The Quick 30/30 Job Solution Neil P. McNulty 2009-08 A lifeboat job is one individuals need to find NOW in order to keep themselves financially afloat in difficult times. It's essentially a survival job - not one that necessarily leads to an exciting career or high wages. It's all about meeting the necessities of life and becoming self-sufficient on the outside. Ex-offenders know all too well the importance of lifeboat jobs. Being released from prison or jail without money, a job, or family support, and facing immediate housing, clothing, food, and transportation needs - as well as probation and parole reporting requirements - they need to quickly land a job near where they live. The authors reveal how anyone with a stable work history and marketable skills can quickly find a job close to home by using an arsenal of unconventional job search

strategies and techniques that get the attention of prospective employers. Indeed, they outline the fastest, most effective job hunting system anywhere for finding employment. The book includes three unique principles for job search success: Talent Intersecting Opportunity (TIO) Principle; Talent and Geography (TAG) Principle; 30-Mile Placement Principle. Filled with step-by-step advice on everything from identifying employers, writing resumes, and composing emails to leaving voicemail messages, interviewing, and follow-up over a 30-day period, here is the book that can make a big difference in the lives of ex-offenders who need a lifeboat job to survive in today's challenging economy.

Successful Shotgunning Peter F. Blakeley 2003-08-01 • A solid guide for becoming a better shot • Wing shooting, sporting clays, skeet shooting • Expert teacher and coach shares years of experience Successful Shotgunning focuses on wing-shooting and sporting clays techniques. Gain a better understanding of the shooting process as a whole as you sharpen your skills and become a better shot. How to evaluate moving targets in wing-shooting situations in the field, in a competitive environment, on a sporting clays course, or on a skeet field. Choose the correct gun and gun fit for you; learn to diagnose some common eye problems and correct your aim; tame recoil; and deal with the challenges of various sporting clays targets. Quote from the book: "Successful shotgunning isn't an inherent trait, it is a skill and it must be learned like any other skill. It requires systematic study and the ability to accurately calculate the variables of moving targets. My coaching methods involve an intuitive technique that is based on pure logic and a systematic breakdown of all the variables involved. This is how the experts shoot. Over a period of time they build up a personal mental repertoire of sight pictures, which they can then successfully apply to each target, regardless of whether it is a quail, dove, duck or clay target. They then have the ability to see a subtle but consequential target/barrel relationship on every shot and adjust to each different shooting situation."

Beyond Duty Shannon Meehan 2013-04-30 Under the blazing Iraqi sun in the summer of 2007, Shannon Meehan, a lieutenant in the U.S. Army, ordered a strike that would take the lives of innocent Iraqi civilians. He thought he was doing the right thing. He thought he was protecting his men. He thought that he would only kill the enemy, but in the ruins of the strike, he discovers his mistake and uncovers a tragedy. For most of his deployment in Iraq, Lt. Meehan felt that he had been made for a life in the military. A tank commander, he worked in the violent Diyala Province, successfully fighting the insurgency by various Sunni and Shia factions. He was celebrated by his senior officers and decorated with medals. But when the U.S. surge to retake Iraq in 2006 and 2007 finally pushed into Baqubah, a town virtually entirely controlled by al Qaida, Meehan would make the decision that would change his life. This is the true story of one soldier's attempt to reconcile what he has done with what he felt he had to do. Stark and devastating, it recounts first-hand the reality of a new type of warfare that remains largely unspoken and forgotten on the frontlines of Iraq.
