[The Emergence of Christian Science in American Religious Life](#) Stephen Gottschalk 2018-10-23

Christian Science is one of only two indigenous American religions, the other being Mormonism. Yet it has not always been examined seriously within the context of the history of religious ideas and the development of American religious life. Stephen Gottschalk fills this void with an examination of Christian Science's root concepts—the informing vision and the distinctive mission as formulated by its founder, Mary Baker Eddy. Concentrating on the quarter-century preceding Eddy's death, a period of phenomenal growth for Christian Science, Gottschalk challenges the conventional academic view of the movement as a fringe sect. He finds instead a serious and distinctive, though radical, religious teaching that began to flower just as orthodox Protestantism began to fade. He gives a clear and detailed account of the rancorous controversies between Christian Science and the various mind-cure and occult movements with which it is often associated, and contends that Christian Science appealed to disenchanting Protestants because of its pragmatic quality—a quality that relates it to the mainstream of American culture. Poetic Style and Innovation in Old English, Old Norse, and Old Saxon Megan E. Hartman
2020-10-26 This book traces the development of hypermetric verse in Old English and compares it to the cognate traditions of Old Norse and Old Saxon. The study illustrates the inherent flexibility of the hypermetric line and shows how poets were able to manipulate this flexibility in different contexts for different practical and rhetorical purposes. This mode of analysis is therefore able to show what degree of control the poets had over the traditional alliterative line, what effects they were able to produce with various stylistic choices, and how attention to poetic style can aid in literary analysis.

Enchantments Kathryn Harrison 2012-03-06 A NEW YORK TIMES NOTABLE BOOK "Part love story, part history, this novel is a tour de force [told] in language that soars and sears."—More St. Petersburg, 1917. After Rasputin's body is pulled from the icy waters of the Neva River, his eighteen-year-old daughter, Masha, is sent to live at the imperial palace with Tsar Nikolay and his family. Desperately hoping that Masha has inherited Rasputin's healing powers, Tsarina Alexandra asks her to tend to her son, the headstrong prince Alyosha, who suffers from hemophilia. Soon after Masha arrives at the palace, the tsar is forced to abdicate, and the Bolsheviks place the royal family under house arrest. As Russia descends into civil war, Masha and Alyosha find solace in each other's company. To escape the confinement of the palace, and to distract the prince from the pain she cannot heal, Masha tells him stories—some embellished and others entirely imagined—about Nikolay and Alexandra's courtship, Rasputin's exploits, and their wild and wonderful country, now on the brink of an irrevocable transformation. In the worlds of their imagination, the weak become strong, legend becomes fact, and a future that will never come to pass feels close at hand. Praise for *Enchantments* "A sumptuous, atmospheric account of the last days of the

Romanovs from the perspective of Rasputin's daughter, [told] with the sensuous, transporting prose that is Kathryn Harrison's trademark."—Jennifer Egan "[A] splendid and surprising book . . . Harrison has given us something enduring."—The New York Times Book Review "[Harrison delivers] this oft-told moment with shocking freshness. . . . Masha reinvents our ideas of Rasputin, and the world of Nicholas and Alexandra is imbued with a glow whose fierceness is governed by the imminence of its loss."—Los Angeles Times "A mesmerizing novel."—O: The Oprah Magazine "Bewitching . . . Harrison sets historic facts like jewels in this intricately fashioned work of exalted empathy and imagination, a literary Fabergé egg. . . . Your Divinity Revealed Helen M. Wright
2000-02-01 This title brings one gently into an understanding of the scientific system Mrs. Eddy has in her textbook, *Science and Health with Key to the Scriptures*, which is meant to be studied with this book. Through the seven synonyms that compromise the definition for God -- Mind, Spirit, Soul, Principle, Life, Truth, and Love -- the reader sees their own divine essence as reflection from the One source divine. The reader understands just how their true being is divine, not the mortal illusion that seems to dictate every event of our lives, but spiritual, not material, revealing that "the kingdom of God is within you".

A Summer with Socrates Parker Lloyd
2008-05 Some people have no place to call home; others discover home is not a safe place. Christine Covington and the old man she meets in Reno—who calls himself Socrates—have both learned these lessons the hard way. Socrates, a homeless wanderer, has evaded the law for twenty years and has created a mythical place called Athens, Nevada. Christine, a young woman, has escaped the oppression of a family member. As they endeavor to stay beneath society's radar, Christine (in disguise) and Socrates spend the summer together bicycling through the mountains of California and the old gold-rush towns of Nevada, panning for gold. Along their journey, Socrates shares his wealth

of wisdom, teaching Christine a new way of thinking. As suspense builds, Christine and Socrates eventually discover they can't escape their pasts forever. With the FBI pursuing Socrates and police authorities searching for Christine, the pair manages to evade their pursuers, but only for so long. Finally captured, Socrates is subjected to a modern trial just as the real Socrates was in 399 B.C. Through it all, the friendship between Socrates and Christine deepens as they learn how to better handle their problems. A Summer with Socrates will delight you with its twists, turns, and surprises, keeping you reading and learning from the opening pages to its eloquent ending.

