Atlantic Reporter 1910

John Oxley Rob Tickle 2020-02-01 This immaculately and painstakingly researched book, through its biographies of Oxley, Evans, Fraser and Harris explains the impulses that drove these men to explore and map the colony, to collect, identify and categorise its flora. But it

succeeds in doing more than that because it also elucidates the motivations that drove them to become colonial entrepreneurs, farmers and businessmen, who in the pursuit of individual wealth advanced colonial prosperity. This important book makes an invaluable contribution to our understanding of Australia's European origins. - Emeritus Professor Richard

The Colonial Earth Tim Bonyhady 2003-04-01

"Using the work of great Australian painters and poets as an entry point, this cultural study counters the popular myth that early colonial settlers were environmentally irresponsible and offers both aesthetic and historical evidence that suggests nature always figured prominently in the Australian national consciousness.

Preserving endangered species, protecting forests, maintaining public land rights, and staving off climate change were at issue in the first environmental law of Australia enacted in 1788. Parliamentary debates, personal observations, and artistic renderings explore the texture and dimensions of early Australian environmentalism."

Frontiers of Labor Greg Patmore 2018-03-21

Alike in many aspects of their histories, Australia and the United States diverge in striking ways when it comes to their working classes, labor relations, and politics. Greg Patmore and Shelton Stromquist curate innovative essays that

use transnational and comparative analysis to explore the two nations' differences. The contributors examine five major areas: World War I's impact on labor and socialist movements; the history of coerced labor; patterns of ethnic and class identification; forms of working-class collective action; and the struggles related to trade union democracy and independent working-class politics. Throughout, many essays highlight how hard-won transnational ties allowed Australians and Americans to influence each other's trade union and political cultures. Australia in the International Economy

Barrie Dyster 1990-08-31 The authors trace the relationship between Australia's economic well being and the international economy from the late nineteenth-century onwards. This book fills the need for an introductory text in this area for undergraduate students of economics, politics and history and for the general reader who wishes to understand how the Australian economy operates.

Gangstalking and Psychic Possession:

Servants of the Master Builders of Illusion

Eliza M Parr 2021-01-28 If Gangstalking destroys the lives of millions why is it allowed to exist? As a tool of the elite, using other worldly entities, mind control and technology, it protects the illusion controlled by the Master Builder's and allows the Serpent in everybody's subconscious to control them by concepts and impressions, a necessary device linked to corporate profits as well as the maintenance of the illusion. The original instigators of civilization still oversee and control the evolution of illusion down here on earth. This book answers the many questions, both spiritual and practical, as to the irrational activity of Gangstalking. It details the concealed reality which co-exists, underlies, monitors and controls this one. A reality of psychic possession, shape-shifting, daimons. Energies devoted to impeding the emergence of mankind's true Glory for the sake of maintaining control of the illusion. You may not like everything that you read in this book but you after you have read it you will be in

no doubt that it is time to awaken to long hidden truths about how the world works and not who but WHAT controls it and why. *Contains inside and on back cover, photographs of shape-shifting/demonic materialization's linked to gangstalking and gangstalkers themselves. Chapters include:- 1) Who is behind this? 2) The possessed seeking to possess others 3) Freemasonry is the church of the Serpent 3) Recognizing the energy that isn't you; re-claiming the lost vision! 4) Understanding the evolution of psychic possession 5) Incarnation of the soul and the soulless 6) The Serpent in the garden 7) The beatific state without the Serpent 8) Why the Master Builders suppress the beatific state for the propagation of illusion 9) The usurpation of individuality and empowerment leaves us slaves to the Master Builders illusion 10) Asset management and the order of the Knights of Malta 11) The Serpents control depends upon lack of love, putting out the human nodes of light 12) Mind control the

suckers 13) Brutalizing the awakened, the Serpents only threat 14) Why Gangstalkers steal the jewels of the solar plexus chakra and Chi 15) Why the electronic mind control of society is necessary 16) Generated fracas, keeping communities mediocre by artificial intelligence, gangstalking and technological thugs 17) Tech to achieve take over: by their fruits ye shall know them 18) Unlimited personal power is counteracted 19) Energetic beings made real and formed from your body 20) Technology for the supplantation: hybrid cyborg slaves 21) Targeted individuals and gangstalking 22) Taking our power back from the Master Builders: the dawning of a new kingdom 23) Fallen Angels

