Zimbabwe, a Revolution that Lost Its Way?

André Astrow 1983 2. The African working class

Hungochani, Second Edition Marc Epprecht
2013-04-01 In the tapestry of global queer

cultures Africa has long been neglected or stereotyped. In Hungochani, Marc Epprecht seeks to change these limited views by tracing Southern Africa's history and traditions of homosexuality, modern gay and lesbian identities, and the vibrant gay rights movement that has emerged since the 1980s. Epprecht

explores the diverse ways African cultures traditionally explained same-sex sexuality and follows the emergence of new forms of gender identity and sexuality that evolved with the introduction of capitalism, colonial rule, and Christian education. Using oral testimony, memoirs, literature, criminal court records, and early government enquiries from the eighteenth century to the present, he traces the complex origins of homophobia. By bringing forth a wealth of evidence about once-hidden sexual behaviour, Epprecht contributes to the honest, open discussion that is urgently needed in the battle against HIV/AIDS. Homosexuality - or *hungochani* as it is known in Zimbabwe - has been denounced by many politicians and church leaders as an example of how Western decadence has corrupted African traditions. However, a bold, new gay rights movement has emerged in several of the countries of the region since the 1980s, offering an exciting new dimension in the broad struggle for human

rights and democracy unfolding on the continent. In a new preface to this edition, Epprecht considers the recent advances of equality on the continent such as the legalization of same-sex marriage in South Africa, as well as discriminatory setbacks such as Uganda's anti-homosexuality legislation.

Sweden and National Liberation in Southern Africa: Solidarity and assistance, 1970-1994 Tor Sellström 1999 In 1969, the Swedish parliament endorsed a policy of direct assistance to the liberation movements in Southern Africa. Sweden thus became the first Western country to enter into a relationship with organizations that elsewhere in the West were shunned as "Communist" or "terrorist." This book-the first in a two-volume study on Sweden & the regional struggles for majority rule & national independence-traces the background to the relationship. Presenting the actors & factors behind the support to MPLA of Angola, FRELIMO of Mozambique, SWAPO of Namibia,

ZANU & ZAPU of Zimbabwe, & ANC of South Africa, it addresses the question why Sweden established close relations with the very movements that eventually would assume state power in their respective countries. The second volume (later this year) will discuss how the support was expressed, covering the period from 1970 until the democratic elections in South Africa in 1994.

The Last British Liberals in Africa Dickson Mungazi [Deceased] 1999-05-30 A study of the clash of two traditions, British liberalism and African nationalism, and an examination of how Michael Blundell in Kenya and Garfield Todd in Zimbabwe used their liberal backgrounds to further the future of their adopted countries, despite threats and detention. Both Blundell and Todd believed that political leaders had a responsibility to serve the needs of the people as a condition of national development. By the time each came to power, European colonization had had a profoundly negative effect on the lives of

Africans; Blundell and Todd sought to correct this by putting their positive views of Africans into practice. While colonial governments designed strategies for controlling Africans to serve political and economic interests at home in Europe, Africans themselves established their own effective strategy, not only to ensure their survival in the colonial setting, but also to initiate a process for the restoration of their sense of self. Michael Blundell and Garfield Todd, with their liberal beliefs, served as excellent allies in this period of a rising African consciousness. Using sources obtained in Kenya and Zimbabwe over the past 15 years, this work examines democratic traditions that have survived tumultuous times in recent years.

Hidden Treasure Patricia Chater 2012 Patricia Chater wrote this account of her life from the unique position of an English woman who

became absorbed into a religious community when she joined the caring and spiritual church of St Francis in Zimbabwe in the early 1960s. In a sympathetic, understated and matter-of-fact manner, she describes what it meant for the members of the community to struggle for liberation in their own land and then to face the challenges of the post-independence years. Her memoir is a contribution to the story of Zimbabwe, showing how national events impact on one particular place and on one particular group of people.

From the Barrel of a Gun Gerald Horne
2015-12-01 In November 1965, Ian Smith's white minority government in Southern Rhodesia (now Zimbabwe) made a unilateral declaration of independence, breaking with Great Britain. With a European population of a few hundred thousand dominating an African majority of several million, Rhodesia's racial

structure echoed the apartheid of neighboring South Africa. Smith's declaration sparked an escalating guerrilla war that claimed thousands of lives. Across the Atlantic, President Lyndon B. Johnson nervously watched events in Rhodesia, fearing that racial conflict abroad could inflame racial discord at home. Although Washington officially voiced concerns over human rights violations, an attitude of tolerance generally marked U.S. relations with the Rhodesian government: sanctions were imposed but not strictly enforced, and hundreds, perhaps thousands, of American mercenaries joined white Rhodesia's side in battle with little to fear from U.S. laws. Despite such tacit U.S. support, Smith's regime fell in 1980, and the independent state of Zimbabwe was born. The first comprehensive account of American involvement in the war against Zimbabwe, this compelling work also explores how our relationship with Rhodesia helped define interracial dynamics in the United States, and vice versa.

