Sensible Cruising Don Casey 1990-10 If wisdom can be defined as common sense that has withstood the test of time, then Sensible Cruising is a wise book. It explains: Why a sensible cruise is affordable to almost anyone. Why the boat of choice for most cruisers is under 35 feet. Why lowering the cost doesn't devalue the cruise. How simplicity minimizes insulation from the experience. How to think in terms of how little, not how much, is really required. Drawing heavily on the philosophy of the sage of Walden Pond, this book is a gentle guide to the art of commonsense cruising which, in hardcover, was one of the 10 best-selling sailing books of all time. Now available for the first time in paperback, Sensible Cruising, a former main selection of the Dolphin

Big adventures need a fair bit of planning and this book comes with a wealth of advice on how to go about it, while also providing the necessary inspiration. Escape Under Sail Leonard Skinner 2019-04-18 Foreword by Laurel Cooper, author of *Sell Up and Sail* Selling up and escaping to sea on their own boat is a dream that many think they can never make happen. *Escape Under Sail* is here to show you that it can be done, and for less money that you might think. This book delves to the very heart of what it takes and shows you exactly how you can go from casual

cruiser to long-term liveaboard. *Escape Under Sail* covers all of the crucial topics, including budget and costs, how to choose a boat, making sure crew are equipped and trained, letting go both practically and psychologically, preparation and provisioning, education and, most importantly, the challenges and rewards of living at sea. The book pays special attention to making the liveaboard dream come true for those with a limited budget, while providing further options for those with the means and desire to spend more and splurge where they like.

Written in the voices of both authors, so you can follow their experiences from each of their perspectives, which are sometimes wildly different, this practical handbook is peppered with personal anecdotes and hard-earned wisdom. Light-hearted but informative, it contains all the questions, answers, lists, figures and diagrams you need to make your liveaboard dreams come true.

Cost Conscious Cruiser Lin and Larry Pardey 1999-07-07 The pleasures and adventures of cruising under sail are amazingly affordable, say Lin and Larry Pardey. But to keep your dream on budget, you have to decide: Are you a cruiser or a consumer? In this book, a logical successor to their *Self-Sufficient Sailor* and *Capable Cruiser*, they discuss making your getaway plans, finding a truly affordable boat, keeping your outfitting costs and maintenance time under control, and learning to feel confident as you cruise farther afield. Their comparison of the gear considered necessary by many yachting experts and the gear carried by several cost-conscious cruisers will help you gauge whether you are buying the true necessities or overloading your boat with high-tech items that can break down and steal your sense of confidence offshore. The chapters on getting the most

from your cruising funds, the attributes of successful long-term voyagers, how to upgrade your boat with your own hands, plus answers to the then questions most frequently asked by potential cruisers will help you prepare to explore under sail. as Lin and Larry explain, "The decisions you make now will determine if you'll come back from your cruise feeling more empowered or more enslaved by today's consumer society."

The Capable Cruiser Lin and Larry Pardey 2010-06-08 Lin and Larry Pardey have now been cruising on board their own boats, racing, delivering, and repairing other people's boats for more than 44 years. After west-to-east and east-to-west circumnavigations, and voyages to more than 75 countries, they have a breadth of knowledge that few other boating authors possess. Most of the voyaging has been done on an earn-as-you-go budget that could be well within the reach of the majority of those whose dream is to set sail. Their motto? "Go small, go

simple, but go now!" The Pardeys' strengths are neatly symbolized by the boats they have built. Each one is romantically traditional, with swooping sheerlines, and is completely dependent on the wind. And yet each boat carries the best, strongest, and most seamanlike gear. Like their vessels, the Pardeys' writings are founded on a marriage of the spirit of romantic adventure and the practical, up-to-date seamanship that keeps them and their boats safe. This revised and expanded third edition of a cruising classic includes 10 completely new chapters with such advice as: sixteen ways to encourage your lover (partner) to share your dream; strategies for turning sudden engine failure into a minor incident; choosing safety equipment; repairing rigging at sea. All of the original chapters have been updated to ensure that the information will be helpful for everyone who dreams of cruising—whether now or soon. *The Capable Cruiser* is a logical extension of the

Pardeys' The Self-Sufficient Sailor, with more emphasis on seamanship underway, including careful analysis of extreme anchoring situations and solutions for mitigating them. Underlying each and every chapter is the warmth and encouragement that spurred Herb McCormick, former editor of Cruising World magazine, to label Lin and Larry Pardey "the enablers."
