2001-06 West Texas is a white hot cauldron boiling over with a lust for money and power. Trapped in the flames of passion searing the Permian Basin, KPER television news reporters Erin McCartney and Sean Ryan battle to survive while exposing the drug smuggling, political corruption and sinful scandals rocking the city of Midessa, Texas. They are caught in a deadly crossfire between the crime and the corruption and their news director Scott Sangsue who demands total obedience and unquestioning loyalty. Just how far will the men and women of KPER-TV go to save their jobs and satisfy Sangsue's hunger to be number one? How much are they willing to sacrifice—their lives, their morals, their principles? When rookie television journalist Sean Ryan enters KPER-TV, he is swallowed by the cut-throat competition of television news. Suddenly, everything he knows and believes is being challenged by a world turned upside down. Will he succumb to the sexual temptations of Amer Chienne and Celeste? Will he be killed by the criminals or the cops in their drug war? Will he abandon his journalistic principles to save his job? In the end is he any better than Sangsue?

Insurrection David Weber 1993-03-01 Give Me

Liberty or Give Me Death In the end, the only political systems that seem to work are those based on freedom. The Inner World leaders of the Terran Federation seem to have forgotten

this simple truth. After fighting the Khanate<sup>3/4</sup> with the Fringe Worlds to supply the raw material and the fighting men<sup>3/4</sup> the Inner Worlds found it hard to give up the powers they had seized during the war. So they decided not to<sup>3/4</sup> rather than allow the rapidly expanding Fringe Worlds representation in the Federation, they are inviting the Khanate in, to keep the colonial upstarts in their place. The Fringers have only one answer to that: INSURRECTION At the publisher's request, this title is sold without DRM (Digital Rights Management). *Science Fiction & Fantasy Book Review Annual* 1989

**The Routledge Introduction to Canadian Fantastic Literature** Allan Weiss 2020-12-29

This study introduces the history, themes, and critical responses to Canadian fantastic literature. Taking a chronological approach, this volume covers the main periods of Canadian science fiction and fantasy from the early nineteenth century to the first decades of the twenty-first century. The book examines both the texts and the contexts of Canadian writing in the fantastic, analyzing themes and techniques in novels and short stories, and looking at both national and international contexts of the literature's history. This introduction will offer a coherent narrative of Canadian fantastic literature through analysis of the major texts and authors in the field and through relating the authors' work to the world around them.

*The Canadian Encyclopedia* James H. Marsh 1999 This edition of "The Canadian Encyclopedia is the largest, most comprehensive book ever published in Canada for the general reader. It is COMPLETE: every aspect of Canada, from its rock formations to its rock bands, is represented here. It is UNABRIDGED: all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume. It has been EXPANDED: since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones; as a result, the text from 1988 has grown by 50% to over 4,000,000 words. It has been UPDATED: the researchers and contributors worked hard to make the information as current as possible. Other words apply to this extraordinary work of scholarship: AUTHORITATIVE, RELIABLE and READABLE. Every entry is compiled by an expert. Equally important, every entry is written for a Canadian reader, from the Canadian point of view. The finished work - many years in the making, and the equivalent of forty average-sized books - is an extraordinary storehouse of information about our country. This book deserves pride of place on the bookshelf in every Canadian Home. It is no accident that the cover of this book is based on the Canadian flag. For the proud truth is that this volume represents a great national achievement. From its formal inception in 1979, this encyclopedia has always represented a vote of faith in Canada; in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated. At the start of a

new century and a new millennium, in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations, this "Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future. The statistics behind this volume are staggering. The opening sixty pages list the 250 Consultants, the roughly 4,000 Contributors (all experts in the field they describe) and the scores of researchers, editors, typesetters, proofreaders and others who contributed their skills to this massive project. The 2,640 pages incorporate over 10,000 articles and over 4,000,000 words, making it the largest - some might say the greatest - Canadian book ever published. There are, of course, many special features. These include a map of Canada, a special page comparing the key statistics of the 23 major Canadian cities, maps of our cities, a variety of tables and photographs, and finely detailed illustrations of our wildlife, not to mention the colourful, informative endpapers. But above all the book is "encyclopedic" - which the "Canadian Oxford Dictionary describes as "embracing all branches of learning." This means that (with rare exceptions) there is satisfaction for the reader who seeks information on any Canadian subject. From the first entry "A mari usque ad mare - "from sea to sea" (which is Canada's motto, and a good description of this volume's range) to the "Zouaves (who mustered in Quebec to fight for the beleaguered Papacy) there is the required summary of information, clearly and accurately presented. For the browser the constant variety of entries and the lure of regular cross-references will provide hours of fascination. The word "encyclopedia" derives from Greek expressions alluding to a grand "circle of knowledge." Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known. Yet now Canada's finest scientists, academics and specialists have distilled their knowledge of our country between the covers of one volume. The result is a book for every Canadian who values learning, and values Canada.

The Forged #1 Greg Rucka 2023-03-15 SERIES PREMIERE In the 11th Millennium of the rule of the Eternal Empress, a squad of planet-smashing super soldiers find their routine mission to be anything but. These are the Forged. They take

no prisoners. Written by GREG RUCKA & ERIC TRAUTMANN and brought to the page by MIKE HENDERSON, embark upon an over-the-top pulp adventure of sex, violence, and sci-fi inspired by Conan, Heavy Metal, and other comics you tried to hide from your parents.

**Mark** Robert H. Gundry 2000-05 This monumental work presents a careful, well-argued alternative reading of the Greek text of Mark—a reading that pays special attention to such literary devices as word order, chiasm, inclusio, asyndeton, and the historical present tense. Driving the commentary is Gundry's provocative, seldom-defended thesis that Mark's Gospel constitutes a straightforward apology for the shameful manner of Jesus' death; as such Mark is essentially an evangelistic tract rather than an obliquely written handbook of Christian discipleship and church life. "Sure to become recognized as the heavyweight English commentary on the Gospel of Mark.... This massive commentary, rich with exegetical detail and critical assessment of the secondary literature, makes an important contribution not only to Markan research but also to the study of the historical Jesus." - Christian Scholars Review

**Tree of Souls** Howard Schwartz 2006-12-27 From tales of Adam, Moses, and other biblical figures, to the fall of Lucifer and the quarrel of the sun and moon, an anthology of Jewish myth presents seven hundred key stories and through extensive commentary places them in context with the literature of the world.
