The Runaway Claire Wong 2017-02-17 Shortly before her eighteenth birthday, Rhiannon Morgan runs away from the remote Welsh village of Llandymna. Camping out in Dyrys Woods, she starts to make a new life for herself and she finds space for her active imagination to run wild. Weaving together the stories she loves and memories of her past, including the mother she lost thirteen years ago. Back in the village, Rhiannon's disappearance triggers a series of events that uncovers the cracks in Llandymna's quiet surface. Quick-tempered Callum finds himself reluctantly drawn into search parties, while a young police officer is forced to investigate his neighbours, and the village's elderly story-teller hints at a secret that the older generation have kept for decades...

How to Tame a Fox (and Build a Dog) Lee Alan Dugatkin 2019-04-14

Tucked away in Siberia, there are furry, four-legged creatures with wagging tails and floppy ears that are as docile and friendly as any lapdog. But, despite appearances, these are not dogs—they are foxes. They are the result of the most astonishing experiment in breeding ever undertaken—imagine speeding up thousands of years of evolution into a few decades. In 1959, biologists Dmitri Belyaev and Lyudmila Trut set out to do just that, by starting with a few dozen silver foxes from fox farms in the USSR and attempting to recreate the evolution of wolves into dogs in real time in order to witness the process of domestication. This is the extraordinary, untold story of this remarkable undertaking. Most accounts of the natural evolution of wolves place it over a span of about 15,000 years, but within a decade, Belyaev and Trut's fox breeding experiments had resulted in puppy-like foxes with floppy ears, piebald spots, and curly tails. Along with these physical changes came genetic and behavioral changes, as well. The foxes were bred using selection criteria for tameness, and with each generation, they became increasingly interested in human companionship. Trut has been there the whole time, and has been the lead scientist on this work since Belyaev's death in 1985, and with Lee Dugatkin, biologist and science writer, she tells the story of the adventure, science, politics, and love behind it all. In *How to Tame a Fox*, Dugatkin and Trut take us inside this path-breaking experiment in the midst of the brutal winters of Siberia to reveal how scientific history is made and continues to be made today. To date, fifty-six generations of foxes have been domesticated, and we continue to learn significant lessons from them about the genetic and behavioral evolution of domesticated animals. *How to Tame a Fox* offers an incredible tale of scientists at work, while also celebrating the deep attachments that have brought humans and animals together throughout time.

Maybe a Fox Kathi Appelt 2016-03-08 Worlds collide in a spectacular way when Newbery and National Book Award finalist Kathi Appelt and Pulitzer Prize nominee and #1 New York Times bestseller Alison McGhee team up to create a fantastical, heartbreaking, and gorgeous tale about two sisters, a fox cub, and what happens when one of the sisters disappears forever. Sylvie and Jules, Jules and Sylvie. Better than just sisters, more than best friends, they'd be identical twins if only they'd been born in the same year. And if only Sylvie wasn't such a fast—faster than fast—runner. But Sylvie is too fast, and when she runs to the river they're not supposed to go anywhere near to throw a wish rock just before the school bus comes on a snowy morning, she runs so fast that no one sees what happens...and no one ever sees her again. Jules is devastated, but she refuses to believe what all the others believe, that—like their mother—her sister is gone forever. At the very same time, in the shadow world, a shadow fox is born—half of the spirit world, half of the animal world. She too is fast—faster than fast—and she senses danger. She's too young to know exactly what she senses, but she knows something is very wrong. And when Jules believes one last wish rock for Sylvie needs to be thrown into the river, the human and shadow worlds collide. Writing in alternate voices—one Jules's, the other the fox's—Kathi Appelt and Alison McGhee tell the searingly beautiful tale of one small family's moment of heartbreak, a moment that unfolds into one that is epic, mythic, shimmering, and most of all, hopeful.
