

Richard Strauss A Chronicle Of The Early Years 1864 1898

Enjoying the Melody of Term: An Mental Symphony within **Richard Strauss A Chronicle Of The Early Years 1864 1898**

In some sort of used by screens and the ceaseless chatter of instant transmission, the melodic splendor and emotional symphony developed by the published word frequently diminish into the backdrop, eclipsed by the constant sound and disturbances that permeate our lives. Nevertheless, situated within the pages of **Richard Strauss A Chronicle Of The Early Years 1864 1898** a wonderful literary treasure full of raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by a masterful composer of language, that fascinating masterpiece conducts readers on a psychological trip, skillfully unraveling the hidden tunes and profound affect resonating within each carefully constructed phrase. Within the depths of the poignant assessment, we can examine the book is central harmonies, analyze their enthralling publishing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.

Opera Guy A. Marco 2002-05-03 Opera is the

only guide to the research writings on all aspects of opera. This second edition presents

2,833 titles--over 2,000 more than the first edition--of books, parts of books, articles and dissertations with full bibliographic descriptions and critical annotations. Users will find the core literature on the operas of 320 individual composers and details of operatic life in 43 countries. All relevant works through to November 1999 have been considered, covering more than fifteen years of literature since the first edition was published.

Mahler in Context Charles Youmans 2020-11-19 Mahler in Context explores the institutions, artists, thinkers, cultural movements, socio-political conditions, and personal relationships that shaped Mahler's creative output. Focusing on the contexts surrounding the artist, the collection provides a sense of the complex crosscurrents against which Mahler was reacting as conductor, composer, and human being. Topics explored include his youth and training, performing career, creative activity, spiritual and

philosophical influences, and his reception after his death. Together, this collection of specially commissioned essays offers a wide-ranging investigation of the ecology surrounding Mahler as a composer and a fuller appreciation of the topics that occupied his mind as he conceived his works. Readers will benefit from engagement with lesser known dimensions of Mahler's life. Through this broader contextual approach, this book will serve as a valuable and unique resource for students, scholars, and a general readership.

[The Ballet Collaborations of Richard Strauss](#)
Wayne Heisler 2009 A richly interdisciplinary study of Strauss's contributions to ballet, his collaboration with prominent dance artists of his time, and his explorations of musical modernism.
Richard Strauss Willi Schuh 1982-07-08
Derrick Puffett on Music Kathryn Bailey Puffett 2017-07-05 'I listen to a piece and ask myself what has made the greatest impression on me. What has moved me the most about it, what has

excited me the most, what it is I want to write about, what sets my mind working, what sets off my imagination.' Derrick Puffett's description to a group of Cambridge graduate students of his approach to listening and writing about music is clearly evident in the articles reprinted in this collection. For the first time, the book makes available in one place writings previously widely dispersed amongst many journals and symposia. Resonances emerge that cross from essay to essay, with the result that a larger, coherent project is revealed. Insistent on the need of music analysis to be accompanied by a wider historical knowledge, Puffett believed strongly that the methods to be adopted on each occasion must be dictated by the music at hand. His work on Bruckner, Strauss, Webern, Zemlinsky, Delius and Debussy is of enduring importance to the study of music. With a prose style distinguished for its elegance and clarity, Puffett's writings will enhance the understanding and enjoyment of the music that he discusses amongst students

and teachers alike.

Word and Music Studies 2005-01-01 The nine interdisciplinary essays in this volume were presented in 2003 in Berlin at the Fourth International Conference on Word and Music Studies, which was sponsored by The International Association for Word and Music Studies (WMA). The nine articles in this volume cover two areas: "Surveying the Field" and "Music and the Spoken Word". Topics include postmodernism, philosophy, German literary modernism, opera, film, the Lied, radio plays, and "verbal counterpoint". They cover the works of such philosophers, critics, literary figures, and composers as Argento, Beckett, Deleuze, Guattari, Feldman, Glenn Gould, Nietzsche, Schubert, Strauss, Wagner, and Wolfram. Three films are discussed: Casablanca, The Fisher King, and Thirty Two Short Films About Glenn Gould.

