Mahler and Strauss Charles Youmans 2016-09-05 A rare case among history's great music contemporaries, Gustav Mahler (1860-1911) and Richard Strauss (1864-1949) enjoyed a close friendship until Mahler's death in 1911. Unlike similar musical pairs (Bach and Handel, Haydn and Mozart, Schoenberg and Stravinsky), these two composers may have disagreed on the matters of musical taste and social comportment, but deeply respected one another's artistic talents, freely exchanging advice

from the earliest days of professional apprenticeship through the security and aggravations of artistic fame. Using a wealth of documentary material, this book reconstructs the 24-year relationship between Mahler and Strauss through collage—"a meaning that arises from fragments," to borrow Adorno's characterization of Mahler's Sixth Symphony. Fourteen different topics, all of central importance to the life and work of the two composers, provide distinct vantage points from which to view both the professional and personal relationships. Some address musical concerns: Wagnerism, program music, intertextuality, and the craft of conducting. Others treat the connection of music to related disciplines (philosophy, literature), or to matters relevant to artists in general (autobiography, irony). And the most intimate dimensions of life—childhood, marriage, personal character—are the most extensively and colorfully documented, offering an abundance of comparative material. This integrated look at Mahler and Strauss discloses provocative revelations about the two greatest western composers at the turn of the 20th century.

Twelve Years A Slave, Illustrated Edition Solomon Northup 2014-04-08 Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

The Cold War in the Classroom Barbara Christophe 2019-10-23 This book is open access under a CC BY 4.0 license. This book explores how the socially disputed period of the Cold War is remembered in today's history classroom. Applying a diverse set of methodological strategies, the authors map the dividing lines in and between memory cultures across the globe, paying special attention to the impact the crisis-driven age of our present has on images of the past. Authors analysing educational media point to ambivalence, vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies. Others focus on teachers and the history classroom, showing how unresolved political issues create tensions in history education. They render visible how teachers struggle to handle these challenges by pretending that what they do is 'just history'. The contributions to this book unveil how teachers, backgrounding the political inherent in all memory practices, often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach.

Hanslick on the Musically Beautiful Geoffrey Payzant 2003-05 The sixteen lectures by Geoffrey Payzant in this volume are all about one little book by Eduard Hanslick, *Vom Musikalisch-Schönen* - On the Musically Beautiful. Published at Prague in 1854 and a mere 104 pages, VMS ran to ten German editions and many translations in Hanslick's lifetime (he died in 1904). One may agree or disagree with its arguments and conclusions, but there is no denying that musical aesthetics as we know it has been given shape and direction by this small classic.

Payzant's lectures examine aspects of the Hanslick debate which have

received less attention than they deserve. In particular, they offer a fresh look at Hanslick's use of the German words Ton (tone) and Gefühl (feeling).

Composing for the Films Theodor W. Adorno 2005-01-01 This classic account of the nature of film music aesthetics was first published in 1947. Its value comes from a unique combination of talents and experience enjoyed by the book's authors. Eisler's time at Hollywood gave him a particular insight on the technical questions which arise for composers when music is used in the production of films, while Adorno was able to contribute on wide aesthetic and sociological matters as well as specifically musical questions. Above all, the authors envisaged the book as a contribution to the study of modern, industrialized culture; and, in this respect, it has a particular importance to the whole area of cultural studies. With an introduction by Graham McCann.

Musical Studies Ernest Newman 1910 Mr. Newman's fearless attitude toward music & composers results in an iconoclastic treatment of some

Brechtian Cinemas Nenad Jovanovic 2017-01-30 Explores the influence of Bertolt Brecht's ideas on the practice and study of cinema. In *Brechtian Cinemas*, Nenad Jovanovic uses examples from select major filmmakers to delineate the variety of ways in which Bertolt Brecht's concept of epic/dialectic theatre has been adopted and deployed in international cinema. Jovanovic critically engages Brecht's ideas and their most influential interpretations in film studies, from apparatus theory in the 1970s to the presently dominant cognitivist approach. He then examines a broad body of films, including Brecht's own *Mysteries of a Hairdressing Salon* (1923) and *Kuhle Wampe* (1932), Jean-Marie Straub and Danièle Huillet's *History Lessons* (1972), Peter Watkins's *La Commune* (2000), and Lars von Trier's *Nymphomaniac* (2013). Jovanovic argues that the role of montage—a principal source of artistic estrangement (*Verfremdung*) in earlier Brechtian films—has diminished as a result of the technique's conventionalization by today's Hollywood and related industries. Operating as primary agents of *Verfremdung* in contemporary films inspired by Brecht's view of the world and the arts, Jovanovic claims, are conventions borrowed from the main medium of his expression, theatre. Drawing upon a vast number of sources and disciplines that include cultural, film, literature, and theatre studies, *Brechtian Cinemas* demonstrates a continued and broad relevance of Brecht for the practice and understanding of cinema. "This book opens up one of the most vaguely and often ill employed terms within film theory for extremely detailed discussion, providing the most thorough analysis of Brechtianism available to film scholars. It will become a standard reference." R. Barton Palmer, coeditor of *Invented Lives*,

