Serving Local Schools Chuck Bomar 2017-01-31 The heartbeat of every local community is found in its local schools. Yet many Christians have little to no connection with school leaders, and few churches have an

active ministry presence. If you want to effectively reach your community, you must take the time to invest in school administrators, teachers, and families. Not having a relationship just isn't an option. Many schools today are facing budget crises' and financial shortfalls or declining enrollment. School leaders and teachers are more open than ever before to partnering with parents, neighbors, and churches in a sustainable way. This book shares stories and examples of how schools and churches can work together for the common good of students and the community. You'll gain a better understanding of the laws defining the line of separation between church and state, and you will learn how to best approach school leaders with creative ideas for working together. **Serving Local Schools** provides biblical support and practical resources to equip individuals and churches to meet the needs of local schools while faithfully witnessing to the good news found in Jesus Christ. Build Neighbors Jimmy McAfee 2017-09-27 In *Build Neighbors*, Jimmy tells his story of discovering a life of community. What began as a simple effort to serve people in need led to relationships that not only changed his perspective of others, but also challenged his own inner brokenness. This collection of story-based lessons is aimed at helping anyone who wants to live more fully in community with friends and neighbors. It speaks candidly about our insecurities in opening up to others, the difficult choices we face and ultimately the joy received from loving our neighbors. Learning Service Claire Bennett 2018 "This year, over ten million people will go abroad, eager to find the perfect blend of adventure and altruism. Volunteer travel can help you find your place in the world--and find out what you're made of. So why do so many international volunteer programs fail to make an impact? Why do some do more harm than good? Learning Service offers a powerful new approach that invites volunteers to learn from host communities before trying to 'help' them. It's also a thoughtful critique of the sinister side of volunteer travel; a guide for turning good intentions into effective results; and essential advice on how to make the most of your experience."--Amazon.com.

Leading Without Power Max De Pree 2003-05-23 Simple yet profound, Max De Pree's observations are often quoted by America's top CEOs, educators, and opinion makers. The best-selling author of *Leadership Is an Art and Leadership Jazz*, he has done no less than revolutionize leadership thinking and practice. Now, in *Leading Without Power*, De Pree finds that the most successful organizations of the Information Age operate not as controlled collections of human resources, but as dynamic communities of free people. And in order to mobilize these communities, leaders must know how to lead without power, because free people follow willingly or not at all. "This is a book to be read, reread, shared widely within any organization. Every chapter has pictures for our mind that will remain vivid long after the book is closed. A vibrant testament to human potential, the why of work." —Frances Hesselbein, president and CEO, Leader to Leader Institute formerly the Drucker Foundation De Pree holds up nonprofits as mirrors of our greatest aspirations places where people work for the opportunity to contribute to the common good, and for the chance to realize their full human potential. He calls such organizations movements and challenges others to follow their

example. Movements, De Pree maintains, transcend the deceptive simplicity of a single bottom line and set standards for leadership and service all organizations should reach for. They lead not with the power of the paycheck or with bureaucratic carrots-and-sticks, but with the promise of meaningful work and lives fulfilled. For that reason, nonprofit or otherwise, they are the most successful organizations of all. Brimming with rich, warm, and wise advice, *Leading Without Power* takes an enlightened look at the forces that drive selfless accomplishment. It offers encouragement and hope for creating organizations that inspire the very best in people. And it provides leaders at every level with a new context for effecting positive change. Small Libraries, Big Impact Yunfei Du 2016-06-13 This valuable book shows how to get your community behind your library by making it an essential part of community life and demonstrating its benefit to all members of the community. Evolving technologies and the changing social landscape have put pressure on public libraries to shift their service values and methods in order to maintain funding opportunities. The challenge is substantial: library managers today must adopt a new mindset in order to perform a broad spectrum of activities and attract new users who are not traditional library patrons. *Small Libraries, Big Impact: How to Better Serve Your Community in the Digital Age* helps readers to meet the challenge of serving diverse users via a community-centered library. Based on an intensive review of literature on serving library users in smaller libraries as well as the author's own research findings gained from interviewing 55 library directors, this book provides conceptual and practical tools for serving 21st-century users, gaining wider community support, programming dynamic events, and planning

rewarding technology learning. Beyond supplying actionable advice, the book will also review relevant concepts and theoretical frameworks, such as community outreach and partnership, social justice and social inclusion, technology and social transition, cultural diversity and the digital divide, entrepreneurship, outreach, best practices for marketing libraries, and library space design.

The Serving Leader Ken Jennings 2016-02-01 The Serving Leader Five Powerful Actions to Transform Your Team, Business, and Community, 10th Anniversary Edition, Revised and Expanded It's people who make organizations great, so how can leaders best help their people achieve that greatness? As Ken Jennings and John Stahl-Wert show in this new edition of their bestseller, you can't just demand greatness—you have to inspire it. The most effective leaders don't just stand in front of their people, they stand behind them too. As one of the characters in the book notes, "You qualify to be first by putting other people first." This concept sounds paradoxical, but it leads to extraordinary outcomes—and The Serving Leader shows precisely how and why. While Jennings and Stahl-Wert use a compelling fictional story to outline the basics of Serving Leadership, all the characters in it are based on real people, the organizations depicted are based on real organizations—and the results they achieved are what really happened. This edition features a new foreword by Ken Blanchard, a new introduction, and a new chapter checking back in with Mike, the main character, to see what he has learned in the twelve years since he embraced Serving Leadership On one level this is the most practical guide available to implementing Serving Leadership; on a deeper level, it is a book about the personal journey of growth that real leadership requires. Great organizations are great because they're filled with people who freely choose to do their very best. It's a maddeningly simple concept yet stunningly hard to execute. Jennings and Stahl-Wert show leaders how to earn that kind of commitment.

The Serving Leader Ken Jennings 2004-11-04 * The second book in The Ken Blanchard Series-selected and with a foreword by Ken Blanchard * A unique and practical "action approach" to servant leadership-a popular and widely espoused concept that figures prominently in the writings of

Ken Blanchard, Peter Senge, Stephen Covey, Peter Block, and many others * Uses a compelling story format with highly sympathetic characters to make servant leadership accessible to a wide audience At a time of increasing concern about ethics at the top, The Serving Leader makes the case for an approach to leadership that is both more moral and more effective than the ruthless, anything-for-the-bottom-line approach that has brought disgrace-and often ruin-to many once-mighty organizations. "Serving leaders" lead by serving others, not by using them. As one of the characters in the book notes, "A leader qualifies to be first by putting other people first." It sounds paradoxical, but it works-and The Serving Leader shows precisely how and why. While The Serving Leader uses a parable to outline the basics of servant leadership, all the people in it are based on real people, the organizations depicted are based on real organizations-and the results they achieved are what really happened. Ken Jennings and John Stahl-Wert use an engaging and moving story about an estranged son, his dying father, and a remarkable group of innovative leaders in business, volunteer organizations, and civic groups to illustrate five pragmatic principles of servant leadership. On one level The Serving Leader is the most practical guide available to implementing servant leadership; on a deeper level, it is a book about the personal journey of growth that real leadership requires.