The Life of Richard Strauss Bryan Gilliam
1999-08-19 Richard Strauss saw an empire come

and go, survived two world wars, witnessed the rise and fall of the Weimar Republic, endured the period of National Socialism, and died the year that Germany was officially divided into two separate states. All the while he enjoyed a successful career as composer, as conductor of international stature, as organizer for the rights of composers, and as colleague of and collaborator with some of the most important composers, writers, and artists of his day. This biography covers Strauss's early musical development, his emergence as a tone poet in the late nineteenth century, his turn to the stage at the beginning of the twentieth century, the successes and failures of the post-World War I era, the turbulent 1930s, and the period of the Second World War and its aftermath.

Reader's Guide to Music Murray Steib
2013-12-02 The Reader's Guide to Music is designed to provide a useful single-volume guide to the ever-increasing number of English language book-length studies in music. Each

entry consists of a bibliography of some 3-20 titles and an essay in which these titles are evaluated, by an expert in the field, in light of the history of writing and scholarship on the given topic. The more than 500 entries include not just writings on major composers in music history but also the genres in which they worked (from early chant to rock and roll) and topics important to the various disciplines of music scholarship (from aesthetics to gay/lesbian musicology).

The Nineteenth-Century German Lied

Lorraine Gorrell 2005 The development of the piano, together with changes in culture and society, led to the transformation of song into a major musical genre. This study of the great lieder of 19th-century composers Schubert, Schumann, Brahms, and Hugo Wolf also includes lesser-known composers, such as Louis Spohr and Robert Franz, plus significant contributions from women composers and performers.

German Lieder in the Nineteenth Century

Rufus Hallmark 2009-09-10 German Lieder in the Nineteenth-Century provides a detailed introduction to the German lied. Beginning with its origin in the literary and musical culture of Germany in the nineteenth-century, the book covers individual composers, including Schubert, Schumann, Brahms, Strauss, Mahler and Wolf, the literary sources of lieder, the historical and conceptual issues of song cycles, and issues of musical technique and style in performance practice. Written by eminent music scholars in the field, each chapter includes detailed musical examples and analysis. The second edition has been revised and updated to include the most recent research of each composer and additional musical examples.

The Cambridge Companion to Richard Strauss
Charles Youmans 2010-11-18 Richard Strauss is a composer much loved among audiences throughout the world, both in the opera house and the concert hall. Despite this popularity, Strauss was for many years ignored by scholars,

who considered his commercial success and his continued reliance on the tonal system to be liabilities. However, the past two decades have seen a resurgence of scholarly interest in the composer. This Companion surveys the results, focusing on the principal genres, the social and historical context, and topics perennially controversial over the last century. Chapters cover Strauss's immense operatic output, the electrifying modernism of his tone poems, and his ever-popular Lieder. Controversial topics are explored, including Strauss's relationship to the Third Reich and the sexual dimension of his works. Reintroducing the composer and his music in light of recent research, the volume shows Strauss's artistic personality to be richer and much more complicated than has been previously acknowledged.

Richard Strauss and His World Bryan Gilliam
1992-08-30 Strongly influencing European musical life from the 1880s through the First World War and remaining highly productive into

the 1940s, Richard Strauss enjoyed a remarkable career in a constantly changing artistic and political climate. This volume presents six original essays on Strauss's musical works--including tone poems, lieder, and operas--and brings together letters, memoirs, and criticism from various periods of the composer's life. Many of these materials appear in English for the first time. In the essays Leon Botstein contradicts the notion of the composer's stylistic "about face" after Elektra; Derrick Puffett reinforces the argument for Strauss's artistic consistency by tracing in the tone poems and operas the phenomenon of pitch specificity; James Hepokoski establishes Strauss as an early modernist in an examination of Macbeth; Michael Steinberg probes the composer's political sensibility as expressed in the 1930s through his music and use of such texts as *Friedenstag* and *Daphne*; Bryan Gilliam discusses the genesis of both the text and the music in the final scene of *Daphne*; Timothy

Jackson in his thorough source study argues for a new addition to the so-called Four Last Songs. Among the correspondence are previously untranslated letters between Strauss and his post-Hofmannsthal librettist, Joseph Gregor. The memoirs range from early biographical sketches to Rudolf Hartmann's moving account of his last visit with Strauss shortly before the composer's death. Critical reviews include recently translated essays by Theodor Adorno, Guido Adler, Paul Bekker, and Julius Korngold [Publisher description].

