monolithic culture with the same developmental trajectories throughout the region. This book contributes to that body of scholarship by exploring both the level of variety and of similarity that we see in the practices at each site and thereby highlights the differences between communities that otherwise look very similar. By bringing together an international group of scholars working on tombs and cemeteries on mainland Greece, Crete, and in the Dodecanese we are afforded a unique view of the development and diversity of these communities. The papers provide a penetrative analysis of the related issues by discussing tombs connected with sites ranging in size from palaces to towns to villages and in date from the start to the end of the Late Bronze Age. This book contextualizes the mortuary studies in recent debates on diversity at the main palatial and secondary sites and between the economic and political strategies and practices

throughout Greece. The papers in the volume illustrate the pervasive connection between the mortuary sphere and society through the creation and expression of cultural narratives, and draw attention to the social tensions played out in the mortuary arena"--

The Black Death and Later Plague Epidemics in the Scandinavian Countries: Ole Jørgen Benedictow 2016-12-19 This monograph represents an expansion and deepening of previous works by Ole J. Benedictow - the author of highly esteemed monographs and articles on the history of plague epidemics and historical demography. In the form of a collection of articles, the author presents an in-depth monographic study on the history of plague epidemics in Scandinavian countries and on controversies of the microbiological and epidemiological fundamentals of plague epidemics.

police contact in England and Wales in the twenty-first century. It examines how regulatory bodies construct accountability in such cases. Cases of death after police contact have the potential to cause deep unease in society. They highlight the unique role of the police in being legitimately able to use force whilst at the same time being expected to preserve life. People who are from Black, or Minority Ethnic backgrounds, or have mental health issues, or are dependent on substances are disproportionately more likely to die in these cases, and this emphasises the sensitive nature of many of these deaths to society. Deaths after Police Contact examines police legitimacy and the legitimacy of police regulators in these cases. The book argues that accountability is produced by a relatively arbitrary system of regulation that investigates such deaths as individual cases, rather than attempting to learn lessons from annual trends and patterns that might

prevent future deaths. It will be of great interest to scholars and upper-level students of policing and criminal justice.

Death Ritual in Late Imperial and Modern China

Professor James L Watson 1988
During the late imperial era (1500-1911), China, though divided by ethnic, linguistic, and regional differences at least as great as those prevailing in Europe, enjoyed a remarkable solidarity. What held Chinese society together for so many centuries? Some scholars have pointed to the institutional control over the written word as instrumental in promoting cultural homogenization; others, the manipulation of the performing arts. This volume, comprised of essays by both anthropologists and historians, furthers this important discussion by examining the role of death rituals in the unification of Chinese culture.

The Death Penalty in Late-Medieval Catalonia Flocel

Sabaté 2019-09-23 The death penalty was unusual in medieval Europe until the twelfth century. From that moment on, it became a key instrument of rule in European society, and we can study it in the case of Catalonia through its rich and varied unpublished documentation. The death penalty was justified by Roman Law; accepted by Theology and Philosophy for the Common Good; and used by rulers as an instrument for social intimidation. The application of the death penalty followed a regular trial, and the status of the individual dictated the method of execution, reserving the fire for the worst crimes, as the Inquisition applied against the so-called heretics. The executions were public, and the authorities and the people shared the common goal of restoring the will of God which had been broken by the executed person. The death penalty took an important place in the core of the medieval mind: people included executions in the jokes and popular narratives while the

This book utilises previously unpublished archival sources to present a unique study on the death penalty in late Medieval Europe.

The Dance of Death in Late Medieval and Renaissance Europe Andrea Kiss

2019-11-26 This volume investigates environmental and political crises that occurred in Europe during the late Middle Ages and the early Modern Period, and considers their effects on people's lives. At this time, the fragile human existence was imagined as a 'Dance of Death', where anyone, regardless of social status or age, could perish unexpectedly. This book covers events ranging from cooling temperatures and the onset of the Little Ice Age, to the frequent occurrence of epidemic disease, pest infestations, food shortages and famines. Covering the mid-fourteenth to mid-seventeenth centuries, this collection of essays considers a range of countries between Iceland (to

the north), Italy (to the south), France (to the west) and the westernmost parts of Russia (to the east). This wide-reaching volume considers how deeply climate variability and changes affected and changed society in the late medieval to early modern period, and asks what factors, other than climate, interfered in the development of environmental stress and socio-economic crises. This book will be of great interest to students and scholars of Environmental and Climate History, Environmental Humanities, Medieval and Early Modern History and Historical Geography, as well as Climate Change and Environmental Sciences.

Some Deaths Before Dying

Peter Dickinson 2009-05-30

The New York Times Book Review calls multiple-award winner Peter Dickinson "a stylist of subtle brilliance".

Always surprising and incisive, the author of *The Yellow Room Conspiracy* and dozens of other unique novels returns with his first new book in five years; and proves again that in his

masterful hands, powerful drama and devastating secrets can be found at the heart of even the smallest mysteries. For nearly her whole life, through most of the twentieth century, Rachel Matson saw the world through the lens of a camera, and produced stunning photographs that not only captured the moment but hinted at a greater truth. Now the ninety-year-old widow lies paralyzed, in the final stages of a debilitating illness. Yet while Rachel's body may be useless, her spirit remains indomitable, her mind razor sharp, and her eye, the trained eye of an artist, still picks up the most telling details. Together with her vast collection of photographs, these gifts are about to help her meet an extraordinary challenge, as she confronts a shattering mystery that harkens back over the decades... On a television program that showcases heirlooms, an antique pistol that belonged to her late husband, Colonel Jocelyn Matson, turns up, leaving Rachel bewildered and then

profoundly disturbed. How could the prized Ladurie -- one of a matched pair of dueling pistols she had given to him to commemorate his return from the horrors of a Japanese POW camp -- appear hundreds of miles away in the possession of a stranger? Determined to learn the fate of Jocelyn's gun, Rachel falls back on the one thing left to her -- her intellect -- and soon begins the painful process of teasing the past from the shadows.

What emerges from the vivid shards of her memories is a mesmerizing tale of honor, passion, and betrayal that stretches from colonial India to modern-day England ...a tale of a loving marriage interrupted by war, of a once-proud reg

Several Deaths Later Ed Gorman 2016-09-17 The popular game show "Celebrity Circle" is something of a graveyard for show-biz mediocrities, so Tobin, the five-foot-five movie critic with the fiery hair and the equally fiery temper, is less than thrilled to accept a guest stint as the show films a week's worth of broadcasts aboard an ocean liner. But Tobin's career has hit the skids since he solved his TV partner's murder (Murder on the Aisle); money is money, and besides, he gets a free cruise in the bargain. But someone on board has more in mind than fabulous prizes, and Ken Norris, the smarmy emcee of "Celebrity Circle," turns up with a knife in his back. The Captain blames Cindy McBain, the young secretary from Kansas City in whose room the victim's body was discovered. Although Tobin finds her wearing nothing but a robe covered in Norris' blood, he
