**Tragedy Plus Time** Philip Scephanski

2021-04-06 Following the most solemn moments in recent American history, comedians have tested the limits of how soon is “too soon” to joke about tragedy. Comics confront the

horrifying events and shocking moments that capture national attention and probe the acceptable, or “sayable,” boundaries of expression that shape our cultural memory. In *Tragedy Plus Time*, Philip Scepanski examines the role of humor, particularly televised comedy, in constructing and policing group identity and memory in the wake of large-scale events. *Tragedy Plus Time* is the first comprehensive work to investigate tragedy-driven comedy in the aftermaths of such disasters as the JFK assassination and 9/11, as well as during the administration of Donald Trump. Focusing on the mass publicization of television comedy, Scepanski considers issues of censorship and memory construction with the ways comedians negotiate emotions, politics, war, race, and Islamophobia. Amid the media frenzy and conflicting expressions of grief following a public tragedy, comedians provoke or risk controversy to grapple publicly with national traumas that all Americans are trying to understand for

themselves.

[Canadian Culinary Imaginations](#) Shelley Boyd 2022-03-30 In the twenty-first century, food is media – it is not just on plates, but in literature and on screens, displayed in galleries, studios, and public places. *Canadian Culinary Imaginations* provokes new conversations about the food-related concepts, memories, emotions,

cultures, practices, and tastes that make Canada unique. This collection brings together academics, writers, artists, journalists, and curators to discuss how food mediates our experiences of the nation and the world. Together, the contributors reveal that culinary imaginations reflect and produce the diverse bodies, contexts, places, communities, traditions, and environments that Canadians inhabit, as well as their personal and artistic sensibilities. Arranged in four thematic sections - Indigeneity and foodways; urban, suburban, and rural environments; cultural and national lineages; and subversions of categories - the essays in this collection indulge a growing appetite for conversations about creative engagements with food and the world at large. As the essays and images in Canadian Culinary Imaginations demonstrate, food is more than sustenance - as language and as visual and material culture, it holds the power to represent and remake the world in unexpected ways.

Wolf Hall Hilary Mantel 2009-10-13 In the ruthless arena of King Henry VIII's court, only one man dares to gamble his life to win the king's favor and ascend to the heights of political power England in the 1520s is a heartbeat from disaster. If the king dies without a male heir, the country could be destroyed by civil war. Henry VIII wants to annul his marriage of twenty years, and marry Anne Boleyn. The pope and most of Europe opposes him. The quest for the king's freedom destroys his adviser, the brilliant Cardinal Wolsey, and leaves a power vacuum. Into this impasse steps Thomas Cromwell. Cromwell is a wholly original man, a charmer and a bully, both idealist and opportunist, astute in reading people and a demon of energy: he is also a consummate politician, hardened by his personal losses, implacable in his ambition. But Henry is volatile: one day tender, one day murderous. Cromwell helps him break the opposition, but what will be the price of his triumph? In inimitable style, Hilary Mantel

presents a picture of a half-made society on the cusp of change, where individuals fight or embrace their fate with passion and courage. With a vast array of characters, overflowing with incident, the novel re-creates an era when the personal and political are separated by a hairbreadth, where success brings unlimited power but a single failure means death.

### **The Greatest Cult Television Shows of All**

**Time** Christopher J. Olson 2020-05-29 Reaching back to the beginnings of television, The Greatest Cult Television Shows offers readers a fun and accessible look at the 100 most significant cult television series of all time, compiled in a single resource that includes valuable information on the shows and their creators. While they generally lack mainstream appeal, cult television shows develop devout followings over time and exert some sort of

impact on a given community, society, culture, or even media industry. Cult television shows have been around since at least the 1960s, with Star Trek perhaps the most famous of that era. However, the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s, and now, with the plethora of streaming options available, more shows can be added to this categorization. Reaching back to the beginnings of television, the book includes such groundbreaking series as *The Twilight Zone* and *The Prisoner* alongside more contemporary examples like *Crazy Ex-Girlfriend* and *Hannibal*. The authors provide production history for each series and discuss their relevance to global pop culture. To provide a more global approach to the topic, the authors also consider several non-American cult TV series, including British, Canadian, and Japanese shows. Thus, Monty Python's *Flying Circus* appears alongside *Sailor Moon* and *Degrassi Junior High*. Additionally, to move beyond the conception of "cult" as a

primarily white, heteronormative, fanboy obsession, the book contains shows that speak to a variety of cult audiences and experiences, such as *Queer as Folk* and *Charmed*. With detailed arguments for why these shows deserve to be considered the greatest of all time, Olson and Reinhard provide ideas for discussion and debate on cult television. Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them.