Scientific Government and Self-government

Rolf A. F. Witzsche 2003

God's Perfect Child (Twentieth Anniversary Edition) Caroline Fraser 2018-06-19 From Pulitzer Prize-winning author and former Christian Scientist Caroline Fraser comes the first unvarnished account of one of America's most controversial and little-understood religious movements. Millions of Americans – from Lady Astor to Ginger Rogers to Watergate conspirator H. R. Haldeman – have been touched by the Church of Christ, Scientist. Founded by Mary Baker Eddy in 1879, Christian Science was based on a belief that intense contemplation of the perfection of God can heal all ills – an extreme expression of the American faith in self-reliance. In this unflinching investigation, Caroline Fraser, herself raised in a Scientist household, shows how the Church transformed itself from a small, eccentric sect into a politically powerful and socially respectable religion, and explores the human cost of Christian Science's remarkable rise. Fraser examines the strange life and psychology of Mary Baker Eddy, who lived in dread of a kind of witchcraft she called Malicious Animal Magnetism. She takes us into the closed world of Eddy's followers, who refuse to acknowledge the existence of illness and death and reject modern medicine, even at the cost of their children's lives. She reveals just how Christian Science managed to gain extraordinary legal and Congressional sanction for its dubious practices and tracks its enormous influence on new-age beliefs and other modern healing cults. A passionate exposé of zealotry, *God's Perfect Child* tells one of the most dramatic and little-known stories in American religious history.

Introduction to the Study of Religion Leroyce Miles 2018-08-07 One thing is clear that fighting with other human beings in the name of religion is subhuman. As a religious man, we are fellow-travellers in the direction of the realm of spirit. Here the nomenclature of Hindus, Muslims, Christians, etc., ceases to be meaningful. Of course, we have to go very far and we have not made any beginning yet. However, at present the advaitic principle of difference less Brahman can serve the purpose of harmonizing all religions. Here we have adopted this principle. Secondly, the key-concepts of different religions

have been shown to mingle into one another. The book attempts to interrogate the categories used in western discourse in the study of religion. In doing so, the book outlines a broad overview of the discussions on issues relating to the methods and theories in the study of religion. The book provides an insight into some of the key issues that need clarity in dealing with religions. This scholarly presentation is a must read for students of religion, culture and philosophy and for those involved with the struggles of the subaltern community.

The Christians' God Does Not Exist! Yes, He/She Does! Prncell F. Johnson Jr.

2018-02-22 *The Christians' God Does Not Exist! Yes, He/She Does!* By: Prncell F. Johnson Jr. Carl Sagan, popular astronomer, cosmologist, astrophysicist, and astrobiologist wrote: "We are Star Stuff which has taken its destiny into its own hands." The scientific community basically agrees that everything is made of atoms. Prncell F. Johnson Jr. says that they are all wrong! Johnson shows that the material universe (along with us mortals) is one big illusion for all things are actually incorporeal/spiritual, the manifestation of the spiritual being we Christians have come to call God. He says that the realization of and utilization of this fact will enable one to duplicate for himself the "so-called" miracles of Christ Jesus in degrees, thus proving the existence of this God, and the non-existence of matter. Johnson's proof is based upon a law of physics that make it all but impossible to refute as the below reviews confirm.

Spiritual Moderns Erika Doss 2023-05-05

Examines how and why religion matters in the history of modern American art. Andy Warhol is one of the best-known American artists of the twentieth century. He was also an observant Catholic who carried a rosary, went to mass regularly, kept a Bible by his bedside, and depicted religious subjects throughout his career. Warhol was a spiritual modern: a modern artist who appropriated religious images, beliefs, and practices to create a distinctive style of American art. *Spiritual Moderns* centers on four American artists who were both modern and religious. Joseph Cornell, who showed with the Surrealists, was a member of the Church of Christ, Scientist. Mark Tobey created pioneering

works of Abstract Expressionism and was a follower of the Bahá'í Faith. Agnes Pelton was a Symbolist painter who embraced metaphysical movements including New Thought, Theosophy, and Agni Yoga. And Warhol, a leading figure in Pop art, was a lifelong Catholic. Working with biographical materials, social history, affect theory, and the tools of art history, Doss traces the linked subjects of art and religion and proposes a revised interpretation of American modernism.

