

Saddled Cow East Germanys Life And Legacy

Embracing the Melody of Expression: An Mental Symphony
within **Saddled Cow East Germanys Life And Legacy**

In some sort of taken by screens and the ceaseless chatter of immediate conversation, the melodic elegance and psychological symphony developed by the published word frequently fade into the background, eclipsed by the constant noise and disturbances that permeate our lives. However, set within the pages of **Saddled Cow East Germanys Life And Legacy** a marvelous literary treasure overflowing with organic feelings, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that captivating masterpiece conducts visitors on a psychological trip, skillfully unraveling the concealed songs and profound influence resonating within each cautiously crafted phrase. Within the depths of this touching review, we shall investigate the book is central harmonies, analyze their enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.

Ibss: Political Science: 1992

British Library of Political and Economic Science 1993 The IBSS is the essential tool for librarians, university departments, research institutions and any public or

private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences.

Repainting the Little Red Schoolhouse John Rodden

2002 This is the first English-language study of GDR

education and the first book, in any language, to trace the history of Eastern German education from 1945 through the 1990s. Rodden fully relates the GDR's attempt to create a new Marxist nation by means of educational reform, and looks not only at the changing institution of education but at something the Germans call Bildung--the formation of character and the cultivation of body and spirit. The sociology of nation-building is also addressed.

The Conditions, Means and Methods of the MfS in the GDR Nessim Ghouas 2004
Protestants in Communist East Germany Wendy R.

Tyndale 2016-04-15 This is the story of how the Protestants in the GDR struggled to survive while striving to put their theology into practice and remaining true to their vision of what the role of the church should be - a 'church for others' as Dietrich Bonhoeffer put it. Having taken the reader from the foundation of the GDR, through the peaceful revolution, to the unification of

Germany, the story ends with some reflections on the church's past as well as on the challenges it faces in present-day Europe. Protestants in Communist East Germany makes a unique contribution to existing literature by drawing not only on written sources but on a series of first-hand interviews with theologians, pastors and lay people of different ages whose experiences, views and analyses bring the story to life. The East German church's relationship to the state will probably always remain controversial and the vision for a different socialism in the GDR espoused by those involved in the peaceful revolution may now be considered illusory. Nevertheless, many of the issues raised by the Protestants in the GDR remain as vital challenges to the churches in Europe today. Foreword by Paul Oestreicher.

The 1989 Revolutions in Central and Eastern Europe

Kevin McDermott 2015-11-01

This important book reassesses

a defining historical, political and ideological moment in contemporary history: the 1989 revolutions in central and eastern Europe. Adopting a multi-disciplinary approach, the authors reconsider such crucial themes as the broader historical significance of the 1989 events, the complex interaction between external and internal factors in the origins and outcomes of the revolutions, the impact of the 'Gorbachev phenomenon', the West and the end of the Cold War, the political and socio-economic determinants of the revolutionary processes in Poland, Hungary, the German Democratic Republic, Czechoslovakia, Romania and Bulgaria, and the competing academic, cultural and ideological perceptions of the year 1989 as communism gave way to post-communist pluralism in the 1990s and beyond. Concluding that the contentious term 'revolution' is indeed apt for the momentous developments in eastern Europe in 1989, this book will be essential reading for

undergraduates, postgraduates and specialists alike.

Encyclopedia of the Cold

War Ruud van Dijk 2013-05-13

Between 1945 and 1991, tension between the USA, its allies, and a group of nations led by the USSR, dominated world politics. This period was called the Cold War - a conflict that stopped short to a full-blown war. Benefiting from the recent research of newly open archives, the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose, developed, and was resolved. This work examines the military, economic, diplomatic, and political evolution of the conflict as well as its impact on the different regions and cultures of the world. Using a unique geopolitical approach that will present Russian perspectives and others, the work covers all aspects of the Cold War, from communism to nuclear escalation and from UFOs to red diaper babies, highlighting its vast-ranging and lasting impact on international relations as well as on daily

life. Although the work will focus on the 1945-1991 period, it will explore the roots of the conflict, starting with the formation of the Soviet state, and its legacy to the present day.

