A Hangman's Diary Franz Schmidt 2015-02-03 From 1573 to 1617, Master Franz Schmidt was the executioner for the towns of Bamberg and Nuremberg. During that span, he personally executed more than 350 people while keeping a journal throughout his career. A Hangman's Diary is not only a collection of detailed writings by Schmidt about his work, but also an account of criminal procedure in Germany during the Middle Ages. With analysis and explanation, editor Albrecht Keller and translators C. Calvert and A. W. Gruner have put together a masterful tome that sets the scene of execution day and puts you in Master Franz Schmidt's shoes as he does his duty for his country. Originally published more than eighty years ago, A Hangman's Diary gives a year-by-year breakdown on all of Master Schmidt's executions, which include hangings, beheadings, and other methods of murder, as well as explanations of each crime and the reason for the punishment. An incredible classic, A Hangman's Diary is more than a history lesson; it shows the true anarchy that inhabited our world only a few hundred years ago. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. The Beast Within Joyce E. Salisbury 2012-11-12 Praise for the first edition: "...a brave and fascinating exploration of an area that has so far been rather neglected by both historical and literary critics. The Beast Within provides extremely valuable information on the legal and cultural background of the human-animal relationship..." -- Studies in the Age of Chaucer This important book offers a unique exploration of the use of and attitude towards animals from the 4th to the 14th centuries. The Beast Within explores the varying roles of animals as property, food and sexual objects, and the complex relationship that this created with the people and world around them. Joyce E. Salisbury takes an interdisciplinary approach to the subject, weaving a historical narrative that includes economic, legal, theological, literary and artistic sources. The book shows how by the end of the Middle Ages the lines between humans and animals had blurred completely, making us recognise the beast that lay within us all. This new edition has been brought right up to date with current scholarship, and includes a brand new chapter on animals on trial and animals as human companions, as well as expanded and updated discussions on fables and saints, and a new section on 'bestial humans'. This important and provocative book remains a key work on the historical study of the animals, as well as in the field of environmental history more generally, and also provides crucial context to ongoing debates on animal rights and the environment.

Polly Bemis Priscilla Wegars 2020-10 Polly Bemis, the mistakenly named "Lalu Nathoy" of books and film, was forcibly brought to the United States, and to Idaho Territory, in 1872 when she was just eighteen. In 1894 she married a Euroamerican man, Charlie Bemis, and they moved to a mining claim on the remote Salmon River; Charlie died in 1922 and Polly died in 1933. Since her death, Polly Bemis's life has been

greatly romanticized. Supposedly, she was a prostitute, "Hong King" was her Chinese owner, and Charlie Bemis "won her in a poker game." Not one of these statements is true. Polly's life was genuinely fascinating, and it is time to both celebrate the known facts about her and allow the stereotypical, undocumented legends to die out.

A Hundred Little Pieces on the End of the World John Rember 2020-03-15 Written with clarity, tenacity, humor, and warmth, A Hundred Little Pieces on the End of the World attempts to find tolerable ethical positions in the face of barely tolerable events—and the real possibility of an intolerable future. It is a compelling, surprising, disturbing, and highly literate work of reportage and contemplation. It is both a collection of gentle-spirited wisdom and a rumination on ruin, as if distilled in equal measure from the spirits of Norman Maclean's A River Runs Through It and Cormac McCarthy's The Road. Through these ten essays, each further broken into ten smaller pieces, Rember examines the practical and ethical dilemmas of climate change, population, resource depletion, and mass extinction. At the same time, he never forgets those improbable connections between human beings that lead to moments of joy, empathy, and grace.

The Intermediary Lin Tull Cannell 2018-11-13 What happens when cultures clash, and one person tries to get them to live together? At a time when Americans were only exploring what are now western states, William Craig tried to broker peace between native Nez Perces and newcomers from the East. A native Virginian on the run, Craig became a mountain man, married into the tribe, immersed himself in two cultures on a collision course. Craig's story and that of the people around him, told here for the first time, mixes bravery, cowardice, courage, deceit, intrigue - and timeless lessons about the challenges awaiting those who would be peacemakers.

Gardening in the Treasure Valley Margaret Lauterbach 2013-12 As the Idaho Statesman's weekly gardening columnist for 20 years, author Margaret Lauterbach has advised Treasure Valley gardeners on everything from sowing to composting to coping with the Valley's soils, pests, diseases and unique climate. This book features her very practical advice in an organized format. Lauterbach, who has gardened in Boise for more than 40 years, has been a master gardener and an advanced master gardener in Ada County. *Mike Holt's Illustrated Guide to Electrical Exam Preparation, Based on the 2017 NEC* Mike Holt 2017-05-02 *Anything Will Be Easy after This* Bethany Maile 2020-09-01 Bethany Maile had a mythological American West in mind when she returned to Idaho after dropping out of college in Boston, only to find a farm-town-turned-suburb instead of the Wild West wonderland she remembered. Haunted by what she had so completely misremembered, Maile resolved to investigate her attachment to the western myth, however flawed. Deciding to engage in a variety of "western" events, Maile trailed rodeo queens, bid on cattle, fired .22s at the gun range, and searched out wild horses. With lively reportage and a sharp wit, she recounts her efforts to understand how the western myth is outdated yet persistent while ultimately exploring the need for story and the risks inherent to that need. Anything Will Be Easy after This traces Maile's evolution from a girl suckered by a busted-down story to a more knowing woman who discovers a new narrative that enchants without deluding.

