**South Korea at the  
Crossroads** Scott A. Snyder  
2018-01-02 Against the  
backdrop of China's mounting  
influence and North Korea's

growing nuclear capability and  
expanding missile arsenal,  
South Korea faces a set of  
strategic choices that will  
shape its economic prospects  
and national security. In *South  
Korea at the Crossroads*, Scott  
A. Snyder examines the  
trajectory of fifty years of

South Korean foreign policy and offers predictions—and a prescription—for the future. Pairing a historical perspective with a shrewd understanding of today’s political landscape, Snyder contends that South Korea’s best strategy remains investing in a robust alliance with the United States. Snyder begins with South Korea’s effort in the 1960s to offset the risk of abandonment by the United States during the Vietnam War and the subsequent crisis in the alliance during the 1970s. A series of shifts in South Korean foreign relations followed: the “Nordpolitik” engagement with the Soviet Union and China at the end of the Cold War; Kim Dae Jung’s “Sunshine Policy,” designed to bring North Korea into the international community; “trustpolitik,” which sought to foster diplomacy with North Korea and Japan; and changes in South Korea’s relationship with the United States. Despite its rise as a leader in international financial, development, and climate-change forums, South

Korea will likely still require the commitment of the United States to guarantee its security. Although China is a tempting option, Snyder argues that only the United States is both credible and capable in this role. South Korea remains vulnerable relative to other regional powers in northeast Asia despite its rising profile as a middle power, and it must balance the contradiction of desirable autonomy and necessary alliance.

2017-11-30 In the post-Cold War era, US relations with the two Korean states - the Republic of Korea (ROK) and the Democratic People's Republic of Korea (DPRK) - have been undergoing profound changes, with critical and immediate repercussions for peace and security in the Korean Peninsula and Northeast Asia. This volume examines the key political, security and economic aspects of US-ROK and US-DPRK relations, focusing on the

current status, salient issues and future prospects. Drs Kwak and Joo are distinguished professionals in the field and their volume constitutes a very interesting addition to the available literature.

**The Search for a Unified Korea** Eui-Gak Hwang  
2010-03-11 North Korea's brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing, as the country's leader, Kim Jong-Il, is rumored to be terminally ill with pancreatic cancer. North Korea appears to be in a state of serious internal crisis not only because its dictatorial system, albeit skillful and ruthless

leadership, is inherently unstable, if not skillful and ruthless leadership, but also because the main pillar of Kim Jong-Il's legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the North Korean people into nearby regions. The main objective of this book is to explore the probability of North Korea's implosion, and second to search for a feasible way for Korean reunification as a possible consequence of a big bang event on the peninsula. The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and surrounded by four big powers; namely, China, Russia, Japan, and the United States. Each country has its own varying degrees of political, economic, and military stakes with respect to the Korean Peninsula. Thus, the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers. As the North nears a turning point, however, there is

a new possibility for the two Koreas to reunite if the international environments work in their favor, and if both countries are well prepared to assume reunitation.

**North Korea and Northeast Asian Regional Security**

Simon Xu-Hui Shen 2016-04-14

With its unstable and intermittent nuclear weapon project, and the recent leadership succession issue, Democratic People's Republic of Korea (DPRK) has been a source of insecurity for the past decade in this region, in addition to the delicate international relations among the powerful China, United States, Japan, and Russia. The essence of DPRK issue lies in the instability and uncertainty of nuclear development that even the slightest miscalculation by any one power could disturb the sensitive balance of relationships, creating a butterfly effect with a catastrophic result. Drawing on

various perspectives on the interaction over DPRK and other regional powers, this volume seeks to explore the role of DPRK in Northeast Asia, and its implication to regional security as a whole. The volume does not confirm a particular position over DPRK's nuclear showdown; rather it invites scholars to provide assessments from the viewpoints of neighbouring powers in order to present a more complete understanding of the leading issue in Northeast Asia. The volume will serve as an invaluable resource for policymakers, students and scholars of North Korean politics and international relations. This book was published as a special issue of the Journal of Comparative Asian Development.