Born in the GDR Hester Vaizey 2016 The real life stories of eight East Germans caught up in the dramatic transition from Communism to Capitalism by the fall of the Berlin Wall - and what they feel about life after the Wall.

The Saddled Cow Anne McElvoy 1992 As The Times correspondent in East Berlin, the author of this book witnessed the collapse of the communist state and the unification of Germany. In this book, she explores Germany's history, drawing on exclusive interviews with spies, politicians and dissidents.

Longman Companion to Germany Since 1945 Adrian Webb 2014-09-09 This new Companion provides a wealth of information on the history of Germany since the Second World War including much material which is not readily

available. Throughout, equal attention is devoted to East and West Germany and covers political, social, cultural, and economic developments. The author provides information on, for example, political parties and office-holders; living standards, crime and the environment; Germany's relationship with the European Union; and East Germany up to 1990. Attention is also devoted to topical issues such as opposition and dissent in the East, terrorism, neo-nazism and racial violence. An essential reference book for anyone studying, or teaching, postwar Germany in history or politics departments.

The East German Leadership, 1946-73 Peter Grieder 1999 Based on primary source material from archives in Berlin and on interviews with former communist party functionaries, this study of the East German leadership is aimed at students of German history and politics at undergraduate and postgraduate level.

History of Military Occupation

from 1792 to 1914 Peter M. R Stirk 2016-02-28 An

understanding of military occupation as a distinct phenomenon first emerged in the 18th century. This book shows how this understanding developed and the problems that the occupiers, the occupied, commentators and the courts encountered.

Dealing with the Devil M. E. Sarotte 2003-04-03 Using new archival sources--including previously secret documents of the East German secret police and Communist Party--M. E. Sarotte goes behind the scenes of Cold War Germany during the era of detente, as East and West tried negotiation instead of confrontation to settle their differences. In *Dealing with the Devil*, she explores the motives of the German Democratic Republic and its Soviet backers in responding to both the detente initiatives, or Ostpolitik, of West Germany and the foreign policy of the United States under President Nixon. Sarotte focuses on both public and secret contacts between the two halves of the

German nation during Brandt's chancellorship, exposing the cynical artifices constructed by negotiators on both sides. Her analysis also details much of the superpower maneuvering in the era of detente, since German concerns were ever present in the minds of leaders in Washington and Moscow, and reveals the startling degree to which concern over China shaped European politics during this time. More generally, *Dealing with the Devil* presents an illuminating case study of how the relationship between center and periphery functioned in the Cold War Soviet empire.

The Official Concept of the Nation in the Former GDR Joanna McKay 2019-01-04 First published in 1998, this volume joined the effort to understand the former German Democratic Republic, with the aim of reaching a better understanding of the psychologically painful process of German reunification following the collapse of East-German communism in 1989. While born illegitimate and

artificial, the country determined the lives of millions of people, despite having now disappeared from the map. This study from Joanna McKay incorporates previously unavailable archive material and focuses on some of the most challenging, ever-present tasks for the GDR leaders. In particular, she examines how they approached explaining the division with West Germany without undermining the legitimacy of the GDR.

Uniting Germany Pekka Kalevi Hamalainen 2019-03-18
This is an account of the dramatic events leading to the reunification of Germany. The author looks into the complex intertwining of popular action, national politics and international moves that culminated in the historic events of 1989. After providing a brief historical background, the author analyzes the sequence of events in East Germany, the interplay between East German discontent and Bonn's policies, and Chancellor Kohl's role in mobilizing domestic and

international support for reunification. Paying special attention to the attitudes and actions of other powers, particularly Russia, the author provides a detailed look at the decisive negotiations with Gorbachev that cleared the way for German reunification. The book combines action on the streets with cabinet politics and the challenge of balancing domestic priorities with international concerns.

