**Frank Stella's Stars: A Survey** 2021-03-16 Stars as minimalist and maximalist motif in the art of Frank Stella, from his earliest paintings to his most recent sculptures As a painter, sculptor and printmaker, Frank Stella (born 1936) has always paid great attention to geometric lines and patterns in his work, creating pieces that are arrestingly kaleidoscopic in both their form and content with bold lines and shaped canvases. This catalog, published for his 2020 exhibition at the Aldrich Contemporary Art Museum in Ridgefield, Connecticut, focuses in particular on the enduring use of star shapes in Stella's oeuvre. Stella's depictions of stars range from the minimalism of his early career, with lithograph prints of brightly colored polygonal patterns, to the maximalism of his more recent work seen in his towering angular sculptures made from stainless steel. Although he is well aware that his last name is the Latin word for star, Stella maintains that his fixation on the shape is inspired by its form and the endless possibilities that accompany the star, rather than its etymology. Both instantly recognizable and infinitely abstract, stars seem like an obvious choice for an artist who has dedicated his life to experimenting with form. In addition to a plates section of the 60 pieces included in the Aldrich show, this book presents installation shots throughout the museum's interiors and outdoor gardens, and photographs of the artist's studio. The curators of the exhibition, Richard Klein and Amy Smith-Stewart, worked closely with Stella on the exhibition installation and contribute major essays that add new dimensions to our understanding of a widely celebrated and influential artist.

**Stella!** Marie-Louise Gay 2020-05-28 Marie-Louise Gay published Stella, Star of the Sea more than ten years ago. It was an immediate hit, and since then she has written and illustrated four more books featuring the engaging, red-headed heroine, Stella, and her little brother, Sam — Stella, Queen of the Snow; Stella, Fairy of the Forest; Stella, Princess of the Sky and, most recently, When Stella Was Very, Very Small. With gentle humor, freshness, a sense of whimsy and exquisite watercolors, Marie-Louise Gay gives us stories about two young siblings discovering their world. Here at last are all five books bound into one delightful volume. The treasury contains new art for the cover and opening page as well as new decorative line art. When Stella Was Very, Very Small "When Stella was very, very small, she thought she was a turtle. She also thought that trees could talk and that words were like ants running off the pages of her books." This is the story of a lovely tiny Stella, whose world is full of small adventures and slivers of magic. And she delights in sharing it all with Sam when he comes along. Stella, Star of the Sea Stella and Sam are spending the day at the sea. Stella has been to the sea before and knows all its secrets, but Sam has many questions...and Stella has an answer for them all. The only thing she isn't sure of, and neither are we, is whether Sam will ever come into the water. Stella, Queen of the Snow Winter was never so magical as in this marvelous book about Stella and Sam discovering a familiar landscape transformed by a heavy snowfall. Stella delights in showing Sam the many pleasures of a beautiful winter's day, from skating and sledding to making snow angels in a fluffy, white magical world. Stella, Fairy of the Forest Little brother Sam wonders whether fairies are invisible. Stella assures him that she has seen hundreds of them and says that if she and Sam venture across the meadow and into the forest, they are likely to find some. But Sam surprises Stella and himself by having a few ideas of his own — ideas that ensure a wonderful end to a perfect day in the woods. Stella, Princess of the Sky Stella and Sam explore the wonders of the natural world. A vast luminous sky, the sun, the stars and the rising moon form the backdrop for their nocturnal expedition. As they encounter raccoons, fireflies, tree frogs and bats, Sam wonders if the moon can swim, if the sun wears pajamas or if he can catch shooting stars with his butterfly net. Stella, as always, has an answer for every question.

**Stella, Star of the Sea** Marie-Louise Gay 2020-05-28 Stella and her little brother are spending the day at the sea. Stella has been to the sea before and knows all its secrets, but Sam has many questions: "Does a catfish purr? Does a seahorse gallop?" Stella has an answer for them all. The only thing she isn't sure of, and neither are we, is whether Sam will ever come into the water. Exquisite, evocative watercolors bring a diaphanous day at the beach alive in this perfect summer story. Gently humorous, Stella, Star of the Sea also captures the relationship between an older sister and her baby brother — a responsibility that can be both lots of fun and very trying.

**Stella, Circus Star** Meredith Costain 2015 Originally published: South Yarra, Victoria: Macmillan Education Australia, 2013.

**Star Sister** Stella Osorojos 2012-03-20 Intuition was something that Laura Chamorro knew not to ignore. So when it told her to change her name to Stella Osorojos, she listened—and that's when things started to get strange. Following the I Ching, kabbalah teachers, channeled masters from Earth and beyond, and her own premonitions and dreams, Osorojos embarked on a remarkable journey of spiritual awakening and self-discovery. Whether receiving extraterrestrial visitations in her living room, sprouting ethereal wings while meditating, struggling with her desire to have a child, or traveling to the high mountains of Peru to visit Altomisayok shamans, Osorojos describes her unusual experiences with wry humor and unflinching honesty. Revealing startling insights into spirituality and the nature of reality itself, Star Sister is a testament to the possibilities that await anyone brave enough to trust in intuition, challenge preconceptions, and keep an open mind. **Stella the Rejected Star** Marc McCormack 2020-09-08 "Stella wasn't like all the other stars in the skies above Bethlehem. She was a four-pointed star in a five-pointed world, and the other stars teased her because of it. One December long ago, the stars heard an important event was about to happen. One of the stars would be chosen by God to lead the wisemen to the manger on Christmas. Could it be Stella? Not if the other stars get their way, and they will do anything to stop her! Stella's story shows us that oftentimes the ones considered different in the world are the ones who shine the brightest through their faith, hope, and love." Some of the proceeds from the sale of this book will be donated to autism-related charities.

Stella lives in the segregated South—in Bumblebee, North Carolina, to be exact about it. Some stores she can go into. Some stores she can't. Some folks are right pleasant. Others are a lot less so.