The Kosmic Symphony -Volume 1 Eric Coxall 2016-12-31 'The Kosmic Symphony' is a holistic approach which examines the evolution of our social, religious and cultural world, our physical and scientific world and finally our inner mind or subjective reality. This book identifies where many of our beliefs and traditions originate. These have been imposed on us by religious authorities, politics, large corporations and institutions. We absorb these ideas without our conscious awareness or control, they can lead to wars and fundamentalism. Science has transformed our understanding of the universe, life and the mind. With this new world-view we have the knowledge to reach our full potential and progress into a new era of self-actualisation and enlightenment. Volume 1 -covers the ascent of humanity into the classical world. Followed by a decent to the dark ages when humans become puppets of Gods, Priests and Kings. Volume 2 brings the thesis forward from the reformation. *The Christian Science Journal* 1970

Extensively revised and updated to reflect current events and trends, this new edition continues to engage students in reflection about religious diversity. Mary Baker Eddy Helen M. Wright 1995
A New Christian Identity Amy B. Voorhees 2021-02-10 In this study of Christian Science and the culture in which it arose, Amy B. Voorhees emphasizes Mary Baker Eddy's foundational religious text, *Science and Health with Key to the Scriptures*. Assessing the experiences of everyday adherents after *Science and Health's* appearance in 1875, Voorhees shows how Christian Science developed a dialogue with both mainstream and alternative Christian theologies. Viewing God's benevolent allness as able to heal human afflictions through prayer, Christian Science emerged as an anti-mesmeric, restorationist form of Christianity that interpreted the Bible and approached emerging modern medicine on its own terms. Voorhees traces a surprising story of religious origins, cultural conversations, and controversies. She contextualizes Christian Science within a wide swath of cultural and religious movements, showing how Eddy and her followers interacted regularly with Baptists, Methodists, Congregationalists, Catholics, Jews, New Thought adherents, agnostics, and Theosophists. Influences flowed in both directions, but Voorhees argues that Christian Science was distinct not only organizationally, as scholars have long viewed it, but also theologically, a singular expression of Christianity engaging modernity with an innovative, healing rationale.

Intellectual Populism Paul Stob 2020-04-01 In response to denunciations of populism as undemocratic and anti-intellectual, *Intellectual Populism* argues that populism has contributed to a distinct and democratic intellectual tradition in which ordinary people assume leading roles in the pursuit of knowledge. Focusing on the Gilded Age and Progressive Era, the decades that saw the birth of populism in the United States, this book uses case studies of certain intellectual figures to trace the key rhetorical

appeals that proved capable of resisting the status quo and building alternative communities of inquiry. As this book shows, Robert Ingersoll (1833-1899), Mary Baker Eddy (1821-1910), Thomas Davidson (1840-1900), Booker T. Washington (1856-1915), and Zitkála-Šá (1876-1938) deployed populist rhetoric to rally ordinary people as thinkers in new intellectual efforts. Through these case studies, Intellectual Populism demonstrates how orators and advocates can channel the frustrations and energies of the American people toward productive, democratic, intellectual ends.

Beyond Belief Cami Ostman 2013-04-02
Beyond Belief addresses what happens when women of extreme religions decide to walk away. Editors Susan Tive (a former Orthodox Jew) and Cami Ostman (a de-converted fundamentalist born-again Christian) have compiled a collection of powerful personal stories written by women of varying ages, races, and religious backgrounds who share one commonality: they've all experienced and rejected extreme religions. Covering a wide range of religious communities—including Evangelical, Catholic, Jewish, Mormon, Muslim, Calvinist, Moonie, and Jehovah's Witness—and containing contributions from authors like Julia Scheeres (Jesus Land), the stories in Beyond Belief reveal how these women became involved, what their lives were like, and why they came to the decision to eventually abandon their faiths. The authors shed a bright light on the rigid expectations and misogyny so often built into religious orthodoxy, yet they also explain the lure—why so many women are attracted to these lifestyles, what they find that's beautiful about living a religious life, and why leaving can be not only very difficult but also bittersweet.