Composing the Party Line

David G. Tompkins 2013-10-15
This book examines the exercise of power in the Stalinist music world as well as the ways in which composers and ordinary people responded to it. It presents a comparative inquiry into the relationship between music and politics in the German Democratic Republic and Poland from the aftermath of World War II through Stalin's death in 1953, concluding with the slow process of de-Stalinization in the mid-to late-1950s. The author explores how the Communist parties in both countries expressed their

attitudes to music of all kinds, and how composers, performers, and audiences cooperated with, resisted, and negotiated these suggestions and demands. Based on a deep analysis of the archival and contemporary published sources on state, party, and professional organizations concerned with musical life, Tompkins argues that music, as a significant part of cultural production in these countries, played a key role in instituting and maintaining the regimes of East Central Europe. As part of the Stalinist project to create and control a new socialist identity at the personal as well as collective level, the ruling parties in East Germany and Poland sought to saturate public space through the production of music. Politically effective ideas and symbols were introduced that furthered their attempts to, in the parlance of the day, "engineer the human soul." Music also helped the Communist parties establish legitimacy. Extensive state support for musical life encouraged musical elites and

audiences to accept the dominant position and political missions of these regimes. Party leaders invested considerable resources in the attempt to create an authorized musical language that would secure and maintain hegemony over the cultural and wider social worlds. The responses of composers and audiences ran the gamut from enthusiasm to suspicion, but indifference was not an option.

Recasting East Germany

Chris Flockton 2012-11-12 The transformation of east Germany since unification has wrought vast changes in the economy and in society and left deep scars as the types of social protection offered by the centralised socialism of the previous regime gave way to uncertainties and individualised life chances. Social Transformation in Eastern Germany investigates the deep economic and social processes which east Germany has undergone, highlighting the restructuring, the social impacts and the stresses of adjustment experienced by key

social groups whose workplace and social context has been recast almost out of recognition since 1990.

The Stasi Mike Dennis
2014-07-30 The East German Ministry of State Security, popularly known as the Stasi, was one of the largest and most intrusive secret police systems in world history. So extensive was the system of surveillance and control that in any given year throughout the 1970s and 1980s, about one in fifty of the 13 million East German adults were working for the Stasi either as an officer or as an informer. Drawing on original sources from the Stasi archives and the recollections of contemporary witnesses, *The Stasi: Myth and Reality* reveals the intricacies of the relationship between the Stasi enforcers, its agents and its targets/victims, and demonstrates how far the Stasi octopus extended its tentacles into people's lives and all spheres of society. The origins and developments of this vast system of repression are examined, as well as the

motivation of the informers and the ways in which they penetrated the niches of East German society. The final chapters assess the ministry's failure to help overcome the GDR's inherent structural defects and demonstrate how the Stasi's bureaucratic procedures contributed to the implosion of the Communist system at the end of the 1980's.

Bending Spines Randall L. Bytwerk 2012-01-01 Why do totalitarian propaganda such as those created in Nazi Germany and the former German Democratic Republic initially succeed, and why do they ultimately fail? Outside observers often make two serious mistakes when they interpret the propaganda of this time. First, they assume the propaganda worked largely because they were supported by a police state, that people cheered Hitler and Honecker because they feared the consequences of not doing so. Second, they assume that propaganda really succeeded in persuading most of the

*Downloaded from
blog.solneelman.com on

citizenry that the Nuremberg rallies were a reflection of how most Germans thought, or that most East Germans were convinced Marxist-Leninists. Subsequently, World War II Allies feared that rooting out Nazism would be a very difficult task. No leading scholar or politician in the West expected East Germany to collapse nearly as rapidly as it did. Effective propaganda depends on a full range of persuasive methods, from the gentlest suggestion to overt violence, which the dictatorships of the twentieth century understood well. In many ways, modern totalitarian movements present worldviews that are religious in nature. Nazism and Marxism-Leninism presented themselves as explanations for all of life—culture, morality, science, history, and recreation. They provided people with reasons for accepting the status quo. *Bending Spines* examines the full range of persuasive techniques used by Nazi Germany and the German Democratic Republic, and

concludes that both systems failed in part because they expected more of their propaganda than it was able to deliver.