The Virtuoso Conductors Raymond Holden
2005-01-01 An expert's guide to the skills of the greatest conductors

Richard Strauss Derrick Puffett 1989 The contributions to this handbook bring together a full-length study of Elektra in English. The volume examines the many facets of one of Richard Strauss's most complex operas. First, P. E. Easterling surveys the mythological background, while Karen Forsyth discusses

Hofmannsthal's adaptation of his sources. The second part brings the music to the fore. Derrick Puffett offers an introductory essay and synopsis; Arnold Whittall considers the tonal and dramatic structure of the composition; Tethys Carpenter explores the musical language of the work in detail, with special focus given to part of the Klytaemnestra scene. The third part of the volume offers two contrasting critical essays: Carolyn Abbate provides an interpretation informed by her recent work on narrative, and Robin Holloway analyses Strauss's orchestration of the opera. The book also contains a discography and an appendix of excerpts from the Strauss-Hofmannsthal correspondence. *Richard Strauss in Context* Morten Kristiansen 2020-10-29 *Richard Strauss in Context* offers a distinctive approach to the study of a composer in that it places the emphasis on contextualizing topics rather than on biography and artistic output. One might say that it inverts the relationship between composer and context.

Rather than studies of Strauss's librettists that discuss the texts themselves and his musical settings, for instance, this book offers essays on the writers themselves: their biographical circumstances, styles, landmark works, and broader positions in literary history. Likewise, Strauss's contributions to the concert hall are positioned within the broader development of the orchestra and trends in programmatic music. In short, readers will benefit from an elaboration of material that is either absent from or treated only briefly in existing publications. Through this supplemental and broader contextual approach, this book serves as a valuable and unique resource for students, scholars, and a general readership.

Rounding Wagner's Mountain Bryan Gilliam 2014-11-13 *Richard Strauss' fifteen operas*, which span the years 1893 to 1941, make up the largest German operatic legacy since Wagner's operas of the nineteenth century. Many of Strauss's works were based on texts by Europe's

finest writers: Oscar Wilde, Hugo von Hofmannsthal and Stefan Zweig, among others, and they also overlap some of the most important and tumultuous stretches of German history, such as the founding and demise of a German empire, the rise and fall of the Weimar Republic, the period of National Socialism, and the post-war years, which saw a divided East and West Germany. In the first book to discuss all Strauss's operas, Bryan Gilliam sets each work in its historical, aesthetic, philosophical, and literary context to reveal what made the composer's legacy unique. Addressing Wagner's cultural influence upon this legacy, Gilliam also offers new insights into the thematic and harmonic features that recur in Strauss's compositions.

Nijinsky's Crime Against Grace Millicent Hodson 1996 The efforts of the three collaborators resulted in a spectacle that bore little resemblance to ballet. During the premiere at the Theatre des Champs-Elysees on May 29,

1913, Parisians were incited to riot by the strange tension of the dancing and stark contrasts of the music and decor. The premiere of *Le Sacre du Printemps* became a legend overnight, and the notoriety of this event began immediately to distort the significance of the work, especially Nijinsky's choreography. He declared to the London Daily Mail on July 12, 1913, "I am accused, of a crime against grace." Hans Von Bülow Alan Walker 2010 Hans von Bulow's career unfolded in at least six directions simultaneously. He was a renowned concert pianist; the first virtuoso orchestral conductor; a respected (and sometimes feared) teacher; an influential editor of works by Bach, Mendelssohn, Chopin, and above all of Beethoven, in the performance of whose music he had no rival; a scourge as a music critic; and lastly, he was himself also a composer of music. In *Hans von Bulow: A Life and Times*, Alan Walker, the acclaimed author of numerous award-winning books on the era's iconic

composers, provides the first full-length English biography of this remarkable musical figure. *The Early Works of Arnold Schoenberg, 1893-1908* Walter Frisch 1997-01-01 Between 1893 and 1908, composer Arnold Schoenberg created many genuine masterworks in the genres of Lieder, chamber music and symphonic music. Here is the first full-scale account of Schoenberg's rich repertoire of early tonal works. 139 music examples. 2 illustrations.

