one of his greatest theological works. Written as an eloquent defense of the faith at a time when the Roman Empire was on the brink of collapse, it examines the ancient pagan religions of Rome, the arguments of the Greek philosophers and the revelations of the Bible. Pointing the way forward to a citizenship that transcends worldly politics and will last for eternity, this book is one of the most influential documents in the development of Christianity. One of the great cornerstones in the history of Christian thought, "The City of God" is vital to an understanding of modern Western society and how it came into being. Begun in A.D. 413, the book's initial purpose was to refute the charge that Christianity was to blame for the fall of Rome (which had occurred just three years earlier). Indeed, Augustine produced a wealth of evidence to prove that paganism bore within itself the seeds of its own destruction. However, over the next thirteen years that it took to complete the work, the brilliant ecclesiastic proceeded to his larger theme: a cosmic interpretation of history in terms of the struggle between good and evil. By means of his contrast of the earthly and heavenly cities--the one pagan, self-centered, and contemptuous of God and the other devout, God-centered, and in search of grace--Augustine explored and interpreted human history in relation to eternity. *The City of God* Saint Augustine (of Hippo) 1967 *Augustine's City of God* Gerard O'Daly 2020-10-22 The most influential of Augustine's

works, City of God played a decisive role in the formation of the Christian West. Augustine wrote City of God in the aftermath of the Gothic sack of Rome in AD 410, at a time of rapid Christianization across the Roman Empire. Gerard O'Daly's book remains the most comprehensive modern guide in any language to this seminal work of European literature. In this new and extensively revised edition, O'Daly takes into account the abundant scholarship on Augustine in the twenty years since its first publication, while retaining the book's focus on Augustine as a writer in the Latin tradition. He explores the many themes of City of God, which include cosmology, political thought, anti-pagan polemic, Christian apologetic, theory of history, and biblical interpretation. This guide, therefore, is about a single literary masterpiece, yet at the same time it surveys Augustine's developing views through the whole range of his thought. As well as a running commentary on each part of the work, O'Daly provides chapters on the themes of the work, a bibliographical guide to research on its reception, translations of any Greek and Latin texts discussed, and detailed suggestions for further reading.

The City of God Aurelius Augustine 2017-12-06 One of Augustine's most famous works, this book tells of the fall of the Roman Empire and the rise of the holy and righteous City of God from the ashes. While building a utopia much like The Republic does, Augustine uses sound theology to build the foundations of the cities morals and lawful authority. Many theologies, especially within the Catholic tradition, owe their beginnings to the teachings of Augustine and this work is one of the starts of the field.

The Political Aspects of St. Augustine's City of God John Neville Figgis 2019 When one civilization has fallen and another is in its birth throes, people are apt to be seduced by the rushlights of a false leadership. The mind and mood of such a time of transition are intensely puzzling and those who would meet its needs must have insight and vision. The Epistle to the Hebrews was written after the fall of Jerusalem in the interest of a larger faith and in defense of

the substantial authority of Christianity. When Rome was sacked by Alaric in 410 A. D., the shock of the catastrophe reacted against Christianity. Augustine wrote the De Civitate Dei to prove that the disaster was the inevitable Nemesis of the luxuries and corruptions of the citizenship and had little to do with Christianity, which had only a slight hold on public life. He also pointed out the contrast between the actual city to which the Romans were fanatically devoted, and the ideal city of his prophetic vision, contending that this ideal is eternal and unrealized but in process of realization. He was further convinced that Christianity was not merely a superior gnosis but a scheme of redemption, justified by its higher ethical standards and by the better conduct of its adherents. This apology has all the limitations of the time and the writer, but Augustine was a mystic and a statesman, and the importance of this writing is in the fact that "in it for the first time an ideal consideration, a comprehensive survey of human history found its expression."

The City of God Saint Augustine 2021-05-07
The City of God is a book of Christian philosophy written in Latin by Augustine of Hippo in the early 5th century AD. The book was in response to allegations that Christianity brought about the decline of Rome and is considered one of Augustine's most important works. Augustine wrote The City of God as an argument for the truth of Christianity over competing religions and philosophies. He argues that Christianity was not responsible for the Sack of Rome, but instead responsible for its success. Even if the earthly rule of the Empire was imperiled, it was the City of God that would ultimately triumph. As a work of one of the most influential Church Fathers, The City of God is a cornerstone of Western thought, expounding on many profound questions of theology, such as the suffering of the righteous, the existence of evil, the conflict between free will and divine omniscience, and the doctrine of original sin.

* working interactive footnotes De Civitate Dei, (full title: De Civitate Dei contra Paganos), translated in English as The City of God, is a book of Christian philosophy written in Latin by Augustine of Hippo in the early 5th century AD. It is one of Augustine's major works, standing alongside his The Confessions, On Christian Doctrine, and On the Trinity. Augustine is considered the most influential Father of the Church in Western Christianity, and The City of God profoundly shaped Western civilization. Augustine wrote the treatise to explain Christianity's relationship with competing religions and philosophies, as well as its relationship with the Roman government, with which it was increasingly intertwined. It was written soon after Rome was sacked by the Visigoths in 410. This event left Romans in a deep state of shock, and many saw it as punishment for abandoning traditional Roman religion for Catholic Christianity. It was in this atmosphere that Augustine set out to console Christians, writing that, even if the earthly rule of the Empire was imperiled, it was the City of God that would ultimately triumph. Augustine's eyes were fixed on Heaven, a theme of many Christian works of Late Antiquity. (from wikipedia.com)

The Earthly City, on the other hand, consists of people who have immersed themselves in the cares and pleasures of the present, passing world. Augustine's thesis depicts the history of the world as universal warfare between God and the Devil. This metaphysical war is not limited by time but only by geography on Earth. In this war, God moves (by divine intervention/ Providence) those governments, political /ideological movements and military forces aligned (or aligned the most) with the Catholic Church (the City of God) in order to oppose by all means-including military-those governments, political/ideological movements and military forces aligned (or aligned the most) with the Devil (the City of Devil).