The Future of the Korean

Peninsula Mason Richey  
2021-07-28 This book considers both Koreas - North Korea and South Korea - to examine possible pathways for the years leading up to 2032 and beyond, thus offering a composite picture of Korea and its strategic relevance in Asia and the world at large. Through a combined South-North Olympic team and an effort of jointly hosting the Games, Republic of Korea president Moon Jae-in has marked the year 2032 as special in the future of the Korean Peninsula. Although the International Olympic Committee (IOC) has expressed scepticism about a combined hosting of the Games, the expectation in Korea is that this event will underline the shared destiny of the people inhabiting the peninsula and realign two states still caught in an ideologically fraught civil conflict that is one of the last vestiges of the Cold War. Chapters begin with a brief historical review and analysis of the present, before moving to consider how these will shape the next decade,

drawing comparative and complementary analyses. No matter how contrasting the contemporary trajectories of both North and South Korea might appear, 'Korea' as a singular entity is an old concept still containing great possibilities. As the ongoing inter-Korean reconciliation process underscores, the futures of North and South Korea can be found in a complementary singular Korea, which would again represent an important political, strategic, cultural, and social space in Asia. An evaluation of the future trajectory, social awareness and perception of the Koreas, this book offers a valuable contribution to the study of North and South Korea and Asian Politics.

### **Strategic Thinking about the Korean Nuclear Crisis**

**G. Rozman** 2007-09-17 This study makes northeast Asia the focus of analysis on how the nuclear crisis in 2002-2006 affected strategic thinking. While all those in the Six-Party Talks are included, the author explores in particular debates about the standoff in four countries on the front lines (South Korea, China, Japan, and Russia).

### The Six-Party Talks on North Korea

**Mi-yeon Hur** 2018-01-03 The book traces the past decade of dynamic interactions among the concerned states involved in the Six-Party Talks on North Korean nuclear programs. Unlike existing studies which usually dissect incidents of the talks, the book provides a comprehensive systemic analysis of the Six-Party Talks process from A to Z. These new insights into the nuclear drama in the Northeast Asian region will be of value to scholars, policy makers, and analysts.

2016-05-23 Relations between the two Koreas continue to be hostile, volatile and unpredictable with North Korea's nuclear issue remaining as untamed as ever. As such, there is a growing urgency for security cooperation in Northeast Asia to be given immediate attention. The key players in the region - the US, China, Japan and Russia - are keenly aware of the security threat of an armed clash between North and South Korea and are committed to denuclearization of the Korean peninsula. This book explores the domestic factors of the two Koreas and the four major powers that influence their security policies towards North Korea and Northeast Asia. This well thought out and consistently analysed volume has huge potential to frame the conversation on Northeast Asian relations in the coming years.

### Four Neighboring Powers

Bae, Jung-Ho 2013-01-30 As the debate about unification has recently been enlivened in Korean society, the flame of hope for unification is being re-kindled. However, there are still many who focus solely on the enormous costs involved, while others remain passive toward the unification issue. Particularly members of the younger generation feel satisfied with 'co-existence under an unstable peace' as a divided peninsula. However, as indicated in a special report by the Russian Institute of World Economy and International Relations (IMEMO) which assessed that "North Korea is already in the process of collapse," the unification issue is no longer something we can avoid. Therefore, armed with this consciousness of the problems of our era, this project assesses the significance of the recent rekindling of interest in unification and considers a new vision of unification and its potential value, dealing intensively with the positions

and roles of the four neighboring powers regarding unification as well as ideas for strategic cooperation among South Korea and its powerful neighbors. The publication of this project owes much to the diligent efforts of KINU research associates such as Hyo Min Lee, Uichan Ko and Jisuk Park who reviewed and edited the various papers. Also, the English version of this publication benefited greatly from the accurate translations done by research associates Meredith Rose Shaw and Hyo Min Lee. It is the editor's hope that this research project can help both Korean and foreign experts, academics, and readers to better understand the value of Korean unification and the various positions and roles that can be played by the US, Japan, China and Russia. 2016-11-10 On the Korean peninsula, there exist two sovereign states—the Republic of Korea (ROK or South Korea)

and the Democratic People's Republic of Korea (DPRK or North Korea)—both of whom hold separate membership at the United Nations. This book discusses the construction of "one Korea" and highlights the potential benefits of unification for the Koreans and the international community. Arguing that Korean unification is intrinsically international in nature, the authors outline how the process and outcome would impact upon the policies of the four major powers—the U.S., China, Russia, and Japan. In addition, the authors highlight the possible far-reaching repercussions of unification on the political and economic dynamics of Northeast Asia. Making a case for the two Koreas and interested powers to plan and orchestrate their acts for sustained peace and gradual unification on the Korean peninsula, this book examines the Korean question and the related issue of peace building in Northeast Asia from a global perspective. It will be of interest to students and scholars researching politics

and international relations.