Student Encyclopedia of African Literature

Douglas Killam 2007-12-30 African literature is a vast subject of growing output and interest. Written especially for students, this book selectively surveys the topic in a clear and accessible way. Included are roughly 600 alphabetically arranged entries on writers, genres, and major works. Many entries cite works for further reading, and the volume closes with a selected, general bibliography. Africa is a land of contrasts and of diverse cultures and traditions. It is also a land of conflict and creativity. The literature of the continent draws upon a fascinating body of oral traditions and lore and also reflects the political turmoil of the modern world. With the increased interest in cultural diversity and the growing centrality of Africa in world politics, African literature is

figuring more and more prominently in the curriculum. This book helps students learn about the African literary achievement. Written expressly for students, this book is far more accessible than other reference works on the subject. Included are nearly 600 alphabetically arranged entries on authors, such as Chinua Achebe, Athol Fugard, Buchi Emecheta, Nadine Gordimer, and Wole Soyinka; major works, such as *Things Fall Apart* and *Petals of Blood*; and individual genres, such as the novel, drama, and poetry. Many entries cite works for further reading, and the volume closes with a selected, general bibliography.

Imagination and the Creative Impulse in the New Literatures in English Maria Teresa

Bindella 1993 *Imagination and the Creative Impulse in the New Literatures in English* brings together the proceedings of a symposium organised by the editors at the University of Trento in 1990. At a time when the study of the post-colonial literatures is gaining more widespread recognition, scholars based mainly at universities in Italy and Germany were invited to address the manner in which writers are giving literary expression to the complexity of contemporary post-colonial and multicultural societies and to consider, from their differing perspectives on the new literatures, central questions of formal experimentation, linguistic innovation, social and political commitment, textual theory and cross-culturality. Focusing on such major writers such as Achebe, Soyinka and Walcott, as well as on lesser-known figures such as Jack Davis, Witi Ihimaera, Rohinton Mistry and Manohar Malgonkar, the contributors take up many themes characteristic of the new literatures: the challenge posed to traditional

authority, the expression of national identity, the role of literature in the liberation struggle, modes of literary practice in multicultural societies; the relationship of the new literatures in English to that of the former metropolitan centre; and the complex intertextuality characterizing much of the literary production of post-colonial societies.

Unpopular Sovereignty Luise White 2015-03-23 In 1965 the white minority government of Rhodesia (after 1980 Zimbabwe) issued a unilateral declaration of independence from Britain, rather than negotiate a transition to majority rule. In doing so, Rhodesia became the exception, if not anathema, to the policies and practices of the end of empire. In *Unpopular Sovereignty*, Luise White shows that the exception that was Rhodesian independence did not, in fact, make the state that different from new nations elsewhere in Africa: indeed, this history of Rhodesian political practices reveals some of the commonalities of mid-twentieth-century thinking about place and race and how much government should link the two. White

locates Rhodesia's independence in the era of decolonization in Africa, a time of great intellectual ferment in ideas about race, citizenship, and freedom. She shows that racists and reactionaries were just as concerned with questions of sovereignty and legitimacy as African nationalists were and took special care to design voter qualifications that could preserve their version of legal statecraft. Examining how the Rhodesian state managed its own governance and electoral politics, she casts an oblique and revealing light by which to rethink the narratives of decolonization.

The Bible, the Bullet, and the Ballot Fabulous Moyo 2017-03-31 The Bible, the Bullet, and the Ballot provides a balanced account of the role of Christians, Christian organisations, and churches in sociopolitical transformation over the bedrock of colonial and nationalist politics in the past century in Zimbabwe. Fabulous Moyo explores the broader social and political impact of prominent African Christian clergy who were sociopolitical activists such as Ndabaningi Sithole, Abel Muzorewa, and Canaan Banana. It also highlights the role of missionaries who contributed to the African struggle for independence such as Ralph Edward Dodge, Donal Lamont, and Garfield Todd. He examines the contributions of African nationalist parties and prominent politicians with Christian roots, such as Joshua Nkomo and Robert Mugabe, in the struggle for independence, and their contribution in the postcolonial era in light of their Christian heritage and the collective pre-independence nationalist ideals on nation-

building and national unity.

Making History in Mugabe's Zimbabwe Blessing-Miles Tendi 2010 The crisis that has engulfed Zimbabwe since 2000 is not simply a struggle against dictatorship. It is also a struggle over ideas and deep-seated historical issues, still unresolved from the independence process, that both Robert Mugabe's ZANU PF regime and Morgan Tsvangirai's MDC are vying first to define and then to address. This book traces the role of politicians and public intellectuals in media, civil society and the academy in producing and disseminating a politically usable historical narrative concerning ideas about patriotism, race, land, human rights and sovereignty. It raises pressing questions about the role of contemporary African intellectuals in the making of democratic societies. In so doing

the book adds a new and rich dimension to the study of African politics, which is often diluted by the neglect of ideas.

Rethinking the Man Question Jane L. Parpart 2013-07-04 The reality of international relations and its academic study are still almost entirely constituted by men. *Rethinking the Man Question* is a crucial investigation and reinvigoration of debates about gender and international relations. Following on from the seminal *The Man Question in International Relations* this book looks at the increasingly violent and 'toxic' nature of world politics post 9/11. Contributors including Raewyn Connell, Kimberley Hutchings, Cynthia Enloe, Kevin Dunn and Sandra Whitworth consider the diverse theoretical and practical implications of masculinity for international relations in the

modern world. Covering theoretical issues including masculine theories of war, masculinity and the military, cyborg soldiers, post-traumatic stress disorder and white male privilege. The book also focuses on the ways in which masculinity configures world events from conscientious objection in South Africa to 'porno-nationalism' in India, from myths and heroes in Kosovo to the makings of Zimbabwe. This essential work will define the field for many years to come.

Historical Dictionary of Zimbabwe Steven C. Rubert 2001 Zimbabwe, one of Africa's longer, more promising countries, has been in the news a lot recently-for all the wrong reasons.