The City of God St. Augustine 2010-12-15 One of the great cornerstones in the history of Christian philosophy, The City of God provides an insightful interpretation of the development of modern Western society and the origin of most Western thought. Contrasting earthly and heavenly cities--representing the omnipresent struggle between good and evil--Augustine explores human history in its relation to all eternity. In Thomas Merton's words, "The City of God is the autobiography of the Church written by the most Catholic of her great saints." This Modern Library Paperback Classics edition is a complete and unabridged version of the Marcus Dods translation.

Agustín (Santo, Obispo de Hipona) 1998-09-24 The first new rendition for a generation of one of the classic texts of Western civilisation.

Augustine's City of God

Gerard O'Daly 1999-04-02 The City of God is the most influential of Augustine's works, which played a decisive role in the formation of the Christian West. This book is the first comprehensive

modern guide to it in any language. The City of God's scope embodies cosmology, psychology, political thought, anti-pagan polemic, Christian apologetic, theory of history, biblical interpretation, and apocalyptic themes. This book is, therefore, at once about a single masterpiece and at the same time surveys Augustine's developing views through the whole range of his thought. The book is written in the form of a detailed running commentary on each part of the work. Further chapters elucidate the early fifth-century political, social, historical, and literary background, the work's sources, and its place in Augustine's writings. The book should prove of value to Augustine's wide readership among students of late antiquity, theologians, philosophers, medievalists, Renaissance scholars, and historians of art and iconography. An Analysis of St. Augustine's The City of God Against the Pagans Jonathan D. Teubner 2018-05-11 The City of God against the Pagans is a central text in the Western intellectual tradition. Made up of twenty-two lengthy books, Augustine wrote his masterpiece over a thirteen-year period during which the Western Roman Empire began to unravel. The first ten books are a critique of pagan religion and philosophy, while books eleven to twenty-two treat the relationship between the City of God and the Earthly City. Throughout Augustine conveys his mature vision of what it means for a Christian to live in a world with evil. Its arguments and ideas have provoked debate for nearly 1600 years, and remains a central text in the disciplines of theology, historiography, and political theory. City of God (Books 11-22) Saint Augustine 2013 In the context of what begins as a lengthy critique of classic Roman religion and a defense of Christianity, Augustine touches upon numerous topics, including the role of grace, the original state of humanity, the possibility of waging a just war, the ideal form of government, and the nature of heaven and hell.

The City of God St. Augustine 1994-02-01 One of the great cornerstones in the history of Christian philosophy, The City of God provides an insightful interpretation of the development of modern Western society and the origin of most Western thought. Contrasting earthly and heavenly cities--representing the omnipresent struggle between good and evil--Augustine

explores human history in its relation to all eternity. In Thomas Merton's words, "The City of God is the autobiography of the Church written by the most Catholic of her great saints." This Modern Library Paperback Classics edition is a complete and unabridged version of the Marcus Dods translation.

Nicene and Post-Nicene Fathers Philip Schaff 2007-05-01 "The Council of Nicaea in 325 AD marked the beginning of a new era in Christianity. For the first time, doctrines were organized into a single creed. The Nicene and Post-Nicene Fathers did most of their writing during and after this important event in Church history. Unlike the previous era of Christian writing, the Nicene and Post-Nicene era is dominated by a few very important and prolific writers. In Volume II of the 14-volume collected writings of the Nicenes and Post-Nicenes (first published between 1886 and 1889), readers will discover one of Augustines masterworks: City of God. In this groundbreaking work, Augustine proposes a philosophy that sees history as having a purpose and direction. Coming at a time when Roman civilization was failing, this work argued that Romans could find comfort in Christianity because all of history was merely a struggle between the City of God (believers) and the City of Man (nonbelievers). Should Romans put their faith in the City of God, even their declining civilization should cause them no grief. Even though it was written at a very particular time in history, City of God appeals to all Christians seeking inspiration to continue their religious practice."

The City of God, Volume II Bishop of Hippo Saint Augustine 2021-12-12 The City of God, Volume II Bishop of Hippo Saint Augustine - "The glorious city of God is my theme in this work; which you; my dearest son Marcellinus; suggested; and which is due to you by my promise. I have undertaken its defence against those who prefer their own gods to the Founder of this city; a city surpassingly glorious; whether we view it as it still lives by faith in this fleeting course of time; and sojourns as a stranger in the midst of the ungodly; or as it shall dwell in the fixed stability of its eternal seat; which it now with patience waits for; expecting until "righteousness shall return unto judgment;" and it obtain; by virtue of its excellence; final victory and perfect peace. A

great work this; and an arduous; but God is my helper." -an excerpt