### **The Security Situation in the Korean Peninsula** Chŭng-yŭl Kim 1990

*North Korea's Foreign Policy under Kim Jong Il* Seung-Ho Joo 2016-12-05 The Democratic People's Republic of Korea (North Korea) joined the rank of nuclear powers in October 2006 after exploding its first nuclear device. The test was not fully successful yet it unequivocally demonstrated North Korea's nuclear weapons capability. North Korea under the leadership of Kim Jong-il remains as unpredictable and mysterious as ever. This comprehensive study brings together leading scholars in the field to examine the country's current foreign policy under Kim Jong-il as well as its bilateral relations with the USA, China, Russia, Japan and South Korea.

### Korea in the 21st Century

Seung-Ho Joo 2001 At the turn of the second millennium, Koreans face multiple challenges at home and abroad. South Korea is still in the throes of democratisation

and economic reforms, while North Korea faces food shortages and other economic difficulties. The two Koreas need to manage the unification process so as to bring about national harmony and promote economic prosperity. The Korean people need to devise a new security strategy for a unified Korea to ensure its survival and independence in the early 21st century. This collection is divided into three parts, and each addresses an important issue area confronting the Korean people in the 21st century. Part I examines South Korea's democratisation and economic reforms against the backdrop of the East Asian financial crisis. Part II discusses the problems and prospects for inter-Korean relations and the characteristics of North Korea's foreign policy behaviour. Part III analyses South Korea's security relations with the four major powers at the turn of the new millennium. All chapters are written by renowned experts in their fields and offer valuable

insights into the dynamics of the two Korean's domestic politics and foreign policy.

**Global Expectations for Korean Unification** Kyuryoon Kim et al. 2014-12-31 The current research aims to provide analytical understandings on the costs and benefits of Korean unification from political, social, and economic aspects. Upon the two years of earlier works, we constructed an analytical model encompassing both spatial and temporal dimensions of the unification process, and built comprehensive architecture, 'the Guiding Type of Unification.' Based on this model, we have broaden the scope of the research by collecting diverse perspectives from the worldwide experts of the leading countries. We expect to observe the global trends of world governance. Indeed, the increasing importance of Group of Twenty (G-20) countries in managing global problems reflects both political and social aspects of the changes occurring in global

governance. Another reason for this would be South Korea's diversified international relations in the recent years. Hence, it seems necessary to take a closer look on the international dimensions of Korean unification. In this vein, we requested thirteen experts of the leading countries to express their opinions on Korean unification. In order to collect international perspectives in a coordinated manner, scholars were provided with a guideline to include their perspectives on the expected effects of Korean Unification and the potential roles of their countries during and after the process. Participants were also asked to present candid implications for Korean unification. Argentina, whose food supply is abundant, laid stress on providing assistance in terms of food security during the unification. Australia, who has special concerns in Asian security, suggested a comprehensive support not only as a mediator but also as one of the U.S. alliance. Due to remote

distance to Asia, Brazil is relatively less affected by the unification. Brazil, however, expressed that it has a keen interest in transmission of its experience regarding nuclear issues with Argentina. Similar to Brazil's stance, the effects of the unification influence is indirect to Canada.