The Wind Band and Its Repertoire: Two Decades of Research As Published in the CBDNA Journal Michael Votta, Jr. For slightly over two decades, the College Band Directors National Association published the CBDNA Journal, a research outlet for all types of subjects of interest to the membership. Following cessation of activities in 2002, Michael Votta, Jr., the Journal's most recent editor, assembled representative articles on composers and their works, historical research and composition analysis investigations, and produced this fine collection

of writings. As a source of well-constructed research by some of the country's leading musicians, it fills a much needed place in everyone's library.

Musical Visitors to Britain Peter Gordon 2007-05-07 Britain has attracted many musical visitors to its shores. A varied and often eccentric collection of individuals, some were invited by royalty with musical tastes, some were refugees from religious or political oppression, some were spies, and others came to escape debt or even charges of murder. This book paints a broad picture of the changing nature of musical life in Britain over the centuries, through the eyes and ears of foreign musicians. After considering three of the eighteenth century's greatest musical figures, the authors consider the rise of the celebrity composer in the nineteenth century, and go on to consider the influence of new forms of transport which allowed travel more freely from the Continent and the USA. *Musical Visitors to*

Britain also charts the new opportunities presented by the opening of public halls, the growth of music festivals, and the regular influx of composers in the twentieth and twenty-first centuries, ending with the impact of new musical forms such as jazz. As much a social as a musical history of Britain, this book will be of interest to anyone studying or working in these fields, as well as to general readers who want to discover more about our musical heritage.

Mahler and Strauss Charles Youmans
2016-09-05 A rare case among history's great music contemporaries, Gustav Mahler (1860-1911) and Richard Strauss (1864-1949) enjoyed a close friendship until Mahler's death in 1911. Unlike similar musical pairs (Bach and Handel, Haydn and Mozart, Schoenberg and Stravinsky), these two composers may have disagreed on the matters of musical taste and social comportment, but deeply respected one another's artistic talents, freely exchanging advice from the earliest days of professional

apprenticeship through the security and aggravations of artistic fame. Using a wealth of documentary material, this book reconstructs the 24-year relationship between Mahler and Strauss through collage—"a meaning that arises from fragments," to borrow Adorno's characterization of Mahler's Sixth Symphony. Fourteen different topics, all of central importance to the life and work of the two composers, provide distinct vantage points from which to view both the professional and personal relationships. Some address musical concerns: Wagnerism, program music, intertextuality, and the craft of conducting. Others treat the connection of music to related disciplines (philosophy, literature), or to matters relevant to artists in general (autobiography, irony). And the most intimate dimensions of life—childhood, marriage, personal character—are the most extensively and colorfully documented, offering an abundance of comparative material. This integrated look at Mahler and Strauss discloses

provocative revelations about the two greatest western composers at the turn of the 20th century.

Music, Modern Culture, and the Critical Ear

Nicholas Attfield 2016-04-30 In his 1985 book

The Idea of Music: Schoenberg and Others,

Peter Franklin set out a challenge for

musicology: namely, how best to talk and write

about the music of modern European culture

that fell outside of the modernist mainstream

typified by Schoenberg, Berg, and Webern?

Thirty years on, this collected volume of essays

by Franklin's students and colleagues returns to

that challenge and the vibrant intellectual field

that has since developed. Moving freely between

insights into opera, Volksoper, film, festival, and

choral movement, and from the very earliest

years of the twentieth century up to the 1980s,

its authors listen with a 'critical ear': they site

these musical phenomena within a wider web of

modern cultural practices - a perspective, in

turn, that enables them to exercise a disciplinary

self-awareness after Franklin's manner.

Motives for Allusion Christopher A. Reynolds

2003 Reynolds identifies specific borrowings or

allusions in a wide range of 19th-century music.

He shows the kinds of things composers do with

borrowed musical ideas and clarifies what it can

mean when one piece of music invokes or refers

to another.

