*United States Code: Title 26: Internal Revenue Code, [sections] 1-436*  
2013 Preface 2012 edition: The United States Code is the official codification of the general and permanent laws of the United States. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First session, enacted between January 3, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office. -- John. A. Boehner, Speaker of the House of Representatives, Washington, D.C., January 15, 2013--Page VII.

#### Legislative Synopsis and Digest

Illinois. General Assembly 1917

The Constitution of Victoria Greg Taylor 2006 "[T]his work is comprehensive in its treatment of all aspects of Victorian constitutional law whether they be historical, jurisprudential or practical. Occasionally the author offers his own views upon the direction which the law has taken or should take, but in a manner which adds freshness to the text or adds interest for the reader. This is a legal text-book and is bound to be a standard text for many years to come. There is no other comprehensive work which covers Victorian constitutional law. But it is digestible in a way that many other text-books are not. It will provide a wealth of understanding and insight to teachers, students, practitioners, public servants, members of Parliament and others for whom an understanding of the Victorian Constitution is of interest and, often, necessity. It is not only the courts which are concerned with constitutional law. This work has a practical application in many other areas and for many who are not lawyers. It will provide practical guidance where that is possible and, where it is not, will provide a scholarly foundation upon which to build the correct answer." Sir Daryl Dawson, from The Foreword - full text below (see Extracts) This is the standard reference work on the Constitution of Victoria. Since the election of the Bracks government and its gaining a majority in both Houses of Parliament, the Victorian Constitution has undergone far-reaching change, making it markedly different from other Australian State Constitutions in a number of respects. This work analyses and comments on the new and old provisions of the Victorian Constitution and is essential for understanding the effect of the changes, some of which are of doubtful validity.
