Success in Higher Education

Leigh N. Wood 2016-11-04 This book explores successful transition strategies to, within and from university for students from around the globe, with Macquarie University, a large Australian university, studied in depth. It addresses the meaning of success taking a variety of perspectives, including student, staff and employer views. The chapters present a series of initiatives that have

proven to be successful in assisting students in developing their academic potential throughout university and beyond. The authors of the chapters use a variety of methodologies and approaches reflecting the diverse local contexts and requirements. These international perspectives demonstrate a triumph of practice that has led to the empowerment of individuals and groups. The approaches from twelve universities located in eight different countries stem directly from the coalface and provide many valuable lessons and tools that colleagues in the sector will be able to consider and adapt in their own contexts. Small interventions matter, from a mentor of a nervous student who goes on to achieve greatness, to the use of a curriculum design model that hooks a whole group of students into learning and achievement. This book covers both the small, individual victories and the larger scale strategies that support success. Contributions emanate from

 2018-03-21 Liberal democratic societies with diverse populations generally offer minorities two usually contradictory objectives: the first is equal integration and participation; the second is an opportunity, within limits, to retain their culture. Yet Canadian Jews are successfully integrated into all domains of Canadian life, while at the same time they also seem able to retain their distinct identities by blending traditional religious values and rituals with contemporary cultural options. Like Everyone Else but Different illustrates how Canadian Jews have created a space within Canada's multicultural environment that paradoxically overcomes the potential dangers of assimilation and

diversity. At the same time, this comprehensive and data-driven study documents and interprets new trends and challenges including rising rates of intermarriage, newer progressive religious options, finding equal space for women and LGBTQ Jews, tensions between non-Orthodox and Orthodox Jews, and new forms of real and perceived anti-Semitism often related to Israel or Zionism, on campus and elsewhere. The striking feature of the Canadian Jewish community is its diversity. While this diversity can lead to cases of internal conflict, it also offers opportunities for adaptation and survival. Seventeen years after its first publication, this new edition of Like Everyone Else but Different provides definitive updates that blend research studies, survey and census data, newspaper accounts and articles, and the author's personal observations and experiences to provide an informative, provocative, and fascinating account of Jewish life and multiculturalism in

contemporary Canada. *Sharing Our Success* David Bell 2004 The disturbing educational success rates for Aboriginal students in comparison with their peers have been documented for many years. Reducing this persistent achievement gap is one of Canada's most pressing educational challenges. Numerous reports commissioned by federal and provincial governments and Aboriginal authorities have offered detailed examinations of the complex social, economic, linguistic, and cultural interrelationships that contextualize the educational environments of Aboriginal students. Many of their families struggle with the legacy of residential schools that ripped families apart and caused immeasurable damage to the social fabric. Schools serving these communities work within a context that may include poverty, learned helplessness, despair, and high levels of abuse, addictions and violence. For some communities, student suicide rates may exceed

graduation rates. Yet despite many extraordinary challenges, some schools are producing tangible progress for their Aboriginal students. This report springs from a study of ten such schools in an effort to identify practices that appear to contribute to their success. *Canadian University Students You are Vitaly Concerned in the Success of this Movement You Can Benefit in Many Ways Through it* OAC Review Index 1929

while the accomplishments of Canadian universities were remarkable during this period, they were ill prepared for the financial constraints of the 1980s and early 1990s. As a result, they were left in a state of institutional paralysis that has hindered their ability to adapt to the needs of a changing society.

While much has been written about university leadership elsewhere, Leadership Under Fire focuses on Canada and some of the men and women who have made a real difference to the quality of its post-secondary institutions. Paul builds on their stories to offer useful perspectives and advice at a time when the quality of universities was never more critical to the country's economic, social, and political success.

consequences of a rapidly changing student population, *Serving Diverse Students in Canadian Higher Education* presents new thinking about how education in general, and student services in particular, should be designed and delivered. A follow-up to Donna Hardy Cox and C. Carney Strange's *Achieving Student Success* (2010), this volume focuses on the best programs and practices in Canadian colleges and universities to improve the educational experiences of students who are Indigenous, people of colour, francophone, LGBTQQ, disabled, and adult learners, as well as international and first-generation students. Presenting findings obtained from both personal insight and relevant research, higher education practitioners and scholars from across the country detail the characteristics, concerns, and specific needs of each diverse group, to conclude that the success of these new students and the future of Canadian society depends on its post-

secondary institutions' capacities to acknowledge students' differences, capitalize on their gifts, and accommodate them accordingly. Exploring the enriching breadth of university communities, *Serving Diverse Students in Canadian Higher Education* focuses on a new paradigm of individual differences and student success.