Absolute Music Mark Evan Bonds 2014-05-09

What is music, and why does it move us? From

Pythagoras to the present, writers have

struggled to isolate the essence of "pure" or

"absolute" music in ways that also account for its

profound effect. In *Absolute Music: The History*

of an Idea, Mark Evan Bonds traces the history

of these efforts across more than two millennia,

paying special attention to the relationship

between music's essence and its qualities of

form, expression, beauty, autonomy, as well as

its perceived capacity to disclose philosophical

truths. The core of this book focuses on the

period between 1850 and 1945. Although the

idea of pure music is as old as antiquity, the term "absolute music" is itself relatively recent. It was Richard Wagner who coined the term, in 1846, and he used it as a pejorative in his efforts to expose the limitations of purely instrumental music. For Wagner, music that was "absolute" was isolated, detached from the world, sterile. His contemporary, the Viennese critic Eduard Hanslick, embraced this quality of isolation as a guarantor of purity. Only pure, absolute music, he argued, could realize the highest potential of the art. Bonds reveals how and why perceptions of absolute music changed so radically between the 1850s and 1920s. When it first appeared, "absolute music" was a new term applied to old music, but by the early decades of the twentieth century, it had become--paradoxically--an old term associated with the new music of modernists like Schoenberg and Stravinsky. Bonds argues that the key developments in this shift lay not in discourse about music but rather the visual arts. The growing prestige of

abstraction and form in painting at the turn of the twentieth century--line and color, as opposed to object-helped move the idea of purely abstract, absolute music to the cutting edge of musical modernism. By carefully tracing the evolution of absolute music from Ancient Greece through the Middle Ages to the twentieth-century, Bonds not only provides the first comprehensive history of this pivotal concept but also provokes new thoughts on the essence of music and how essence has been used to explain music's effect. A long awaited book from one of the most respected senior scholars in the field, *Absolute Music* will be essential reading for anyone interested in the history, theory, and aesthetics of music.

Program Music Jonathan Kregor 2015-01-15 This accessible introduction is the first English-language book in a generation to cover program music as idea and repertoire.

The Marks of a Maestro Raymond Holden 2021-03-11 Only recently has it become obvious

that conductors' annotated scores and marked orchestral parts are of great cultural, historical and musical importance. In the not-so-distant past, these artefacts had something of an uncertain status with many either languishing unopened in libraries and family archives or simply being dispersed or discarded. With the help of institutions such as the Royal Academy of Music, Harvard University and the New York Philharmonic Orchestra this has begun to change with their extensive collections of these materials now being made available to scholars and musicians. This element examines the emergence of these artefacts as didactic and interpretative tools and explores the ways in which the performance styles of ten iconic conductors active in the nineteenth, twentieth and twenty-first centuries are reflected in their annotated scores and marked orchestral parts of Mozart's Symphony No. 41, K. 551 ('Jupiter').

Performing Brahms Reader in Music Michael Musgrave 2003-10-02 A great deal of evidence

survives about how Brahms and his contemporaries performed his music. But much of this evidence - found in letters, autograph scores, treatises, publications, recordings, and more - has been hard to access, both for musicians and for scholars. This book brings the most important evidence together into one volume. It also includes discussions by leading Brahms scholars of the many issues raised by the evidence. The period spanned by the life of Brahms and the following generation saw a crucial transition in performance style. As a result, modern performance practices differ significantly from those of Brahms's time. By exploring the musical styles and habits of Brahms's era, this book will help musicians and scholars understand Brahms's music better and bring fresh ideas to present-day performance. The value of the book is greatly enhanced by the accompanying CD of historic recordings - including a performance by Brahms himself. *Richard Wagner* Joachim Köhler 2004-01-01 This

major new biography of Richard Wagner is iconoclastic, astringent and bold. It explores the philosophical roots of Wagner's work, which the composer himself deliberately obfuscated. It re-evaluates Wagner's relationships with his mother, step-father and - most revealingly - his wife, Cosima, standing received opinion on its head. And he meets head on, and confirms, the controversy over Wagner's anti-semitism. At the same time, and notwithstanding, Kohler profoundly acknowledges Wagner's genius. Richard Strauss Michael Kennedy 2006-11-02 This book re-evaluates a figure whom the author considers to be the greatest composer of the twentieth century. Kennedy deals fully with Strauss's life as leading composer and national figure in the Third Reich, during which he was both fêted and cold-shouldered by the authorities. In putting this period into perspective he draws heavily on hitherto ignored material, including Strauss's own letters and diaries. In addition he reveals much about