Material Fantasies Milena Veenis 2012 "This study of East German fantasies of material abundance across the border, both before and after the fall of communism, shows the close and intricate relation between ideology and fantasy in upholding social life. In 1989, news broadcasts all over the world were dominated for weeks by images of East Germans crossing the Berlin Wall to West Germany. The images, representing the fall of communism and the democratic will of the people, also showed East Germans' excitement at finally being able to enter the western consumer paradise. But what exactly had they expected to find on the other side of the Wall? Why did they shed tears of joy when for the first time in their lives, they stepped inside West German shops? And why were they prepared to pay more than 10 percent of their average

monthly wage for a pineapple? Drawing on fifteen months of research in the fast-changing post-communist East Germany, Veenis unravels the perennial truths about the interrelationships of fantasies of material wealth, personal fulfillment and social cohesion. She argues persuasively that the far-fetched socialist and capitalist promises of consumption as the road to ultimate well-being, the partial realization and partial corruption thereof, the implicit social and psychological interests underlying the politicized promises in both countries form the breeding ground for the development of materialist, cargo-cult-like fantasies, in which material well-being came to be seen as the place of "fulfillment and ultimate arrival". --Publisher's website.

Checkpoint Charlie Iain MacGregor 2020-11-10 A "constantly captivating...well-researched and often moving" (The Wall Street Journal) history of Checkpoint Charlie, the famous military gate on the

border of East and West Berlin where the United States confronted the USSR during the Cold War. In the early 1960s, East Germany committed a billion dollars to the creation of the Berlin Wall, an eleven-foot-high barrier that consisted of seventy-nine miles of fencing, 300 watchtowers, 250 guard dog runs, twenty bunkers, and was operated around the clock by guards who shot to kill. Over the next twenty-eight years, at least five thousand people attempt to smash through it, swim across it, tunnel under it, or fly over it. In 1989, the East German leadership buckled in the face of a civil revolt that culminated in half a million East Berliners demanding an end to the ban on free movement. The world's media flocked to capture the moment which, perhaps more than any other, signaled the end of the Cold War.

understand a bit more about the new one” (The Times, London)—the mistrust, oppression, paranoia, and fear that gripped the world throughout this period. Checkpoint Charlie is about the nerve-wracking confrontation between the West and USSR, highlighting such important global figures as Eisenhower, Stalin, JFK, Nikita Khrushchev, Mao Zedung, Nixon, Reagan, and other politicians of the period. He also includes never-before-heard interviews with the men who built and dismantled the Wall; children who crossed it; relatives and friends who lost loved ones trying to escape over it; military policemen and soldiers who guarded the checkpoints; CIA, MI6, and Stasi operatives who oversaw operations across its borders; politicians whose ambitions shaped it; journalists who recorded its story; and many more whose living memories contributed to the full story of Checkpoint Charlie.

The New Germany in the East
Christopher Flockton 2000

Produced with the International Peace Academy in New York, this volume focuses largely on the conflicts of the 1990s and future projects, examining multifacteted issues involved in conflict management, suggesting new approaches and tools for future conflict management.

Music and International History in the Twentieth Century Jessica C. E. Gienow-Hecht 2015-04-01 Bringing together scholars from the fields of musicology and international history, this book investigates the significance of music to foreign relations, and how it affected the interaction of nations since the late 19th century. For more than a century, both state and non-state actors have sought to employ sound and harmony to influence allies and enemies, resolve conflicts, and export their own culture around the world. This book asks how we can understand music as an instrument of power and influence, and how the cultural encounters fostered by music

changes our ideas about international history.

Pop Culture Germany!

Catherine C. Fraser 2006-09-25

From the reality TV show Superstar to Formula One ace Michael Schumacher, *Pop Culture Germany!* explores the exciting world of contemporary German popular culture. Like no other volume of its kind, *Pop Culture Germany!* captures the breadth and vitality of popular culture in modern Germany, exploring both familiar and lesser-known aspects of German art, entertainment, television, music, and film. Written by expert contributors who are rooted in German language and culture, the book focuses on German popular culture since 1945, providing an indispensable guide for anyone planning a trip to Germany for business or pleasure or for those who wish to have a deeper understanding of the German nation. This book offers a concise, in-depth overview of the evolution and impact of German media, arts, lifestyles, and recreation,

written with a historical perspective.