Running a Thousand Miles for Freedom

Ellen Craft 2014-04 Excerpt: ...to the Custom-house Office, which was near the wharf where we had to obtain tickets, to take a steamer for Wilmington, North Carolina. When we reached

the building, I helped my master into the office, which was crowded with passengers. He asked for a ticket for himself and one for his slave to Philadelphia. This caused the principal officer—a very mean-looking, cheese-coloured fellow, who was sitting there—to look up at us very suspiciously, and in a fierce tone of voice he said to me, "Boy, do you belong to that gentleman?" I quickly replied, "Yes, sir" (which was quite correct). The tickets were handed out, and as my master was paying for them the chief man said to him, "I wish you to register your name here, sir, and also the name of your nigger, and pay a dollar duty on him." My master paid the dollar, and pointing to the hand that was in the poultice, requested the officer to register his name for him. This seemed to offend the "high-bred" South Carolinian. He jumped up, shaking his head; and, cramming his hands almost through the bottom of his trousers pockets, with a slave-bullying air, said, "I shan't do it." This attracted the attention of all the passengers. Just

then the young military officer with whom my master travelled and conversed on the steamer from Savannah stepped in, somewhat the worse for brandy; he shook hands with my master, and pretended to know all about him. He said, "I know his kin (friends) like a book;" and as the officer was known in Charleston, and was going to stop there with friends, the recognition was very much in my master's favor. The captain of the steamer, a good-looking, jovial fellow, seeing that the gentleman appeared to know my master, and perhaps not wishing to lose us as passengers, said in an off-hand sailor-like manner, "I will register the gentleman's name, and take the responsibility upon myself." He asked my master's name. He said, "William Johnson." The names were put down, I think, "Mr. Johnson..."

DevOps with OpenShift Stefano Picozzi
2017-07-10 For many organizations, a big part of DevOps' appeal is software automation using infrastructure-as-code techniques. This book presents developers, architects, and infra-ops engineers with a more practical option. You'll learn how a container-centric approach from OpenShift, Red Hat's cloud-based PaaS, can help your team deliver quality software through a self-service view of IT infrastructure. Three OpenShift experts at Red Hat explain how to configure Docker application containers and the Kubernetes cluster manager with OpenShift's developer- and operational-centric tools. Discover how this infrastructure-agnostic container management platform can help companies navigate the murky area where infrastructure-as-code ends and application automation begins. Get an application-centric view of automation—and understand why it's important. Learn patterns and practical examples for managing continuous deployments such as

rolling, A/B, blue-green, and canary Implement continuous integration pipelines with OpenShift's Jenkins capability Explore mechanisms for separating and managing configuration from static runtime software Learn how to use and customize OpenShift's source-to-image capability Delve into management and operational considerations when working with OpenShift-based application workloads Install a self-contained local version of the OpenShift environment on your computer

The Colonial Kitchen Charmaine O'Brien

2016-09-22 The Colonial Kitchen: Australia 1788-1901 explores the food and cookery of colonial Australians, challenging the prevailing stereotypes of them as dreadful cooks and uncouth eaters through a nuanced exploration of their kitchens, gardens and dining rooms, and the social and cultural systems that shaped their

culinary practices.

Material Culture and Consumer Society

Mark Staniforth 2012-12-06 The establishment of a consumer society in Australia has not been a particularly well explored area of academic inquiry. My interests lie in the concepts and meanings that underlie the material world; ideas like, in the words of Madonna, "I am a material girl and I live in a material world" (terminology taken to be not gender specific), the classic graffiti paraphrasing of Descartes: I shop therefore I am or perhaps simply in the "world of goods" in the more academically respectable terms of Douglas and Isherwood (1979). This book arises out of my longstanding interest in the early colonial period in Australia. In part it represents an extension of the purely "historical" research conducted for my Master's thesis in the Department of History at the University of Sydney which explored aspects of the diet, health and lived experience of convicts and immigrants during their voyages to the

Australian colonies within the timeframe 1837 to 1839 (Staniforth, 1993a). More importantly, it is the culmination of more than twenty-five years involvement in the excavation of shipwreck sites in Australia starting with James Matthews (1841) in 1974, through the test excavation of William Salthouse in 1982, continuing with my involvement between 1985 and 1994 in the excavation of Sydney Cove (1797) and most recently with shore-based whaling stations and whaling shipwreck sites. In this respect, this book may be seen as an example of what Ian Hodder (1986, p.