Strauss's long, happy but tempestuous marriage to the soprano Pauline de Ahna as well as tracing the important relationships to his librettists Hugo von Hofmannsthal, Stefan Zweig, Joseph Gregor and Clemens Krauss. Kennedy reassesses the man and the music, revealing a picture of a level-headed, practical and extremely versatile musician - a great conductor as well as a great composer. The Classical Music Lover's Companion to Orchestral Music Robert Philip 2018-01-01 An invaluable guide for lovers of classical music designed to enhance their enjoyment of the core orchestral repertoire from 1700 to 1950 Robert Philip, scholar, broadcaster, and musician, has compiled an essential handbook for lovers of classical music, designed to enhance their listening experience to the full. Covering four hundred works by sixty-eight composers from Corelli to Shostakovich, this engaging companion explores and unpacks the most frequently performed works, including

symphonies, concertos, overtures, suites, and ballet scores. It offers intriguing details about each piece while avoiding technical terminology that might frustrate the non-specialist reader. Philip identifies key features in each work, as well as subtleties and surprises that await the attentive listener, and he includes enough background and biographical information to illuminate the composer's intentions. Organized alphabetically from Bach to Webern, this compendium will be indispensable for classical music enthusiasts, whether in the concert hall or enjoying recordings at home.

Performing Music in the Age of Recording

Robert Philip 2004-04-10 What is the relationship between performance and recording? What is the impact of recording on the lives of musicians? Comparison of the lives of musicians and audiences in the years before recordings with those of today. Survey of the changing attitudes toward freedom of expression, the globalization of performing

styles and the rise of the period instrument movement.

The Maestro Myth Norman Lebrecht 2001

Nearly ten years after its original publication, *The Maestro Myth* continues to enthrall readers with its insightful look into the lives and careers of the world's most celebrated conductors. Now updated and including two new chapters, this volume portrays the politics and inflated economics surrounding the podiums of today's international classical music scene, and the obstacles faced by blacks, women, and gays.

From Richard Strauss to Herbert von Karajan to Leonard Bernstein to Simon Rattle, *The Maestro Myth* examines the world of classical music and the mounting crisis in a profession where genuine talent grows ever scarcer. It is a must-have resource for music aficionados as well as anyone interested in the behind-the-scenes lives of these music masters. Book jacket.

Creating Der Rosenkavalier Michael Reynolds 2016 A full account of the making, during

1909-10, of *Der Rosenkavalier* with emphasis on its derivation from a French operette of 1907, *L'Ingenu libertin*, which was seen in Paris by Count Harry Kessler and which formed the basis of the opera then to be written by Hofmannsthal and Strauss. Previous scholarship has credited the narrative and characters of *Der Rosenkavalier* to much older French sources known to and studied by Hofmannsthal, but this book shows clearly how every element in *L'Ingenu libertin* is in fact taken (and transformed) by Kessler and Hofmannsthal into the work that made fortunes for Hofmannsthal and Strauss, but left Kessler on the sidelines. Michael Reynolds casts a major new light on Strauss's most popular operatic success, highlighting in particular how it was that Hofmannsthal - who had not until then had any theatrical success as an original playwright - was advised and empowered by Kessler to produce a work that succeeded onstage from its very first performance and went rapidly on to

conquer the stages of the world. Michael Reynolds is an established writer on opera, a translator and an online music critic, an interest that he sustained throughout thirty years in the world of international diplomacy. His previous book for Boydell, *About Suffolk*, was an anthology of writing about his adopted county. **Also sprach Zarathustra** John Williamson 1993-04 Richard Strauss's tone poem *Also sprach Zarathustra* is one of his most controversial works. Its greatest popularity has been achieved when its connection with Nietzsche's book of the same name has seemed less relevant than its associations with Kubrick's film 2001 - *A Space Odyssey*. Although its early critical reception was mixed, it is nowadays one of the staples of the virtuoso orchestra, and a standard demonstration piece for innovations in recording technique. Its opening bars have become a kind of icon independent of the rest of the work. This guide examines the intellectual background of the work and considers ways in

which it has been received by composers and writers, notably Romain Rolland and Bartok. It also discusses the musical background of Liszt and Wagner which gave rise to the genre, 'tone poem', and provides an analysis of several aspects of Strauss's musical language.