Principle-Centered Parenting: Phyllis Williams 2015-10-12
Principle-Centered Parenting is not about controlling, manipulating or changing childrens external behavior. It is about starting healthy spiritually based thinking that changes behavior from the inside out. Focusing on controlling or changing external behaviors is like trying to change a picture projected on a screen without changing the film in the camera. As children learn to love good, their behavior reflects their thinking and bad behavior dissolves like darkness when we turn on a light. We cannot teach a drowning person how to swim. Similarly, we cannot teach healthy behavior to an out of control child. It is necessary to stop destructive or harmful behavior with temporary measures, but long-term learning takes time, repetition, creative insight and willingness to listen to our inner spiritual parenting guide. Teaching behavior principles is similar to teaching math or reading. It takes loving patience and faith in a childs ability to learn. When children understand correct principles, their mistakes disappear. Parables like the Wheat and Tares explain the spiritual law of growth and development. The scriptures contain powerful stories that make spiritual laws practical and effective in parenting and daily family life. Principle-Centered Parenting is a guide for parents to tap into their own and their childrens infinite spiritual resources.

A Collision of Truths Robert Ellis 2008-04 "Robert Y. Ellis' A Collision of Truths is a beautifully written and insightful autobiography of one man's journey of faith. Ellis was raised a Christian Scientist but later both rejected and appropriated many of its central beliefs. Ellis narrates the role Christian Science played in providing balance and meaning in his life while questioning its hostility to critical inquiry and modern medicine. Through sensitive description of the arc of his own life, Ellis calls his readers to re-examine their basic values and commitments amidst the complexities of daily existence in a digital world where knowledge increases exponentially. A genuine achievement and must read for fellow travelers who are looking for meaning and hope in our time." - Mark I. Wallace, PhD, Professor of Religion, Swarthmore College, Author of Finding God in the Singing River "A man would be singularly inert if he were not to find this account vastly tantalizing. What an extraordinary tale! The way Ellis proceeds through his life from earliest childhood on keeps a reader wanting to know what comes next. And his prose is a blessed relief to anyone who loves good English prose." - Thomas Howard, PhD, author Christ the Tiger This narrative is the first to reveal one Christian Science family's story, their faith's underpinnings and those singular episodes that collided with Ellis' beliefs including his Christian Science mother being treated by a beam of protons at the Harvard University cyclotron, his father's unsolved murder in Harlem, and the religious tensions in his childhood home that ultimately exploded. Ellis' sometimes painful, always captivating journey will inspire everyone being challenged by today's extraordinary scientific discoveries which appear to leave no room for God.

Milestones of the Way: How East Meets West to Enrich Your Life Reverend Paul Lachlan Peck 2011-07-15 Author Reverend Paul Lachlan Peck believes that millstones can be

turned into milestones that adverse experiences can become opportunities for spiritual growth and magnificent manifestations. By listening to the small voice of Spirit, God, you too can overcome the millstones in your own life. Peck explores the intriguing ideas and puzzling questions of New Age teachings in this revised volume, originally titled Intermediate Spiritual Metaphysics. By examining the positive forces that manifest throughout the four major quadrants of life: health, wealth, work, and love, Peck also shows how these forces work within the four primary institutions: church, finance, government, and education. The Judaic-Christian student of New Age theology will find answers to complex spiritual questions in this easy-to-read book that has been divided into the following three sections: Part One considers dharma, karma, reincarnation, and life between lives. Part Two discusses the governance, authority, and responsibility of the universe. Part Three devotes itself to the Revelation of St. John the Divine, the teachings that relate to daily spiritual life. Milestones of the Way will provide you with an empowerment that heals and ultimately advances you on a path toward spiritual contentment.

My Yacad Joe Lantz 2007-03 Why did I write this? Because I believe that every person that desires, or claims to be a "CHRISTIAN " should take the time to conduct a comprehensive study of the Scriptures. Acts 17:11 "These were the more noble than Thessalonica, in that they received The Word with all readiness of mind, and searched the Scriptures daily, whether those things were so.", and 2 Tim.3:16 tells us, "All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness." This I have done. The result will be that the man of God, might become thoroughly equipped, for every good works." This study should then be documented in writing, which would then become their direction(s) on how they can improve their own personal lives. Having done this, they will be competent to help a brother or sister in their time of need. Further, every person has their own subjects, and/or (circumstances) they must determine themselves. Additionally, I believe every Christian should study the births, history, and

future of the CHURCH OF THEIR CHOICE. I then conclude this document with 'A Synopsis' which might be described as my personal offering. The title I have chosen for these studies, and documentation comes from the Hebrew word root, "YACAD" (ya-saud), which means among others, foundation, cornerstone, or to establish. I believe that we all must build our own foundation, cornerstone, and then establish a viable program in the study of the scriptures. May God Bless all that chose to read, study, and inject these words that I have written. Written for my benefit, and with the Grace of God, that read them.