The German Democratic Republic Peter Grieder

2012-11-02 A clear, concise and thought-provoking introduction to the history of East Germany which engages critically with key debates and advances new interpretations of the origins, development and demise of the GDR. Peter Grieder also offers an original conceptualization of the GDR as a totalitarian welfare state.

White Eagle, Black Eagle

Robert Parkin 2023-06-09

Studying the German-Polish ethnic relations, this book analyses the people and region through their respective borderlands, migration, official cooperation and unofficial suspicions across the border.

The main conclusion is that, while officialdom is generally keen to develop cross-border ties, which ordinary people do take advantage of, these tend to be much more sceptical of the potential impact to their lives in what remains an economically depressed area despite cross-border

cooperation having been possible for several decades. *Germany 1989* Lothar Kettenacker 2014-01-14 In autumn 1989 the world watched transfixed as East German citizens, demonstrating under the banner 'We are the people!', staged the only successful, totally peaceful revolution in German history. By October 1990, the process of reunification was formally concluded, bringing together a nation that had been divided for almost four decades. Now, nearly twenty years later, it is possible to judge the causes and consequences of the revolution more clearly. Was the fall of the Berlin Wall an unexpected fluke, or was it, in fact, the result of a long process of engagement between East and West? And did the momentous events of 1989 really signal the start of a bright new future for a united Germany? In this probing and wide-ranging account, Lothar Kettenacker considers the background behind the division of Germany and explains how

the Berlin Wall and its death trap border proved to be the most horrendous manifestation of East-West antagonism. He also looks beyond 1990 to show how the confusion caused by the sudden collapse of the GDR and the fusion of two radically different economies is proving to be a challenge that will preoccupy Germany for generations to come.

1989 Mary Elise Sarotte 2014-10-19 How the political events of 1989 shaped Europe after the Cold War 1989 explores the momentous events following the fall of the Berlin Wall and the effects they have had on our world ever since. Based on documents, interviews, and television broadcasts from Washington, London, Paris, Bonn, Berlin, Warsaw, Moscow, and a dozen other locations, 1989 describes how Germany unified, NATO expansion began, and Russia got left on the periphery of the new Europe. This updated edition contains a new afterword with the most recent evidence on the 1990 origins of NATO's post-Cold War

expansion.

Communist Pigs Thomas Fleischman 2020-06-30 The pig played a key role in the German Democratic Republic's attempts to create a modern, industrial food system built on communist principles. By the mid-1980s, East Germany produced more pork per capita than West Germany and the UK, while also suffering the unintended consequences of manure pollution, animal disease, and rolling food shortages. The pig is a highly adaptive animal, and Thomas Fleischman uncovers three types of pig that played roles in this history: the industrial pig, remade to suit the conditions of factory farming; the wild boar, whose overpopulation was a side effect of agricultural development; and the garden pig, reflective of the regime's growing acceptance of private farming within the planned economy. Fleischman chronicles East Germany's journey from family farms to factory farms, explaining how communist principles shaped the adoption of industrial

agriculture practices. More broadly, Fleischman argues that agriculture under communism came to reflect the practices of capitalist agriculture, and that the pork industry provides a clear illustration of this convergence. His analysis sheds light on the causes of the country's environmental and political collapse in 1989 and offers a warning about the high cost of cheap food in the present and future. *Communist Pigs* was a finalist for the Turku Book Award, European Society for Environmental History. [On Germany](#) Giles MacDonogh 2018 Includes bibliographical references and index. [The Military-Industrial Complex and American Society](#) S. Mike Pavelec 2010-01-18 The first complete reference on the military-industrial complex, from its Cold War era expansion to the present. *The Military-Industrial Complex and American Society* addresses the broad subject of the political economy of defense research and its wide-reaching effects on many

