1983

*Mosquito Fleet of South Puget Sound* Jean Cammon Findlay 2008 Before the advent of roads in western Washington, steamboats of the Mosquito Fleet swarmed all over Puget Sound. Sidewheelers, stern-wheelers, and propeller-driven, they ranged from the tiny 40-foot Marie to the huge 282-foot Yosemite, and from the famous

Flyer to the unknown Leota. Floating stores like the Vaughn and shrimpers like the Violet sailed the same waters as the elegant Great Lakes lady, the Chippewa, and the homely Willie. A few, like the Bob Irving and Blue Star, died spectacularly or, like Major Tompkins, shipwrecked after a short time, while others began new lives as tugboats or auto ferries; some even survive today as excursion boats like the Virginia V. From 1853 to modern car ferries in the 1920s, this volume chronicles the heyday of steamboating--a unique segment of maritime history--from modest launch to sleek liner.

information on “what is where” on each sector of coast, together with explanations of the landforms, their evolution and the changes taking place on them. As well as providing details on the coastal features of each country (state or county) the compendium can be used to determine the extent of particular features along the world’s coasts and to investigate comparisons and contrasts between various world regions. With more than 1440 color illustrations and photos, it is particularly useful as a source of information prior to researching or just visiting a sector of coast. References are provided to the current literature on coastal evolution and coastline changes.
