Native Wine Grapes of Italy Ian D'Agata 2014-05-16 Mountainous terrain, volcanic soils, innumerable microclimates, and an ancient culture of winemaking influenced by Greeks, Phoenicians, and Romans make Italy the most diverse country in the world of wine. This diversity is reflected in the fact that Italy grows the largest number of native wine

grapes known, amounting to more than a quarter of the world's commercial wine grape types. Ian D'Agata spent thirteen years interviewing producers, walking vineyards, studying available research, and tasting wines to create this authoritative guide to Italy's native grapes and their wines. Writing with great enthusiasm and deep knowledge, D'Agata discusses more than five hundred different native Italian grape varieties, from Aglianico to Zibibbo. D'Agata provides details about how wine grapes are identified and classified, what clones are available, which soils are ideal, and what genetic evidence tells us about a variety's parentage. He gives historical and anecdotal accounts of each grape variety and describes the characteristics of wines made from the grape. A regional list of varieties and a list of the best producers provide additional guidance. Comprehensive, thoroughly researched, and engaging, this book is the perfect companion for anyone who wants to know more about the vast enological treasures cultivated in Italy.

The Man Who Ate Too Much: The Life of James Beard John Birdsall 2020-10-06 A Finalist for the 2022 James Beard Foundation Cookbook Award (Writing) The definitive biography of America's best-known and least-understood food personality, and the modern culinary landscape he shaped. In the first portrait of James Beard in twenty-five years, John Birdsall accomplishes what no prior telling of Beard's life and work has done: He looks beyond the public image of the "Dean of American Cookery" to give voice to the gourmet's complex, queer life and, in the process, illuminates the history of American food in the twentieth century. At a time when stuffy French restaurants and soulless Continental cuisine prevailed, Beard invented something strange and new: the notion of an American cuisine. Informed by previously overlooked correspondence, years of archival research, and a close reading of everything Beard wrote, this majestic biography traces the emergence of personality in American food while reckoning with the outwardly gregarious Beard's own need for love and connection, arguing that Beard turned an unapologetic pursuit of pleasure into a new model for food authors and experts. Born in Portland, Oregon, in 1903, Beard would journey from the pristine Pacific Coast to New York's Greenwich Village by way of gay undergrounds in London and Paris of the 1920s. The failed actor-turned-Manhattan canapé hawker-turned-author and cooking teacher was the jovial bachelor uncle presiding over America's kitchens for nearly four decades. In the 1940s he hosted one of the first television cooking shows, and by flouting the rules of publishing would end up crafting some of the most expressive cookbooks of the twentieth century, with recipes and stories that laid the groundwork for how we cook and eat today. In stirring, novelistic detail, *The Man Who Ate Too Much* brings to life a towering figure, a man who still represents the best in eating and yet has never been fully understood—until now. This is biography of the highest order, a book about the rise of America's food written by the celebrated writer who fills in Beard's life with the color and meaning earlier generations were afraid to examine.

The Sommelier's Atlas of Taste Rajat Parr 2018-10-23 Winner of the prestigious André Simon Drink Book Award The first definitive reference book to describe, region-by-region, how the great wines of Europe should taste. This will be the go-to guide for aspiring sommeliers, wine aficionados who want to improve their blind tasting skills, and amateur enthusiasts looking for a straightforward and visceral way to understand and describe wine. In this seminal addition to the wine canon, noted experts Rajat Parr and Jordan Mackay share everything they've learned in their decades of tasting wine. The result is the most in-depth study of the world's greatest wine regions ever published. There are books that describe the geography of wine regions. And there are books that describe the way basic wines and grapes should taste. But there are no books that describe the intricacies of the way wines from various subregions, soils, and appellations should taste. Now, for the first time ever, you can learn about the differences between wines from the 7 grand crus and 40 premier crus of Chablis, or the terroirs in Barolo, Champagne, and Bordeaux. Paying attention to styles, winemakers, soils, and the most cutting-edge of trends, this book explains how to understand the wines of the world not in the classical way, but in the modern way--appellation by appellation, soil by soil, technique by technique--making it an essential reference and instant classic.