Nevertheless, Canada could play a role in providing humanitarian assistance, and could be a potential destination for North Korean refugee resettlement. France, one of the most influential members in the European Union and the United Nations, made a suggestion to promote institution building in East Asia that can promote stability in the region. Germany, the only country who had experienced unification, presented its interest in participating actively in the process of Korean unification through public and private sectors. India assumed that the unification of Korea leads to the denuclearization of the peninsula, and would see this as a positive sign for stability of

the region, since it would limit or end North Korea's nuclear weapon transmits with Pakistan. Indonesia could contribute to regional peace and stability through ASEAN and its extensions as South Korea can call upon Indonesia to engage in the peace process. Italy, who especially pointed out the role of European Union as a whole, is well-poised to contribute to economic and social development with North Korea through technical assistance. Mexico can, and expressed its willingness to play an active role in the unification process through international organizations. South Africa, who had been successful in national reconciliation and denuclearization, is very likely to provide its experience and can be a strong voice for the NPT and arms control in the international society. Advocating South Korea's policy in Korean unification, Turkey explicitly mentioned that it will side with Seoul if there is a possible conflict in the peninsula. The author

emphasized that the international community must be well-informed on how Korean unification will take place. Last but not least, the United Kingdom author suggested that Koreans will have to resolve emotional conflicts for reconciliation. Considering how both Koreas have dealt educational matters concerning the division of the peninsula, this may face a major challenge in the future generation. Thirteen countries' diversely manifested positions on the unifying process are indicative of perceptual change that the issue of Korean unification is no longer a regional issue, but an international one, in which multiple actors have their own stakes within. Upon the previously suggested implications, we categorized the countries into three groups: bystanders, supporters, and interveners. This categorization reflects the assertiveness of each country, or coercive level of each country's assistance instrumented towards the two

Koreas during the unifying process. In the conclusion, based on our final analysis, we provided recommendations for the policy makers. First, diversified diplomacy creates an amicable international environment for unification policies beyond the power politics of the Four Powers. Second, activation of leading countries' roles is strategically advantageous to activate the meaningful roles of these leading countries to minimize the Four Powers' concerns. Third, emphasizing the formation of multilateral system would provide leading countries with an additional motivation to actively participate in the unification process. Furthermore, multilateral efforts to achieve Korean unification are also expected to contribute to the furtherance of democratic elements in the dynamics of international relations as a whole. Fourth, it is now high time for us to conduct more public diplomacy by devising new and creative methodologies. The global

research project of this kind could be one of the most effective public diplomatic tools. Lastly, the unification between two Koreas can no longer be considered as a regional issue within Northeast Asia since others, including the leading countries, conceive their national interests along the process of unification on the Korean peninsula in diverse ways. Overall, thirteen countries' recommendations underline the significance of collective efforts in addressing the unification process and suggest South Korea to learn lessons from the experience that they have undergone in the past. CONCLUSION References Recent Publications Negotiating with North Korea Leszek Buszynski 2013-10-01 North Korea's nuclear weapons program has provoked much apprehension in the international community in recent years. The Six Party Talks were convened in 2003 to prevent North Korea from developing nuclear weapons. They brought together the US, China, Russia, Japan as well as North and South Korea in the effort to negotiate a multilateral resolution of North Korea's nuclear program but the parties had widely different views and approaches. This book will examine the Six Party Talks as a study in multilateral negotiation highlighting the expectations vested in them and their inability to develop a common approach to the issue. It holds out some important lessons for multilateral negotiation, diplomacy and

dealing with North Korea.

### **Korea, the Divided Nation**

Edward Olsen 2005-09-30

Following its liberation from Japanese colonialism, at the end of WWII, Korea was

divided into two separate nations. Because the Korean nation enjoyed a long dynastic history, its postwar partition was particularly traumatic. The ensuing Cold War years spawned the Korean War and subsequent decades of strained inter-Korean relations and tensions in the region surrounding the peninsula. This volume provides readers who are unfamiliar with Korea's heritage insight into how Korea became a divided nation engulfed in international geopolitical tensions, providing expert analysis of this rendered nation's background, modern circumstances, and future prospects. The Korean peninsula in Northeast Asia is home to a country that was divided at the end of the Second World War after its liberation from Japanese colonialism. Because the Korean nation enjoyed a long dynastic history, its postwar partition was particularly traumatic. The ensuing Cold War years soon spawned a very hot Korean War and subsequent decades of strained

