Kentucky Confederates Berry Craig 2014-10-03 During the Civil War, the majority of Kentuckians supported the Union under the leadership of Henry Clay, but one part of the state presented a striking exception. The Jackson Purchase—bounded by the Mississippi River to the west, the Ohio River to the north, and the Tennessee River to the east—fought hard for separation and secession, and produced eight times more Confederates than Union soldiers. Supporting states' rights and slavery, these eight counties in the westernmost part of the commonwealth were so pro-Confederate that the Purchase was dubbed "the South Carolina of Kentucky." The first dedicated study of this key region, *Kentucky Confederates* provides valuable insights into a misunderstood and understudied part of Civil War history. Author Berry Craig begins by exploring the development of the Purchase from 1818, when Andrew Jackson and Isaac Shelby acquired it from the Chickasaw tribe. Geographically isolated from the rest of the Bluegrass State, the area's early settlers came from the South, and rail and river trade linked the region to Memphis and western Tennessee rather than to points north and east. Craig draws from an impressive array of primary documents, including newspapers, letters, and diaries, to reveal the regional and national impact this unique territory had on the nation's greatest conflict. Offering an important new perspective on this rebellious borderland and its failed bid for secession, *Kentucky Confederates* will serve as the standard text on the subject for years to come.

The Washington Information Directory (WID) is a topically organized reference resource that lists contact information for federal agencies and nongovernmental organizations in the Washington metro area along with a brief paragraph describing what each organization does related to that topic. In addition, The Washington Information Directory pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in

Washington), and an extensive list of active congressional caucuses and contact details.

The Sutter Family and the Origins of Gold-Rush Sacramento John Augustus Sutter 2002 John A. Sutter (1803-1880) could have become one of the richest men in California when gold was found on his property. Instead he lost his vast land holdings on the Sacramento and Feather Rivers and eventually left California penniless. Sutter always claimed to be the victim of charlatans, but he bore considerable responsibility for his downfall. He had amassed huge debts before the gold discovery and added even more afterward. In the rough dealings of frontier capitalism in gold rush California, Sutter was easy prey. Soon after the gold discovery, Sutter's eldest son, John Jr., (1826-1897) arrived, but soon moved south to Mexico. Hoping to obtain compensation for the land that he and his father had lost, John, Jr., returned to California in 1855 to give his lawyer a thorough statement cataloging how both Sutters were swindled. This extensive document describes the dirty deals of the first great gold rush in the western United States. Sutter's statement has not been available for sixty years. Editor Allan R. Ottley reproduced and annotated this statement, providing a full biographical context and offering an appendix, bibliography, and index. Albert L. Hurtado's introduction updates the book, originally published in 1942.