Peg Leg Annie Bob Love 2019-03-27 In this book of Creative Non-Fiction based on the author's own life experience and extensive research, Love tells the story of an Idaho Territorial Legend in the first book

length treatment of Peg Leg Annie's life. Thousands of lines of prose were written of this legend but all have shared common errors and were redundant in context. Love's research and knowledge obtained through Annie's descendants and the author's ancestor reveal the hardships, and tragedies, of a 'Fallen Angels' spiritual resolve to survive and become an entrepreneur of her time. Love lays to rest the elusive identities of her long-term mate as well as Dutch Em, who shared her tragic trek over Mt. Baldy in 1896.

Sun Valley, Ketchum, and the Wood River Valley John W. Lundin 2020-06-29 Sun Valley and Ketchum are in Idaho's Wood River Valley, gateway to backcountry and wilderness areas. Settlers first arrived in the early 1880s, attracted by a silver rush. In 1883, the railroad connected the valley to the world beyond its borders and brought in outside capital. During the silver depression of the 1890s, mining was replaced by sheep raising, and the area later shipped more sheep than anywhere except Australia. In 1936, during the Great Depression, Union Pacific board chairman Averell Harriman built Sun Valley, the country's first destination ski resort, spending \$2.5 million in two years (\$45 million today). Sun Valley offered a lavish lifestyle, a luxurious lodge, Austrian ski instructors, and chairlifts invented by Union Pacific engineers. Known as America's St. Moritz, it was a magnet for beautiful people and serious skiers. It had a monopoly on grandeur for decades and influenced ski areas that developed later. Subsequent owners Bill Janss and the Holding family expanded and improved Sun Valley, making it one of the world's premier year-round resorts.

Working the Wilderness: Early Leaders for Wild Lands John McCarthy 2019-04-15 Working the Wilderness: Early Leaders for Wild Lands tells true stories about four men and one woman who established how to work in and be in the wilderness. They were guides for protection of wilderness and for the protectors who followed them. Their lives were immersed in service to wild land and the American People. They worked for the U.S. Forest Service, centered in the vast Selway-Bitterroot Wilderness of Idaho and Montana. Three were active before and after the Wilderness Act of 1964. The younger two came in at the beginning of the modern wilderness era. They all adapted skills of the pioneers to the new land designation. Their stories celebrate heroes for the enduring resource of wilderness and point to the future to keep their legacies thriving.

Skiing Sun Valley: A History from Union Pacific to the Holdings John W. Lundin 2020 Union Pacific Railroad's Averell Harriman had a bold vision to restore rail passenger traffic decimated by the Great Depression: create ski tourism in Idaho's remote Wood River Valley. A \$1.5 million investment opened Sun Valley in December 1936 with a lavish lodge, luxury shopping, Austrian ski instructors and extensive backcountry skiing. Prestigious tournaments featured the world's best skiers. Chairlifts invented by Union Pacific engineers serviced skiers quickly and comfortably. Ski instructor and filmmaker Otto Lang recalled that seemingly overnight, it became "a magnet for the 'beautiful people,' a meeting place for movie stars and moguls, chairmen and captains of industry, Greek shipping tycoons, and peripatetic playboys--and playgirls--of the international social set." After World War II and Harriman's departure, Union Pacific's willingness to pay the \$500,000 yearly subsidy waned. Bill Janss purchased it in 1964 and reimagined it as a year-round resort but lacked the capital for growth. Sinclair Oil owners Earl and Carol Holding acquired it in 1977, revitalizing it into a premier resort with international status. Award-winning ski historian John W. Lundin celebrates America's first destination ski resort using unpublished Union Pacific documents, oral histories, contemporaneous accounts and more than 150 historic images.

Idaho Myths and Legends Randy Stapilus 2020 Reading Line: Fourteen Mind-Boggling Tales from the Gem State Did one woman single-handedly save the members of the Lewis and Clark expedition from certain death? According to legend, a woman from the Niimiipuu tribe who had been rescued from slavery by a white family felt led to advocate for the travelers. If not for her courage and compassion, the story of the American West might have taken a much different trajectory. Could there really be a monstrously large serpent plying the depths of Bear Lake? Many dismiss the stories as Native American legends originally told to keep whites from settling in the area. Yet, for over a century, alleged eyewitness accounts, newspaper articles, and even TV shows continue to feed belief in the existence of a Bear Lake Monster. Is it true that the town of Kellogg almost was named Jackass? According to legend, the discovery of ore that led to a massive silver rush in Idaho's panhandle should be credited not to Noah Kellogg, but to the down-on-his-luck prospector's mule, Bill. Unfortunately, neither Noah nor Bill reaped the full benefits of what became one of the world's richest mining districts. From President Cleveland's alleged love child to the

UFO highway, Idaho Myths and Legends of makes history fun and pulls back the curtain on some of the Gem State's most fascinating and compelling stories. Randy Stapilus is a former newspaper reporter and editor. His other books include *It Happened in Idaho*, *Speaking Ill of the Dead: Jerks in Idaho History*, and *Outlaw Tales of Idaho* (all Globe Pequot Press). A long-time Idaho resident, he now lives in Carlton, Oregon, with his wife, Linda.

