Summer Fun Diane Baranski

2013-08-01 Algebra is a foundational concept in the study of mathematics, and readers will delight in learning the principles of operations and algebraic thinking in a relatable and engaging way. Topics such as adding and subtracting within 20, using algebraic principles to solve

equations and word problems, and understanding the relationship between addition and subtraction will give beginning math students a firm grasp on basic math concepts. A beautiful summer day sets the stage for readers to work with addition and subtraction equations in this title, which prompts readers to determine the missing number in an equation of three factors. This volume satisfies CCSS Math Standard 1.OA.D.8. This book should be paired with "Fun in Fall" (9781477720349) from the Rosen Math Readers Program to provide the alternative point of view on the same topic.

playing with numbers, from basic math facts to the hundreds and thousands. Logic games build strategic thinking skills, and dice games give students hands-on experience with probability. Addition & Subtraction features 23 kid-tested games, offering a variety of challenges for elementary-age students. Chapters include:

- Tens and Teens: Master the concept of number bonds — the relationship between a whole number and the parts that combine to make it — and build a logical foundation for future math.
- Numbers to One Hundred: Develop mental math skills for working with larger numbers. Practice using place value, addition, and subtraction.
- Mixed Operations: Give mental muscles a workout with games that require number skills and logical thinking.
- Logic and Probability: Logic games sharpen inductive and deductive thinking skills, while games of chance build an intuition for probability. Math games protect your child from math phobia. Games pump up

your child's mental muscle, reduce the fear of failure, and generate a positive attitude toward mathematics. Parents can use these games to enjoy quality time with your children. Classroom teachers like them as warm-ups and learning center activities or for a relaxing review day at the end of a term. If you are a tutor or homeschooler, make games a regular feature in your lesson plans to build your students' math skills. So what are you waiting for? Clear off a table, grab a deck of cards, and let's play some math!
