The Drowning Season Alice Hoffman 2014-09-23  
From the author of *The Rules of Magic*: A novel of a Long Island family matriarch and her namesake granddaughter who discover the

power the past holds over their present. Esther the Black is eighteen years old and ready to leave the Compound, the collection of cottages on the North Shore of Long Island where she has lived all her life. But as July turns to August and

her family braces for the height of Drowning Season, she realizes that she may not be able to escape her family's legacy. Her father will find a way through the locked sea-wall gate and try to drown himself in the harbor, her mother will be too hung over to leave her cottage for days at a time, and her grandmother will refuse to say a single kind word. Esther the White left home when she was just a girl, fleeing her abusive parents across a frozen Russian river with a pocketful of stolen jewels. Life has taught her to be cold and unyielding, but in the heat of another fraught summer at the Compound, she feels her resolve melting away. Cohen, the landscaper and chauffeur responsible for keeping her son out of the water, looks at her with a desire she finds harder and harder to resist. Her granddaughter's name may be an insult to tradition, but does that mean the poor girl should never feel her grandmother's love or know her story? Graceful, haunting, and wise, *The Drowning Season* "casts the spell of all

great fairy tales. It takes daily life and transforms it into myth as we watch" (Chicago Sun-Times).

*The World Atlas of Tattoo* Anna Felicity Friedman 2015-01-01 "A grand tour of the world's great tattoos"--Atlas Obscura "This book-part global art historical tome, part coffee-table

book of visual wonders--is a valuable corrective to many silly things that we assume about tattooing."--The New Republic A lavishly illustrated global exploration of the vast array of styles and most significant practitioners of tattoo from ancient times to today Tattoo art and practice has seen radical changes in the 21st century, as its popularity has exploded. An expanding number of tattoo artists have been mining the past for lost traditions and innovating with new technology. An enormous diversity of styles, genres, and techniques has emerged, ranging from geometric blackwork to vibrant, painterly styles, and from hand-tattooed works to machine-produced designs. With over 700 stunning color illustrations, this volume considers historical and contemporary tattoo practices in Europe, the Americas, the Middle East, North and Sub-Saharan Africa, Asia, Australia, and the Pacific Islands. Each section, dedicated to a specific geographic region, features fascinating text by tattoo experts that

explores the history and traditions native to that area as well as current styles and trends. The World Atlas of Tattoo also tracks the movement of styles from their indigenous settings to diasporic communities, where they have often been transformed into creative, multicultural, hybrid designs. The work of 100 notable artists from around the globe is showcased in this definitive reference on a widespread and intriguing art practice.

*Agrotopias* Abby L. Goode 2022-08-24 In this book, Abby L. Goode reveals the foundations of American environmentalism and the enduring partnership between racism, eugenics, and agrarian ideals in the United States. Throughout the nineteenth century, writers as diverse as

Martin Delany, Charlotte Perkins Gilman, and Walt Whitman worried about unsustainable conditions such as population growth and plantation slavery. In response, they imagined agrotopias—sustainable societies unaffected by the nation's agricultural and population crises—elsewhere. Though seemingly progressive, these agrotopian visions depicted selective breeding and racial "improvement" as the path to environmental stability. In this fascinating study, Goode uncovers an early sustainability rhetoric interested in shaping, just as much as sustaining, the American population. Showing how ideas about race and reproduction were central to early sustainability thinking, Goode unearths an alternative environmental archive that ranges from gothic novels to Black nationalist manifestos, from Waco, Texas, to the West Indies, from city tenements to White House kitchen gardens. Exposing the eugenic foundations of some of our most well-regarded environmental traditions, this book compels us

to reexamine the benevolence of American environmental thought.

**The Collected Novels Volume One** Alice Hoffman 2016-10-25 Four acclaimed novels by "a born storyteller," the New York Times–bestselling author of *The Rules of Magic* and *The Dovekeepers* (Entertainment Weekly). One of today's most beloved authors of lyrical fiction with a touch of magic, Alice Hoffman boasts a body of work that has been praised by readers and critics from the very beginning. This collection includes her first novel, plus three more of her outstanding tales. *Property Of:* Hoffman's debut about teenage girls in mascara and leather and their attraction to local toughs is "a remarkably envisioned novel, almost mythic in its cadences" (The New York Times). *The Drowning Season* intertwines the stories of two women named Esther: a granddaughter, who

yearns to escape the Long Island shore and the coldness of the family matriarch; and her grandmother, who fled her abusive parents in Russia decades before. This novel “casts the spell of all great fairy tales. It takes daily life and transforms it into myth as we watch” (Chicago Sun-Times). Fortune’s Daughter: A New York Times Notable Book, this luminous novel of a restless young traveler and a fortune-teller with a secret is a tribute to the profound mysteries of motherhood and childbirth from a writer who, in the words of Amy Tan, “takes seemingly ordinary lives and lets us see and feel extraordinary things.” At Risk is a New York Times bestseller that “will leave few dry eyes” (Library Journal). In 1980s America, a family copes with their daughter’s terrifying AIDS diagnosis.