Complexity in a Ditch Hugh T. Lovin 2017 Water--or the lack of it--has profoundly shaped the arid American West. On Idaho's Snake River Plain, the irrigation process has been particularly complex, influenced by local and national politics as well as geography and technology. Hugh T. Lovin's insightful articles, previously published in a wide array of scholarly journals, offer a thorough examination of the transformation and controversy that surrounds delivering water to the region's desert. Idaho historian Adam Sowards' valuable introduction sets Lovin's work in context and concludes, "No one knows irrigation better than Hugh Lovin, and the essays included here are gems of historical research."

Good Time Girls of the Rocky Mountains Jan MacKell Collins 2020-03-01 Throughout the development of the American West, prostitution grew and flourished within the mining camps, small towns, and cities of the nineteenth-century Rocky Mountains. Whether escaping a bad home life, lured by false advertising, or seeking to subsidize their income, thousands of women chose or were forced to enter an industry where they faced segregation and persecution, fines and jailing, and battled the hazards of disease, drug addiction, physical abuse, and pregnancy. They dreamed of escape through marriage or retirement, but more often found relief only in death. An integral part of western history, the stories of these women continue to fascinate readers and captivate the minds of historians today.

Idaho in World War II Students from Idaho State University's MGT 4499/5599 Class 2020-08-03 Although far from the front lines of war, the people of Idaho contributed to the US effort in World War II in myriad ways. Entrepreneurs perfected the dehydration of potatoes and onions that became staples of the rations that sustained Allied troops stationed around the globe. Idahoans mined rare metals and manufactured them into weapons and munitions that allowed US forces to compete with the technologies of their opponents. Local communities organized USO huts that provided coffee, cookies, and warm smiles to homesick troops in transit to and from the war. However, World War II also left an indelible mark on the state of Idaho. On the one hand, the federal government's ambitious construction of airports, buildings, and roads to support the war effort transformed a rural state that had lacked infrastructure. On the other hand, Idaho soil housed detention camps where American citizens were denied fundamental rights. And loss and heartbreak impacted nearly every community.

Educating LaRee Westover 2020-10-05 LaRee has spent her life educating from a young girl teaching a primary class through teaching her 7 children at home as well as teaching classes on herbs, oils, homeopathy, and more. This book is her memoir. This book is my memoir- a memoir that for several years now, I have known I would write one day. But let's set the record straight right here. Part, but only part, of the impetus for writing my memoir at this time, is the publishing of our daughter's book, *Educated*. I want to tell the story of my life as I really lived it and not in the dramatically fictionalized way others, based on my daughter's book, are telling it for me. I want my grandchildren to know who their grandmother is and

was, I want to be a force for good in their lives. Also, I feel a compelling desire to shine a light on homeschooling, herbal medicine, and the living of a conservative and Christian way of life.

From rainforest rivers to desert rivers, from tidal rivers to those along the Continental Divide, the author has waded and fished these waters over the decades. Along with his fishing adventures, the book also looks at the geography, the early explorers of, and the modern-day impacts on the rivers themselves.

Trucks Are for Girls Carolyn White 2018-11-22 After years of living on an isolated guest ranch in central Idaho without electricity, telephone, or daily mail service, Carolyn White returns to civilization in this sequel to the much-loved memoir, *Bricks Underneath a Hoop Skirt*. Accustomed to a primitive lifestyle, she buys a tiny cottage in the woods and continues cooking on a wood stove, sewing on a treadle machine, and frequently riding her three horses, often forgetting she has light switches, a truck parked in a driveway, and easy communication with the outside world. In *Trucks Are for Girls*, meet Carolyn's sole, off-grid neighbors, a cranky Vietnam vet and his precocious, freckle-faced daughter. Laugh as she confronts new types of wildlife, including the porcupine that comes in through the cat door and the stray bull that tries to eat her hay. Reunite with Lester, Monroe, and Squirrel, the cats she adopted while living on the guest ranch, and fall in love with Cody, the Australian shepherd that comes along shortly after she settles in McCall. With great warmth, detailed descriptions, and tongue-in-cheek humor, Carolyn continues with her stories of survival in rugged, high-mountain snow-country. Flashing back to her years of driving a team of horses, milking a cow, and cooking for a crew, she reveals the kind of lifestyle that most readers will never get to know until becoming completely immersed in her world-and falling as deeply in love with it as she did.
