**St. Cuthbert, His Cult and His Community to AD 1200** Gerald Bonner 1989 Very fine collection of essays a rich feast

of scholarship with many discoveries and new interpretations of greatest value for Anglo-Saxon history.' **SPECULUM** St Cuthbert is known to many as the the saintly bishop of Holy Island inthe 7th century, but he was also a figure of great political and territorial power. The book is divided into four sections, each dealing with different aspects of Cuthbert and his milieu. Among the topics investigated are the early Livesof the Saint, two by Bede

himself, and his cult; Lindisfarne, its scriptorium and of course the famous Gospels; the sumptuous treasures gathered round the coffin, such as a portable altar and elaborately-worked silks, many of which are still preserved at Durham; and St Cuthbert's community at Chester-le-Street and Durham. Contributors: J. CAMPBELL, CLARE STANCLIFFE, MICHAEL HERITY, BENEDICTA WARD SLG, MICHAEL LAPIDGE, WALTER BERSCHIN, ALAN THACKER, DEIRDRE O'SULLIVAN, CHRISTOPHER D. VEREY, MICHELLE P. **The Life and After-Life of St**

**John of Beverley** Susan E.

Wilson 2017-07-28 This

represents the first study devoted to the life and after-life of St John of Beverley. John was bishop of Hexham and then York, after which he retired to his own monastery in Beverley and was buried there in 721. His cult was quickly established and spread to attract pilgrims from all over the British Isles, and even Europe. It was also established in Brittany by the tenth century, especially in the town of Saint-Jean-Brévelay, which is named after him. The great economic wealth of Beverley in the Middle Ages was largely due to it being a major ecclesiastical centre focused around John's relics. His reputation as a powerful saint was harnessed not only to protect Beverley and the surrounding areas and to give succour to pilgrims to his shrine, but also to further the ambitions of successive kings

of England to the extent that Henry V raised him to the status of a patron saint of England following the battle of Agincourt, which was fought on the feast day of St John's translation. The hagiographic works on John extend over nearly six hundred years from that written by Bede c. 731, the *Vita Sancti Johannis* composed by a monk called Folcard c. 1066, then four separate collections of post-mortem miracle stories of the eleventh-thirteenth centuries, and a number of miracles recorded in the fourteenth and fifteenth centuries. This span is greater even than the hagiography relating to St Benedict, which had been believed to cover more years than any other collection in Europe. Dr Wilson uses these sources as a unique opportunity to examine the ways in which an Anglo-Saxon saint was promoted over a long period of time by different hagiographers, and how the saint was continually re-created in the image which the hagiographers or his community required,

depending on their current needs and perceptions. The volume also includes the first English translations of the Life and the miracle stories.

English portrayals, especially the first portrayal of St. Cuthbert. This study should interest specialists in church and medieval history, patristics, and theological students and laypersons who have never considered that medieval Saints' Lives, like the Gospels, are compelling theological texts in their own right.

**Saint Wilfrid at Hexham - Primary Source Edition** D. P. Kirby 2014-02 This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. the church calendar and its organization; popes; archbishops; other church leaders; saints; and mystics. In this new edition, great efforts have been made to increase and strengthen coverage of non-Anglican denominations (for example non-Western European Christianity), as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe. In particular, there have been extensive additions with regards to the Christian Church in Asia, Africa, Latin America, North America, and Australasia. Significant updates have also been included on topics such as liturgy, Canon Law, recent international developments, non-Anglican missionary activity, and the increasingly important area of moral and pastoral theology, among many others. Since its first appearance in 1957, the ODCC has established itself as an essential resource for ordinands, clergy, and members of religious orders, and an invaluable tool for

academics, teachers, and students of church history and theology, as well as for the general reader.

*Bede and the End of Time*

Peter Darby 2016-04-15 Bede (c. 673-735) was the leading intellectual figure of the Anglo-Saxon Church, and his writings had a profound influence on the development of English Christian thought. Among the many issues he wrote about, eschatology - the study of the day of judgment and the end of time - was a recurring theme. Whilst recent research has furthered our knowledge of this subject in the later Middle Ages, Dr Darby's book provides the first comprehensive analysis of Bede's eschatological thought and its impact upon the Anglo-Saxon period. Taking account of Bede's beliefs about the end of time, this book offers sophisticated insights into his life, his works and the role that eschatological thought played in Anglo-Saxon society. Close attention is given to the historical setting of each source text consulted, and

2022-10-24 by guest*

original insights are advanced regarding the chronological sequence of Bede's writings. The book reveals that Bede's ideas about time changed over the course of his career, and it shows how Bede established himself as the foremost expert in eschatology of his age. The eight chapters of this book are organised into three main thematic groups: the world ages framework, Bede's eschatological vision and Bede's eschatological perspective. It will be of interest to those studying early medieval history, theology or literature as well as anyone with a particular interest in Bede and Anglo-Saxon England.

