*Blood, Milk, Ink, Gold* Rebecca Zorach 2005 Most people would be hard pressed to name a famous artist from Renaissance France. Yet sixteenth-century French kings believed they were the heirs of imperial Rome and commissioned a magnificent array of visual arts to secure their hopes of political ascendancy with images of overflowing abundance. With a wide-ranging yet richly detailed interdisciplinary approach, Rebecca Zorach examines the visual culture of the French Renaissance, where depictions of sacrifice, luxury, fertility, violence, metamorphosis, and sexual excess are central. Zorach looks at the cultural, political, and individual roles that played out in these artistic themes and how, eventually, these aesthetics of exuberant abundance disintegrated amidst perceptions of decadent excess. Throughout the book, abundance and excess flow in liquids-blood, milk, ink, and gold-that highlight the materiality of objects and the human body, and explore the value (and values) accorded to them. The arts of the lavish royal court at Fontainebleau and in urban centers are here explored in a vibrant tableau that illuminates our own contemporary relationship to excess and desire. From marvelous works by Francois Clouet to oversexed ornamental prints to Benvenuto Cellini's golden saltcellar fashioned for Francis I, *Blood, Milk, Ink, Gold* covers an astounding range of subjects with precision and panache, producing the most lucid, well-rounded portrait of the cultural politics of the French Renaissance to date.

**Hot Sour Salty Sweet** Jeffrey Alford 2000-10-07 Luminous at dawn and dusk, the Mekong is a river road, a vibrant artery that defines a vast and fascinating region. Here, along the world's tenth largest river, which rises in Tibet and joins the sea in Vietnam, traditions mingle and

exquisite food prevails. Award-winning authors Jeffrey Alford and Naomi Duguid followed the river south, as it flows through the mountain gorges of southern China, to Burma and into Laos and Thailand. For a while the right bank of the river is in Thailand, but then it becomes solely Lao on its way to Cambodia. Only after three thousand miles does it finally enter Vietnam and then the South China Sea. It was during their travels that Alford and Duguid—who ate traditional foods in villages and small towns and learned techniques and ingredients from cooks and market vendors—came to realize that the local cuisines, like those of the Mediterranean, share a distinctive culinary approach: Each cuisine balances, with grace and style, the regional flavor quartet of hot, sour, salty, and sweet. This book, aptly titled, is the result of their journeys. Like Alford and Duguid's two previous works, *Flatbreads and Flavors* ("a certifiable publishing event" —*Vogue*) and *Seductions of Rice* ("simply stunning"—*The New York Times*), this book is a glorious combination of travel and taste, presenting enticing recipes in "an odyssey rich in travel anecdote" (*National Geographic Traveler*). The book's more than 175 recipes for spicy salsas, welcoming soups, grilled meat salads, and exotic desserts are accompanied by evocative stories about places and people. The recipes and stories are gorgeously illustrated throughout with more than 150 full-color food and travel photographs. In each chapter, from Salsas to Street Foods, Noodles to Desserts, dishes from different cuisines within the region appear side by side: A hearty Lao chicken soup is next to a Vietnamese ginger-chicken soup; a Thai vegetable stir-fry comes after spicy stir-fried potatoes from southwest China. The book invites a flexible approach to cooking and eating, for dishes from different places can be happily served and eaten together: Thai Grilled Chicken with Hot and Sweet Dipping Sauce pairs beautifully with Vietnamese Green Papaya Salad and Lao sticky rice. North Americans have come to love Southeast Asian food for its bright, fresh flavors. But beyond the dishes themselves, one of the most attractive aspects of Southeast Asian food is the life that surrounds it. In Southeast Asia, people eat for joy. The palate is wildly eclectic, proudly unrestrained. In Hot, Sour, Salty, Sweet, at last this great culinary region is celebrated with all the passion, color, and life that it deserves.

**The California Gold Rush** Mark A. Eifler 2016-07-22 In January of 1848, James Marshall discovered gold at Sutter's Mill in the foothills of the Sierra Nevada. For a year afterward, news of this discovery spread outward from California and started a mass migration to the gold fields. Thousands of people from the East Coast aspiring to start new lives in California financed their journey West on the assumption that they would

be able to find wealth. Some were successful, many were not, but they all permanently changed the face of the American West. In this text, Mark Eifler examines the experiences of the miners, demonstrates how the gold rush affected the United States, and traces the development of California and the American West in the second half of the nineteenth century. This migration dramatically shifted transportation systems in the US, led to a more powerful federal role in the West, and brought about mining regulation that lasted well into the twentieth century. Primary sources from the era and web materials help readers comprehend what it was like for these nineteenth-century Americans who gambled everything on the pursuit of gold.