Strauss Laurenz Lütteken 2019-03-01 Richard Strauss is an outlier in the context of twentieth century music. Some consider him a composer of the late romantic period, while others declare him a traitor of modernity for his role in National Socialism. Despite the controversy surrounding him, Strauss's works--even beyond his most well-known operas Elektra and Rosenkavalier--are present in the repertoires of concert halls worldwide and continue to enjoy large audiences. The details of the composer's life, however, remain shrouded in mystery and gossip. Laurenz Lütteken's Strauss presents a fresh approach to understanding this elusive composer's life and works. Dispensing with stereotypes and sensationalism, it reveals

Strauss to be a sensitive intellectual and representative of modernity, with all light and shade of the turn of the twentieth century.

Richard Strauss: Salome Richard Georg Strauss 1989-10-19 This first full-length study of Salome in English since Lawrence Gilman's (1907) moves from historical and literary analysis to critical appraisal and includes a synopsis, bibliography and discography.

Child Composers and Their Works Barry Cooper 2009-06-03 In Child Composers and Their Works: A Historical Survey, Barry Cooper examines over 100 composers born before 1900 who wrote substantial musical works before age 16. The book provides a general overview of the subject, examining the ways and identifying possible reasons these works have been marginalized in the general literature. The book also contains an annotated checklist of over 100 notable child composers, presenting a valuable and handy reference of these creators and their early works. The annotated checklist presents a

chronological listing of child composers born before 1900 and features a descriptive list of what they wrote, often including analytical commentary and offering occasional music examples for illustration. The list also includes a select catalog of works, suggestions for further reading, and recordings when available.

Complete with a bibliography and an index of composers, this resource is invaluable to scholars and historians.

The Rest Is Noise Alex Ross 2007-10-16 Winner of the 2007 National Book Critics Circle Award for Criticism A New York Times Book Review Top Ten Book of the Year Time magazine Top Ten Nonfiction Book of 2007 Newsweek Favorite Books of 2007 A Washington Post Book World Best Book of 2007 In this sweeping and dramatic narrative, Alex Ross, music critic for The New Yorker, weaves together the histories of the twentieth century and its music, from Vienna before the First World War to Paris in the twenties; from Hitler's Germany and Stalin's

Russia to downtown New York in the sixties and seventies up to the present. Taking readers into the labyrinth of modern style, Ross draws revelatory connections between the century's most influential composers and the wider culture. *The Rest Is Noise* is an astonishing history of the twentieth century as told through its music.

The Juggler of Notre Dame and the Medievalizing of Modernity. Jan M. Ziolkowski 2018-10-04 This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. *The Juggler of Notre Dame* tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its

medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. Volume 4 examines the famous *Le jongleur de Notre Dame* by the French composer Jules Massenet, which took Europe by storm after premiering in 1902 and then crossed the Atlantic to the impresario Oscar Hammerstein and the diva Mary Garden, who gave the opera new legs as a female juggler. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore,

performance studies, and reception studies.

Richard Strauss A Chronicle Of The Early Years 1864 1898 ebook download or read online. In today digital age, eBooks have become a staple for both leisure and learning. The convenience of accessing Richard Strauss A Chronicle Of The Early Years 1864 1898 and various genres has transformed the way we consume literature. Whether you are a voracious reader or a knowledge seeker, read Richard Strauss A Chronicle Of The Early Years 1864 1898 or finding the best eBook that aligns with your interests and needs is crucial. This article delves into the art of finding the perfect eBook and explores the platforms and strategies to ensure an enriching reading experience.