aspects of American life. Ranging from the massive arms buildup of the Cold War to the influx of private contractors and corporations such as Halliburton, it reveals the interconnectedness of the military, industry, and government within the history of this public/private enterprise. *The Military-Industrial Complex and American Society* offers over 100 alphabetically organized entries on a wide range of significant research bodies and government agencies, as well as important people, events, and technologies. In addition, a series of essays looks at such essential topics as propaganda, think tanks, defense budgeting, the defense industry and the economy, and the breakdown of the military-industrial complex in Vietnam. With this work, students, policymakers, and other interested readers will understand the ramifications of the relationships between industry, scientific and technological communities, the government, and society.

Rewriting German History Jan Rüger 2015-10-11 *Rewriting German History* offers striking new insights into key debates about the recent German past. Bringing together cutting-edge research and current discussions, this volume examines developments in the writing of the German past since the Second World War and suggests new directions for scholarship in the twenty-first century.

The Workers' and Peasants' State Patrick Major 2002 *Communist East Germany - officially dubbed the Workers' and Peasants' State* - presented a facade of unity, between factory and farmer, male and female, young and old. The reality behind the rhetoric was, however, far more diverse. This collection of 15 original contributions, by experts in their field with access to recently-opened archives behind the former iron curtain, reveals a complex interaction between communist ideology and post-fascist society. Each essay is self-contained, providing a valuable

introduction to recent debates, followed by original archival case-studies to bring alive the now defunct East Germany in its formative decades.

The Poet's Role Ruth J. Owen 2001 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period. It sets out to investigate, by means of close textual analysis, whether the German 'Wende' was also a turning-point for poetry, exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new, united Germany. An introductory chapter considers what is distinct about poetry as a genre, especially under censorship or amid historic change, as well as outlining the post-unification 'Literaturstreit'. The following chapter offers a survey of the poet's role in the GDR from 1949 until 1989. Two central chapters then gather the poetry of the 'Wende' and

unification as a corpus of work and characterize it, through the elucidation of recurring themes, motifs and techniques. The volume strikes a balance between giving a general overview of poetry written in 1989-1996 and focusing on individual poets whose work is particularly compelling. After identifying broad trends across a wide range of individual poems, collections and anthologies, single chapters therefore examine in greater depth the work of Volker Braun and Durs Grünbein. The concluding chapter addresses the issue of a separate GDR literature. Finally, an extensive, structured bibliography is provided, covering the poetry, literary criticism and cultural history of the period.

Beaten But Not Defeated

Merilyn Moos 2014-10-31 Siegi Moos, an anti-Nazi and active member of the German Communist Party, escaped Germany in 1933 and, exiled in Britain, sought another route to the transformation of capitalism. This biography

*Downloaded from
blog.solneelman.com on
2021-06-27 by guest*

charts Siegi's life, starting in Germany when he witnessed the Bavarian uprisings of 1918/19 and moving to the later rise of the extreme right. We follow his progress in Berlin as a committed Communist and an active anti-Nazi in the well-organised Red Front, before much of the German Communist party (KPD) took the Nazis seriously, and his deep involvement in the Free Thinkers and in agit-prop theatre. The book also describes Siegi's life as an exile: the loss of family, comrades, his first language and ultimately his earlier political beliefs. Against a background of the loneliness of exile, the political and the personal became indissolubly intertwined when Siegi's wife, Lotte, had a relationship with an Irish/Soviet spy. Lastly, we look into Siegi's time as a research worker at the prestigious Oxford Institute of Statistics at Oxford University from 1938, becoming an economic advisor under the Labour Prime Minister, Wilson, 1966-1970, and how, finally,

after retirement, he returned to writing.