2022-10-24 by guest

The Life of Wilfrid offers us a graphic portrait of one of the most forceful characters in the history of the English Church: a man courageous and energetic yet at the same time litigious, ostentatious and overbearing, his life punctuated by restless travels and the most violent quarrels. Of noble birth, Wilfrid (c.634-709) gained his first experience of monastic life as a boy at Lindisfarne. Thereafter we find him at various times, crossing Gaul, staying in Lyons, visiting Rome, back in England at York, Ripon or Hexham, preaching to heathens in Sussex or Frisia, quarrelling with kings and bishops, imprisoned in Northumbria, again in Rome seeking papal support for his claims, founding monasteries in the Midlands and at last, in his old age, reconciled to those with whom he had earlier quarrelled so bitterly. Partisan but highly detailed, the Life was probably written within a decade of the saint's death. It is a remarkable account of a powerful personality who aroused

affection and dislike in almost equal proportions. 'Politis Lapidibus' Claudia Alice Devos 2016  
*Saint Wilfrid* Two Sisters of Notre Dame of Namur 1948\*  
*Life of Saint Wilfrid* by Edmer Eadmer 1998 This work is an edition of Edmer of Canterbury's 12th-century "Vita Sancti Wilfridi" ("Life of St Wilfrid"); it also includes a critical edition of the Latin text, a translation, historical introduction and commentary, a rhetorical analysis of Edmer's style, and two appendices. The introduction examines the influence of 12th century ecclesiastical politics on the development of the cult of St Wilfrid, and reassesses the prejudices of the early accounts of Wilfrid's life by Stephen (Eddius) and Bede. The edition is based on all known surviving texts of the "vita", including a recently discovered witness in The Ballarat Fine Arts Gallery, Australia. It traces the influence and use of the "vita" during the three centuries after it was written, with specific

reference to historical and ecclesiastical compilations and its use as a source for liturgical texts. It also assesses the early printed tradition of the "vita".

The Anglo-Saxon Chronicle

Michael J. Swanton 1998-08-18

The first continuous national history of any western people in their own language, The Anglo-Saxon Chronicle traces the history of early England from the migration of the Saxon war-lords, through Roman Britain, the onslaught of the Vikings, the Norman Conquest and on through the reign of Stephen. Michael Swanton's translation is the most complete and faithful reading ever published.

Extensive notes draw on the latest evidence of paleographers, archaeologists

and textual and social historians to place these annals in the context of current knowledge. Fully indexed and complemented by maps and genealogical tables, this edition allows ready access to one of the prime sources of English national culture. The introduction provides all the information a first-time reader could need, cutting an easy route through often complicated matters. Also includes nine maps.

Vera Lex Historiae? Catalin

Taranu 2022-08-18 Writing

circa 731 CE, Bede professes in the introduction to his *Historia Ecclesiastica Gentis Anglorum* that he will write his account of the past of the English following only *vera lex historiae*. Whether explicitly or (most often) implicitly, historians narrate the past according to a conception of what constitutes historical truth that emerges in the use of narrative strategies, of certain formulae or textual forms, in establishing one's own ideological authority or that of one's informants, in

Downloaded from

2022-10-24 by guest

faithfulness to a cultural, narrative, or poetic tradition. If we extend the scope of what we understand by history (especially in a pre-modern setting) to include not just the writings of historians legitimated by their belonging to the Latinate matrix of christianized classical history writing, but also collective narratives, practices, rituals, oral poetry, liturgy, artistic representations, and acts of identity - all re-enacting the past as, or as representation of, the present, we find a plethora of modes of constructions of historical truth, narrative authority, and reliability. Vera Lex Historiae? will be constituted by contributions that reveal the variety of eventual strategies by which historical truth was constructed in late antiquity and the earlier Middle Ages, and the range of procedures by which such narratives were established first as being historical and then as "true" histories. This is not only a matter of narrative strategies, but also habitus, ways of living

and acting in the world that feed on and back into the commemoration and re-enactment of the past by communities and by individuals. In doing this, we hope to recover something of the plurality of modes of preserving and reenacting the past available in late antiquity and the earlier middle ages which we pass by because of preconceived notions of what constitutes history writing.