Hinterland Remixed Andrew Burke 2019-11-06  
Like the flute melody from *Hinterland* Who's Who, the 1970s haunt Canadian cultural memory. Though the decade often feels lost to history, *Hinterland Remixed* focuses on boldly innovative works as well as popular film, television, and music to show that Canada never fully left the 1970s behind. Andrew Burke reveals how contemporary artists and filmmakers have revisited the era's cinematic and televisual residues to uncover what has been lost over the years. Investigating how the traces of an analogue past circulate in a digital age, Burke digs through the remnants of 1970s Canadiana and examines key audiovisual works from this overlooked decade, uncovering the period's aspirations, desires, fears, and anxieties. He then looks to contemporary projects that remix, remediate, and reanimate the period. Exploring an idiosyncratic selection of works – from Michael Snow's experimental landscape film *La Région Centrale*, to SCTV's

satirical skewering of network television, to L'Atelier national du Manitoba's video lament for the Winnipeg Jets – this book asks key questions about nation, nostalgia, media, and memory. A timely intervention, *Hinterland Remixed* demands we recognize the ways in which the unrealized cultural ambitions and unresolved anxieties of a previous decade continue to resonate in our current lives.

*Digital Disconnect* Robert W. McChesney  
2013-03-05 Celebrants and skeptics alike have produced valuable analyses of the Internet's effect on us and our world, oscillating between utopian bliss and dystopian hell. But according to Robert W. McChesney, arguments on both sides fail to address the relationship between economic power and the digital world.

McChesney's award-winning *Rich Media, Poor*

Democracy skewered the assumption that a society drenched in commercial information is a democratic one. In *Digital Disconnect* McChesney returns to this provocative thesis in light of the advances of the digital age, incorporating capitalism into the heart of his analysis. He argues that the sharp decline in the enforcement of antitrust violations, the increase in patents on digital technology and proprietary systems, and other policies and massive indirect subsidies have made the Internet a place of numbing commercialism. A small handful of monopolies now dominate the political economy, from Google, which garners an astonishing 97 percent share of the mobile search market, to Microsoft, whose operating system is used by over 90 percent of the world's computers. This capitalistic colonization of the Internet has spurred the collapse of credible journalism, and made the Internet an unparalleled apparatus for government and corporate surveillance, and a disturbingly anti-democratic force. In *Digital*

*Disconnect* Robert McChesney offers a groundbreaking analysis and critique of the Internet, urging us to reclaim the democratizing potential of the digital revolution while we still can.

**The Prize** Daniel Yergin 2012-09-11 *The Prize* recounts the panoramic history of oil -- and the struggle for wealth power that has always surrounded oil. This struggle has shaken the world economy, dictated the outcome of wars, and transformed the destiny of men and nations. *The Prize* is as much a history of the twentieth century as of the oil industry itself. The canvas of this history is enormous -- from the drilling of the first well in Pennsylvania through two great world wars to the Iraqi invasion of Kuwait and Operation Desert Storm. The cast extends from wildcatters and rogues to oil tycoons, and from Winston Churchill and Ibn Saud to George Bush and Saddam Hussein. The definitive work on the subject of oil and a major contribution to understanding our century, *The Prize* is a book

of extraordinary breadth, riveting excitement -- and great importance.

The Joke and Its Relation to the Unconscious Sigmund Freud 2003-06-24 Why do we laugh?

The answer, argued Freud in this groundbreaking study of humor, is that jokes, like dreams, satisfy our unconscious desires. The Joke and Its Relation to the Unconscious explains how jokes provide immense pleasure by releasing us from our inhibitions and allowing us to express sexual, aggressive, playful, or cynical instincts that would otherwise remain hidden. In elaborating this theory, Freud brings together a rich collection of puns, witticisms, one-liners, and anecdotes, which, as Freud shows, are a method of giving ourselves away.
