**Streamlined ID** Miriam B. Larson 2019-12-09 Streamlined ID presents a focused and generalizable approach to instructional design and development - one that addresses the needs of ID novices as well as practitioners

in a variety of career environments. Highlighting essentials and big ideas, this guide advocates a streamlined approach to instructional design: producing instruction that is sustainable, optimized, appropriately redundant, and targeted at continuous

improvement. The book's enhanced version of the classic ADDIE model (Analysis, Design, Development, Implementation, and Evaluation) emphasizes the iterative nature of design and the role of evaluation throughout the design/development process. It clearly lays out a systematic approach that emphasizes the use of research-based theories, while acknowledging the need to customize the process to accommodate a variety of pedagogical approaches. This thoroughly revised second edition reflects recent advances and changes in the field, adds three new chapters, updates reference charts, job aids, and tips to support practitioners working in a variety of career environments, and speaks more clearly than ever to ID novices and graduate students.

**University Level** Walter Leal Filho 2016-05-31 This book introduces readers to the latest research and findings from projects focusing on teaching education for sustainable development at universities. In particular, it describes practical experiences, outline courses, training schemes and other initiatives aimed at promoting better teaching on matters related to sustainable development at institutions of higher education. In order to meet the pressing need for publications to support sustainable development education, the book places special emphasis on state-of-the-art descriptions of approaches, methods, initiatives and projects from around the world, illustrating how teaching education for sustainable development can be implemented at the international scale. The book represents a timely contribution to the dissemination of approaches and methods that may improve the way we perceive the importance of teaching

education for sustainable development, as well as how we implement it.