Imagined Communities: The Biopic and American National Identity Music in the Third Reich Erik Levi 1996-04-15 In this authoritative study, one of the first to appear in English, Erik Levi explores the ambiguous relationship between music and politics during one of the darkest periods of recent cultural history. Utilising material drawn from contemporary documents, journals and newspapers, he traces the evolution of reactionary musical attitudes which were exploited by the Nazis in the final years of the Weimar Republic, chronicles the mechanisms that were established after 1933 to regiment musical life throughout Germany and the occupied territories, and examines the degree to which the climate of xenophobia, racism and anti-modernism affected the dissemination of music either in the opera house and concert hall, or on the radio and in the media.

Sporting Sounds Anthony Bateman 2008-10-27 Music and sport are both highly significant cultural forms, yet the substantial and longstanding connections between the two have largely been overlooked. *Sporting Sounds* addresses this oversight in an intriguing and innovative collection of essays. With contributions from leading international psychologists, sociologists, historians, musicologists and specialists in sports and cultural studies, the book illuminates our understanding of the vital part music has played in the performance, reception and commodification of sport. It explores a fascinating range of topics and case studies, including: The use of music to enhance sporting performance Professional applications of music in sport Sporting anthems as historical commemorations Music at the Olympics Supporter rock music in Swedish sport Caribbean cricket and calypso music From local fan cultures to international mega-events, music and sport are inextricably entwined. *Sporting Sounds* is a stimulating and illuminating read for anybody with an interest in either of these cultural forms.

Chinese Sympathies Daniel Leonhard Purdy 2021-10-15 *Chinese Sympathies* examines how Europeans—German-speaking writers and thinkers in particular—identified with Chinese intellectual and literary

traditions following the circulation of Marco Polo's Travels. This sense of affinity expanded and deepened, Daniel Leonhard Purdy shows, as generations of Jesuit missionaries, baroque encyclopedists, Enlightenment moralists, and translators established intellectual regimes that framed China as being fundamentally similar to Europe. Analyzing key German literary texts—theological treatises, imperial histories, tragic dramas, moral philosophies, literary translations, and poetic cycles—*Chinese Sympathies* traces the paths from baroque-era missionary reports that accommodated Christianity with Confucianism to Goethe's concept of world literature, bridged by Enlightenment debates over cosmopolitanism and sympathy, culminating in a secular principle that allowed readers to identify meaningful similarities across culturally diverse literatures based on shared human experiences. Thanks to generous funding from Penn State University, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellopen.org) and other repositories.

Theology and Church Walter Kasper 1989 This new collection of essays by West Germany's most distinguished Roman Catholic theologian covers the two broad areas indicated in the title. The first half discusses the Christian understanding of God; the place of Christianity in the modern world; the modern sense of freedom and history and the theological definition of human rights; christology and anthropology; and the possibilities of a new spiritual christology in a trinitarian setting. The second half discusses various aspects of the church: as universal sacrament of salvation; as the place of truth and as communion. Two final studies examine the continuing challenge of the Second Vatican Council and the fundamental form and meaning of the eucharist. An extended introduction considers systematic theology today and the tasks which confront it.

Postmigration Anna Meera Gaonkar 2020-11 The concept of »postmigration« has recently gained importance in the context of European societies' obsession with migration and integration along with emerging new forms of exclusion and nationalisms. This book introduces ongoing debates on the developing concept of »postmigration« and how it can be applied to arts and culture. While the concept has mainly gained traction in the cultural scene in Berlin, Germany, the contributions expand the field of study by attending to cultural expressions in literature, theatre, film, and art across various European societies, such as the United Kingdom, France, Finland, Denmark, and Germany. By doing so, they highlight this concept's potential and show how it can offer new perspectives on transformations caused by migration.
