sixty years, pleads for better resource management, and speculates on the future of this and similar communities.

Serving the University of Missouri

James C. Olson 1993
Known for his long-standing service to the University of Missouri, Olson discusses the varied constituencies with which campus and system chief executives must deal and chronicles in detail his relationships with faculty, chancellors, board members, governors, and legislators

during his years at the university. An enduring theme in the history of the University of Missouri has been the effort to develop and maintain a quality institution in the face of numerous budgetary restraints. That effort was Olson's principal preoccupation as president, and he provides great insight into the problem of achieving optimal administrative arrangements in a time of fiscal limitations. Olson describes the creation of the University of Missouri System - one of the nation's earliest multicampus systems. He discusses the forces that engendered it and the processes by which its organizational structure was developed, providing an understanding of both the advantages and disadvantages of such a system. He explains how the "mother campus" at Columbia accommodated itself to the establishment of the new urban campuses in Kansas City and St. Louis, and how the satellite campus at Rolla was elevated to the status of a full-fledged coordinate campus.

Serving The University Of Missouri A Memoir Of Campus And System Administration

James Olson's vast administrative experience makes his discussion of institutional development and management from both campus and system perspectives a valuable contribution to educational history and theory. Anyone interested in educational administration or the history of American higher education will find *Serving the University of Missouri* engaging and informative.

Bread Lisa Knopp 2016-11-30

When she was 54, Lisa Knopp's weight dropped to a number on the scale that she hadn't seen since seventh grade. The severe food restricting that left her thin and sick when she was 15 and 25 had returned. This time, she was determined to understand the causes of her malady and how she could heal from a condition that is caused by a tangle of genetic, biological, familial, psychological, cultural, and

spiritual factors. This compelling memoir, at once a food and illness narrative, explores the forces that cause eating disorders and disordered eating, including the link between those conditions in women, middle-aged and older, and the fear of aging and ageism. Winner of the 2017 Nebraska Book Award for Memoir 2017 Choice Outstanding Academic Title