4000 Champagnes Richard Juhlin 2005-08-30 Winner of the Louis Roederer International Champagne Writer of the Year Award 2005 4000 Champagnes, unprecedented in scope, plunges readers into the culture, history, and potential of this treasured beverage. Rich in description and practical in its application, 4000 Champagnes is divided into two main sections. The first is a passionate and comprehensive account of the Champagne region and its wines. It includes chapters on champagne's history, winemaking methodology, growing conditions, food matches, labels, a tour of the towns and villages of the French region, and sparkling wines from across the globe. In the book's groundbreaking and expansive section of tasting notes, Richard Juhlin provides the reader with practical information culled from his personal experiences at over 4000 tastings. A detailed portrait of each champagne house precedes a rating and description of each of the wines tasted there. Such depth of insight from a single source has never before been available. Written in Juhlin's authoritative and often humorous voice, 4000 Champagnes is an indispensable buying and tasting tool and an entertaining account of the history of champagne. The book includes several "best champagnes" lists, champagne statistics, telephone numbers and addresses of thousands of champagne producers, and a glossary. 4000 Champagnes is the supreme guide to a drink that has come to epitomize luxury and elegance.

A History of Wine in Europe, 19th to 20th Centuries, Volume II

Silvia A. Conca Messina 2019-12-02 This two-volume collection analyses the evolution of wine production in European regions across the nineteenth and twentieth centuries. France and Italy in particular have shaped modern viticulture, by improving oenological methods and knowledge, then disseminating them internationally. This second volume looks closely at wine markets and trade, also examining the role of institutions and quality regulation.

The Finest Wines of Burgundy Bill Nanson 2012 Burgundy has a far stronger hold over the imagination and passions of wine lovers than the relatively modest number of bottles it produces. Over the centuries, hundreds of plots of vineyard land were demarcated, farmed, and individually named. The monks who did this work noticed that each vineyard had a slightly different character, and that this difference was consistently expressed each year in the wine it produced. Today we call this phenomenon terroir, and in Burgundy it finds its fullest expression through the region's signature varieties, Chardonnay and Pinot Noir. This sumptuously illustrated and beautifully produced guide, complete with maps and more than 150 full-color photographs, leads readers on a journey through the well-worn vineyard paths and into the cellars of the Côte d'Or. Bill Nanson's informative narrative describes the region's vineyards and vintages, as well as the cultural, historical, and personal realities involved in their translation into wine.

New France Andrew Jefford 2006-07-01 This comprehensive wine atlas leaves no centimeter of terroir unexplored. After a thorough introduction to France, French winemaking and the concept of terroir, Jefford (Wine

Tastes Wine Styles) gets to the heart of the matter with lengthy chapters on each of France's 14 regions. Each of these consists of an overview of the region and its history, profiles of the area's major winemakers, a description of the land and listings and descriptions of the local wineries. Some of the latter are lengthy, while others are brief, but all include an address and phone number, making this book useful as a guidebook as well. Jefford is refreshingly opinionated: the Loire Valley is in the throes of a "long and refined stone age," while Zind-Humbrecht in Alsace is the domain "most emblematic of the New France as a whole." The effort here is encyclopedic, but the writing rises above the usual dry discussion, comparing the quest to understand Burgundy to doing crossword puzzles. Even the most matter-of-fact information is presented with a certain flair: in a description of the Rhone Valley, Jefford explains that the area's mistral wind is both destructive and useful, in that it blows away "fugs and fungal diseases." Numerous maps and photographs—including portraits of the winemakers profiled—and a full list of vintages round out this entertaining addition to its field.

Wine and Society Stephen Charters 2006 Divided into four parts, this book examines the context of wine production, the wine consumer, and the social context of wine. It discusses themes like the historical, geographical, and cultural factors and the way they shape wine production and consumption, wine production, marketing differentiation, the contemporary wine consumer and lifestyle factors, and politics and the economics of wine.