inter-Korean relations and tensions in the region surrounding the peninsula. This volume provides readers who are unfamiliar with Korea's heritage with insight into how Korea became a divided nation engulfed in international geopolitical tensions, providing expert analysis of this rendered nation's background, modern circumstances, and future prospects. After a survey of Korea's geographic setting and historic legacy, Olsen details the circumstances of Korea's liberation and subsequent division. Drawing on that background, he analyzes the evolution of both South Korea and North Korea as separate states, surveying the politics, economics, and foreign policy of each. What are the key issues for each state from an international perspective? What are the prospects for reuniting the two into one nation? What challenges would a united Korea be likely to face? Olsen determines that stability in Korea is essential to future peace in the region. He

concludes that a successful move toward unification is the best way to resolve issues connected to North Korea's nuclear agenda.

Korean Security in a Changing East Asia Terence Roehrig  
2007-08-30 Since its partition in the 1950s, the Korean peninsula has directly or indirectly shaped the broader security relations between regional powerhouses, and the recent test of a nuclear weapon by the North Korean regime has heightened tensions across the world. This study draws upon contributions from a diverse array of experts who offer their perspectives on the region's complex network of alliances and hostilities. The authors discuss the future of the region, the potential for military conflict and a new arms race, and the ways to maintain peace and stability. Korean regime has heightened tensions across the world. Japan, feeling increasingly threatened by the North Korean regime and China's extravagant military expenditures, has begun questioning Article IX in its Constitution that renounces war and the maintenance of armed forces. Its neighbors, still haunted by Japanese atrocities during World War II, are fearful of a new nuclear arms race in the region. The United States, for its part, has adopted unprecedented hard-line policies in response to 9/11, going so far as to condemn North Korea as part of an axis of evil. It has strengthened its alliance with Japan and alienated its long-time strategic partner South Korea. Add to this the economic entanglements of each of these countries both with each other and with the rest of the world, and the regional security issues become even more paramount. This study makes sense of these complex alliances and frictions and offers an array of

perspectives on the future of the region, the potential for military conflict and a new arms race, and the ways to maintain peace and stability. Topics include big power rivalries, South Korea's sunshine policy, anti-Americanism, and emerging nationalisms.

*The Korean Peace Process and the Four Powers* Tae-Hwan Kwak 2018-12-20 This title was first published in 2003. After the inter-Korean Summit in 2000, the Korean peace process gained a new momentum and the two Koreas increased mutual contacts and exchanges. However, in 2001 the peace process stalled and was further hindered by Bush's hard-line policy towards Pyongyang and North Korea's inflexible attitudes towards Seoul. Interest in the Korean peninsula by the US, Russia, Japan and China, for geo-strategic and geo-economic reasons means that peace and unification will inevitably become an international problem. Against this backdrop, this original volume

deals with the problems and prospects of the inter-Korean peace process and the interests, attitudes and policies of these major powers.

**Antimilitarism** Cynthia Cockburn 2012-04-11 People come together in movements to end war from many political traditions. They are socialists, communists and anarchists, people of a variety of faiths, secularists, pacifists and feminists. They share a belief that peace is possible, but have divergent views on the causes of militarism and strategies to end it. As both peace activist and social researcher, Cynthia Cockburn is well placed to ask, 'How coherent and cohesive are we?' The book presents

original case studies of anti-war, anti-militarist and peace movements in Japan, South Korea, Spain, Uganda and the UK, of international networks against military conscription and the proliferation of guns, and of singular campaigns addressing aggression against Palestinians and the expansion of NATO. The stand-alone chapters make ideal course readings. Scanning the political spectrum, but always with a gender lens, the author carefully uncovers the movements' many tensions and antagonisms, looking for the source of alliance that may make of these and a multitude of other groups, organizations and networks worldwide an unstoppable movement for change. Between the nihilist view that violence is inevitable and the utopian belief in the possibility of a violence-free world is an achievable goal of violence reduction, both in times of war and in times called peace. Violence is, much more often than we think, a choice.

### **Korea's Future and the Great Powers**

Nicholas Eberstadt 2012-03-15 The eventual reunification of the Korean Peninsula will send political and economic reverberations throughout Northeast Asia and will catalyze the struggle over a new regional order among the four great powers of the Pacific♦Russia, China, Japan, and the United States.