The Europeans in Australia Alan Atkinson 2016-07-01 'It is the duty of historians to be, wherever they can, accurate, precise, humane, imaginative - using moral imagination above all - and even-handed.' - Alan Atkinson The second of three volumes of the landmark, award-winning series *The Europeans in Australia* gives an account of early settlement by Britain. It tells of the political and intellectual origins of this

extraordinary undertaking that began during the 1780s, a decade of extraordinary creativity and the climax of the European Enlightenment. Volume Two, *Democracy*, takes the story from around 1815 to the early 1870s. By exploring the nineteenth-century 'communications revolution' Atkinson casts new light on the way Australia first found its place in a 'global' world. This volume is more than a story of geography and politics. It describes the way people thought and felt. Throughout the trilogy Atkinson traces subtle and sudden shifts of 'common imagination' by analysing the lives of both powerful and ordinary Australians. He sets out the ideas and the imagery that moved and marked the people. This book, like all his work, is grounded in thorough and rigorous scholarship yet imbued with compassion and insight. Written 'from the inside', it is - as he says - history 'caught up with the flesh and memory it describes'. The culmination of an extraordinary career in the writing and teaching

of Australian history, The Europeans in Australia grapples with the Australian historical experience as a whole from the point of view of the settlers from Europe. Ambitious and unique, it is the first such large, single-author account since Manning Clark's *A History of Australia*. Australia's Birthstain Babette Smith

2011-03-04 Why is it that Australians are still misled by myths about their convict heritage? Why are so many family historians surprised to find a convict ancestor in their family trees? Why did an entire society collude to cover up its past? Babette Smith traces the stories of hundreds of convicts over the 80 years of convict transportation to Australia. Putting a human face on the convicts' experience, she paints a rich picture of their crimes in Britain and their lives in the colonies. We know about Port Arthur, Norfolk Island, chaingangs and floggings, but this was far from the experience of most. In fact, most convicts became good citizens and the

backbone of the new nation. So why did we need to hide them away? Australia's Birthstain rewrites the story of Australia's convict foundations, revealing the involvement of British politicians and clergy in creating a birthstain that reached far beyond convict crimes. Its startling conclusion offers a fresh perspective on our past. 'Babette Smith's arguments will be hotly debated, but there is no doubting the fascination or drama of this study of the stain we pretend is not there.' - Thomas Keneally, Booker prize winning novelist and author of The Commonwealth of Thieves 'smith shows how the shame about Australia's convict origins ... continues to influence the way we view our history ... an important book.' - David Day in The Age.

The Global History of Childhood Reader

Heidi Morrison 2012 The Global History of Childhood Reader provides an essential collection of chapters and articles on the global history of childhood. The Reader is structured

thematically so as to provide both a representative sampling of the historiography as well as an overview of the key issues of the field, such as childhood as a social construct, commonalities and differences globally, and why the twentieth century was not the "century of the child" for most of the world's children. The Reader is divided into four parts: Theories and methodologies of the history of childhood
Constructions of childhood in different times and places
Children's experiences in different times and places
Usage of the past to articulate solutions to problems facing children today.
Topics covered include theories and methodologies in the global history of childhood, sources for writing a global history of childhood, education, gender, disability, race, class and religion, the individual in history and emotions, violence, labour and illiteracy. With introductions that contextualize each of the four parts and the articles, further reading sections and questions; this is the perfect guide for all

students of the history of childhood.

Urban Public Policy Martin V. Melosi 2004-05

The 1992 Los Angeles riots catapulted the problems of the city back onto the policy agenda.

The cauldron of social problems of the city, as the riots showed, offers no simple solutions.

Indeed, urban policy includes a range of policy issues involving welfare, housing, job training, education, drug control, and the environment.

The myriad of local, state, and federal agencies only further complicates formulating and implementing coherent policies for the city. This volume, while not offering specific proposals to remedy the problems of the city, provides a broad historical context for discussing contemporary urban policy and for arriving at new prescriptions for relieving the ills of the American city. The essays address issues related

to public housing, poverty, transportation, and the environment. In doing so, the authors discuss larger themes in urban policy as well as provide case studies of how policies have been implemented over time in specific cities. Of particular interest are two essays that discuss the role of the historian in shaping urban policy and the importance of historical preservation in urban planning.