Easier Fatherland Steve
Crawshaw 2004-06-14

Germany is the most important and powerful country in Europe. And yet it remains strangely little understood - by itself, as much as by the rest of the world. It is in a state of remarkable flux, confronting the demons of the past, whilst also seeking to make the West and the East into one country - a much greater challenge than it seemed. The coming enlargement of the European Union, which will bring much of formerly communist Eastern Europe into the EU, will make Germany more pivotal than ever. So what makes this country tick? For decades after the Second World War, the country remained strongly polluted by the Nazi legacy; there was little attempt to confront the past. For today's younger generation, by contrast, Nazism was a weird aberration that they themselves have difficulty in understanding. The book will explore those changes, and

*Downloaded from
blog.solneelman.com on

how German society itself is still in the midst of enormous change. The story takes us through three periods: Before the Poison (pre-1933), The Poison (1933-45) and - the heart of the book - the period of Coming to Terms, and the changes that this period has brought to the shape of the country. The coming to terms with the past overlaps, from 1990 onwards, with the East-West story, where mutual misunderstanding has been rife.

The Stasi David Childs
2016-07-27 The Stasi were among the most successful security and intelligence services in the Cold War. Behind the Berlin Wall, colleagues, friends, husbands and wives, informed on each other. Stasi chief, General Mielke, prided himself on this situation. Under Marcus Wolf, Stasi agents were spectacularly successful in gaining entry into the West German Establishment and NATO. Some remain undiscovered. Now, for the first time in English, two British experts

reveal how the Stasi operated. Based on a wealth of sources, including interviews with former Stasi officers and their victims, the book tells a fascinating yet frightening story of unbridled power, misguided idealism, treachery, widespread opportunism and lonely courage.

Going Over Beth Kephart
2014-04-01 It is February 1983, and Berlin is a divided city with a miles-long barricade separating east from west. But the city isn't the only thing that is divided. Ada lives among the rebels, punkers, and immigrants of Kreuzberg in West Berlin. Stefan lives in East Berlin, in a faceless apartment bunker of Friedrichshain. Bound by love and separated by circumstance, their only chance for a life together lies in a high-risk escape. But will Stefan find the courage to leap? Or will forces beyond his control stand in his way? National Book Award finalist Beth Kephart presents a story of daring and sacrifice, and love that will not wait.

Central Europe Since 1945

Paul G. Lewis 2014-01-14

Central Europe - here, Poland, the German Democratic Republic, Czechoslovakia and Hungary - is at the centre of international attention since the Soviet collapse. An understanding of its postwar history is critical to an appreciation of the challenges facing its present rulers. This is an engrossing account of the installation, development, operation and eventual downfall of its (very different) communist regimes, and the transition to the freedoms and uncertainties of the post-Soviet world. The book covers political, economic, social and cultural change, emphasising the crucial relationships with the USSR throughout.

The Last Revolutionaries

Catherine Epstein 2009-06-30

"The Last Revolutionaries" tells a story of unwavering political devotion: it follows the lives of German communists across the tumultuous twentieth century. Before 1945, German communists were political outcasts in the Weimar

Republic and courageous resisters in Nazi Germany; they also suffered Stalin's Great Purges and struggled through emigration in countries hostile to communism. After World War II, they became leaders of East Germany, where they ran a dictatorial regime until they were swept out of power by the people's revolution of 1989. In a compelling collective biography, Catherine Epstein conveys the hopes, fears, dreams, and disappointments of a generation that lived their political commitment. Focusing on eight individuals, "The Last Revolutionaries" shows how political ideology drove people's lives. Some of these communists, including the East German leaders Walter Ulbricht and Erich Honecker, enjoyed great personal success. But others, including the purge victims Franz Dahlem and Karl Schirdewan, experienced devastating losses. And, as the book demonstrates, female and Jewish communists faced their own sets of difficulties in the movement to which they had given their all.

*Downloaded from
blog.solneelman.com on
2021-06-27 by guest*

Drawing on previously inaccessible sources as well as extensive personal interviews, Epstein offers an unparalleled portrait of the most enduring and influential generation of Central European communists. In the service of their party, these communists experienced solidarity and betrayal, power and persecution, sacrifice and reward, triumph and defeat. At once sordid and poignant, theirs is the story of European communism--from the heroic excitement of its youth, to the bureaucratic authoritarianism of its middle age, to the sorry debacle of its death.