*Korea♦s Future and the Great Powers* addresses the vital issues of how to achieve a stable political order in a unified Korea, how to finance Korean economic reconstruction, and how to link Korea into a cooperative framework of international diplomatic relations.

*The Peninsula Question* Yoichi Funabashi 2008-09-01 In October 2002 the United States confronted North Korea with

suspicious that Pyongyang was enriching uranium in violation of the Agreed Framework that the nations had worked out during the Clinton administration. North Korea subsequently evicted international monitors and resumed its nuclear weapons program. The Peninsula Question chronicles the resulting second Korean nuclear crisis. Japanese journalist Yoichi Funabashi, informed by interviews with more than 160 diplomats and decision makers from China, Japan, Russia, South Korea, and the United States, provides a behind-the-scenes look at the negotiations to denuclearize the peninsula. Between 2002 and 2006, a series of top level diplomats, including the prime minister of Japan, attempted to engage with North Korea. Funabashi illustrates how the individual efforts of these major powers laid the groundwork for multilateral negotiations, first as the trilateral meeting and then as the Six-Party Talks. The first four rounds of talks

(2003–2005) resulted in significant progress. Unfortunately, a lack of implementation after that breakthrough ultimately led to North Korea's missile tests in July and subsequent nuclear tests in October 2006. The Peninsula Question provides a window of understanding on the historical, geopolitical, and security concerns at play on the Korean peninsula since 2002. Offering multiple perspectives on the second Korean nuclear crisis, it describes more than just the U.S. and North Korean points of view. It pays special attention to China's dealings with North Korea, providing rare insights into the decision-making processes of Beijing. This is an important, authoritative resource for understanding the crisis in Korea and diplomacy in Northeast Asia.

*Peace Regime Building on the Korean Peninsula and Northeast Asian Security Cooperation* Seung-Ho Joo

2016-05-13 A permanent peace regime on the Korean

peninsula has yet to be achieved even though the Korean War came to a halt more than half a century ago. Without a peace treaty formally ending the Korean War, the two Korean states are technically still at war. The current situation on the Korean peninsula is extremely tense and precarious, and tensions and distrust between the two Koreas and between the U.S. and North Korea escalated in the wake of North Korea's second underground nuclear weapons testing in 2009. The editors of this volume conceptually present a two-track (inter-Korean and international) approach to Korean peninsula peace-regime building. They argue that an inter-Korean and international approach should be pursued simultaneously for the construction of a permanent peace regime on the Korean peninsula. The contributing authors are established specialists and experts on Korean foreign relations and Northeast Asian international relations. As natives of the

U.S., Korea, China, and Japan, they provide objective, scholarly and diverse perspectives on the Korean peace regime building.

cases of Korea, Germany and Japan, and considers how these countries have moved to address and come to terms with their wartime past. This book moves to deliver messages of hope and vision on how to further the values of peace, reconciliation and cooperation in the twenty-first century."

Soft Power Mingjiang Li  
2009-08-15 Soft power has become a very popular concept in international affairs, appearing in government policy papers, academic discussions, and the popular media. In China, soft power has become one of the most frequently used phrases among political leaders, leading academics, and journalists. Defined against hard power, which often involves threat and coercion, soft power applies attraction, persuasion, and cooperation, finding its sources in culture, political values, and foreign policies. China, rich in culture and traditional philosophy, boasts abundant sources of soft power. Soft Power attempts to analyze the domestic and

international views of China's soft power, the main strengths and weaknesses of China's soft power, and the application of soft power in China's international politics. It provides a comprehensive exploration of the soft power dimension in China's foreign relations by integrating views from various disciplines, such as history, education, culture, political economy, comparative politics, and philosophy. The book argues that soft power has become a very popular concept in China, that China is contemplating and exploring an innovative strategy in its rise and international politics, and that there have been quite a few notable elements of this in China's diplomatic practice, including softer rhetoric, promotion of the Chinese culture abroad, economic diplomacy, and image building. The book also argues that the limitations of China's soft power primarily stem from political values and China's own transitions, and reflects the reality that views and opinions regarding China's soft

power are fairly diverse both in China and in the international arena.
