Korat Cats. Korat Cat Owners

Manual. Korat Cat Care, Personality, Grooming, Health, Training, Costs and Feeding All Included Robert Ronderdale 2015-01-08 The Korat cat is not only one of the oldest natural domestic cat breeds; it is also a very unique breed. One prominent thing about the breed is certainly it's appearance. Unlike most cat breeds whose heads are wedge-shaped, that of a Korat cat is heart-shaped. Indeed, most proud Korat cat owners point out that the Korat is the only cat with three hearts; one visible when the cat is viewed from the front, the other visible when the cat's head is viewed from above and the actual heart inside the cat's body. The other unique thing about Korat cat is its coat. A pure-bred Korat cat has a single coat with short hair that is very easy to groom. The hair is however unusual. All pre-bred Korats have hair in the same colour; silver-tipped blue. The Korat also happens to be one of the very few natural cat breeds whose traditional characteristics and behaviour

have not been altered in any way through breeding programs. The uniqueness in this breed is one of reasons why many homeowners, families and cat lovers decide to buy the Korat cat. In addition to it's uniqueness, the cat also has a very good character and temperament, which makes it one of the best indoor cats anyone can have at home as a pet. It is indeed not surprising that the breed's popularity that has remained low over the years is fast rising right across the world. I happen to have had parents who were very fond of cats, to a point where they kept different cat breeds at any given time. Our home was similar to a cattery. The experience of living with such diverse cat breeds, as I now realize, was very beneficial. Not only did I become fond of cats, I have gone a step further and ventured into breeding and showing cats. Covered in this book: - General information - What to know before you buy - Bringing your cat home - Feeding - Grooming - Health -

Breeding - The aging cat - Costs - General tips and advice ... and much more

American Bobtail Dr Jeffrey John 2021-10-18 Bobtailed cats are a natural genetic mutation that creates a shorter tail. They have appeared in countries like Japan and the Isle of Man. Sometimes the proper people notice them, and presto! A new breed. The American Bobtail is descended from a short-tailed kitten John and Brenda Sanders obtained in Arizona. They christened him Yodi, and he fathered the breed in the swinging '60s when he had his way with the Sanders' female, Mishi. Yodi and Mishi's kittens had short tails, indicating a dominant gene caused the condition. Mindy Shoultz, an experienced Persian breeder, teamed together with Charlotte Bentley to create a new breed. They bred the kittens to other naturally short-tailed cats found throughout the US and

Balinese Cat Owner's Manual.

2014-05-28 Everything you need to know about keeping a Balinese cat as a pet. This is another very informative book by Elliott Lang. As an animal lover, he enjoys writing animal books and advising others how to take care for their animals to give them a happy home. The book is written in an easy to read and understandable style. In a straight forward, no nonsense fashion, Elliott Lang covers all aspects of keeping

Balinese cats as pets. Elliott Lang says: I have always been in the company of animals. That is the one thing I am most thankful for. My lovely pets have always been around to provide unconditional affection and love when I needed it the most. My father was instrumental in making me grow fond of animals. He always kept me around animals. I guess he was trying to help me learn how to be tolerant and loving from these amazing creatures. Trust me, some of the biggest life lessons that I have gained have come from these beautiful creatures. My family, too, has always been hands on with the pets in the household. Whether it was bathing, feeding or taking care of these animals, my family relied on pure instincts and ensured that the animals go the best of everything. These animals were the centre of all our activities. There was not a single day that did not begin with a discussion about these pets. What to feed them? nutritious thing to feed them? These were common dinner table conversations while I was growing up. So, needless to say, I have had a lot of practical training with respect to taking care of different breeds of animals. Sometimes, I learnt from my family and sometimes, your pet will just tell you what he or she needs. Today, I am in a very privileged place where I can share this information with pet lovers across the globe. I would have never been able to provide you with so much comprehensive information without the knowledge that I gained from my father, my family and of course my beloved cats.