[Succeeding as an International Student in the United States and Canada](#) Charles Lipson
2008-04-15 Each year, 700,000 students from around the world come to the United States and Canada to study. For many, the experience is as challenging as it is exciting. Far from home, they must adapt to a new culture, new university system, and in many cases, a new language. The process can be overwhelming, but as Charles Lipson's *Succeeding as an International Student in the United States and Canada* assures us, it doesn't have to be. *Succeeding* is designed to help students navigate the myriad issues they will

encounter—from picking a program to landing a campus job. Based on Lipson’s work with international students as well as extensive interviews with faculty and advisers, *Succeeding* includes practical suggestions for learning English, participating in class, and meeting with instructors. In addition it explains the rules of academic honesty as they are understood in U.S. and Canadian universities. Life beyond the classroom is also covered, with handy sections on living on or off campus, obtaining a driver’s license, setting up a bank account, and more. The comprehensive glossary addresses both academic terms and phrases heard while shopping or visiting a doctor. There is even a chapter on the academic calendar and holidays in the United States and Canada. Coming to a new country to study should be an exciting venture, not a baffling ordeal. Now, with this trustworthy resource, international students have all the practical information they need to

succeed, in and out of the classroom.

Quarterly Bulletin Canadian Standards Association 1927 Multiversities, Ideas, and Democracy George Fallis 2011-01-01 Multiversities are sprawling conglomerates that provide liberal undergraduate, graduate, and professional education. As well-springs of innovation and ideas, these universities represent the core of society's research enterprise. Multiversities, Ideas, and Democracy forcibly argues that, in the contemporary world, multiversities need to be conceptualized in a new way, that is, not just as places of teaching and research, but also as fundamental institutions of democracy. Building upon the history of universities, George Fallis discusses how the multiversity is a distinctive product of the later twentieth century and has become an institution of centrality and power. He examines five characteristics of our age - the constrained welfare state, the information technology

revolution, postmodern thought, commercialization, and globalization - and in each case explains how the dynamic of multiversity research alters societal circumstances, leading to the alteration of the institution itself and creating challenges to its own survival. The character of our age demands reappraisal of the multiversity, Fallis argues, in order to safeguard them from so-called 'mission drift.' Writing from a multi-national perspective, this study establishes how similar ideas are shaping multiversities across the Anglo-American world. Ultimately, *Multiversities, Ideas, and Democracy* seeks to uncover the ethos of the multiversity and to hold such institutions accountable for their contribution to democratic life. It will appeal to anyone interested in the role of education in society.

[International Students from Asia in Canadian Universities](#)

Ann Kim 2023-08-11 This book explores how the recruitment and retention of Asian

international students in Canadian universities intersects with other institutional priorities. Responding to the growing need for new insights and perspectives on the institutional mechanisms adopted by Canadian universities to support Asian international students in their academic and social integration to university life, it crucially examines the challenges at the intersection of two institutional priorities: internationalization and anti-racism. This is especially important for the Asian international student group, who are known to experience invisible forms of discrimination and differential treatment in Canadian post-secondary education institutions. The authors present new conceptualisations and theoretical perspectives on topics including international students' experiences and understandings of race and racism, comparisons with domestic students and/or non-Asian students, institutional

discourse and narratives on Asian international students, comparison with other university priorities, cross-national comparisons, best practices, and recent developments linked to the COVID-19 pandemic. Foregrounding the institutional strategies of Canadian universities, as opposed to student experience exclusively, this direct examination of institutional responses and initiatives draws out similarities and differences across the country, compares them within the broader array of university priorities, and ultimately offers the opportunity for Canadian universities to learn from each other in improving the integration of Asian international students and others to their student body. It will appeal to teacher-scholars, researchers and educators with interested in higher education, international education and race and ethnic studies.

Eisenbichler 2019-01-01

Scholarship on Italian emigration has generally omitted the Julian-Dalmatians, a group of Italians from Istria and Dalmatia, two regions that, in the wake of World War Two, were ceded by Italy to Yugoslavia as part of its war reparations to that country. Though Italians by language culture, and traditions, it seems that this group has been conveniently excised from history. And yet, Julian-Dalmatians constitute an important element in twentieth-century Italian history and represent a unique aspect of both Italian culture and emigration. This groundbreaking collection of articles from an international team of scholars opens the discussion on these "forgotten Italians" by briefly reviewing the history of their diaspora and then by examining the literary and

artistic works they produced as immigrants to Canada.

Forgotten Italians offers new insights into such celebrated authors as Diego Bastianutti, Mario Duliani, Caterina Edwards, and Gianni Angelo Grohovaz, as well as visual artists such as Vittorio Fiorucci and Silvia Pecota. Profoundly marked by the experience of being uprooted and forced into exile, by life in refugee camps, and by the encounter with a new culture, first-generation Julian-Dalmatians in Canada used art and writing to come to terms with their anguished situation and to rediscover their cultural roots.
