Get Me Out of Here Jeremy Steig 2020-04 Jeremy Steig, the acclaimed jazz flutist, was just a teen when his life's path suddenly became clear to him. He soon jumped headlong into the jazz scene of Greenwich Village in the 1960s, where drugs flowed constantly, "free love" was encouraged, and musicians could make a living by simply passing a hat. He was also shaped by the influences of his talented and eccentric family, "€," including his father, cartoonist William Steig (the New Yorker and Shrek!); his mother, Liza, a

brilliant painter; and his aunt, anthropologist Margaret Mead, "€," as well as the cult-like Reichian community his father was deeply involved in. With dry wit and a blunt, unapologetic style, Jeremy offers his unique perspective on the events of his life, including a debilitating accident that almost derailed his career before it began, his groundbreaking debut album in 1963, playing for huge audiences around the world, money troubles and multiple divorces, his disappearance from the public eye, and his comeback in the two *Hearings* United States.

of play for humans and animals. This book is divided into two main topics—animal play and human play. In these topics, this text specifically discusses the definition, evolution, and function of play; criteria of chasing and play fighting; function of laughter in human play; and spurious correlation between exploratory and playful species. The surplus energy and catharsis theories of play; vestibular stimulation acting as a reinforcer; function of mother-infant play; and properties of play-fear and serious-fear stimuli are also elaborated. This compilation likewise covers the puzzling blind spots of child psychology; play and child rearing; and play fear of “monsters . This publication is a good source for students and individuals interested in the survival value of play for animals and healthy development of children.

*Collected Works* Whitney Balliett 2002-04-15 Jazz critic for *The New Yorker* since 1957 and the author of some fifteen

books, Whitney Balliett has spent a lifetime listening to and writing about jazz. "All first-rate criticism," he once wrote in a review, "first defines what we are confronting." He could as easily have been describing his own work. For nearly half a century, Balliett has been telling us, in his widely acclaimed pitch-perfect prose, what we are confronting when we listen to America's greatest—and perhaps only original—musical form.

*Collected Works: A Journal of Jazz 1954-2001* is a monumental achievement, capturing the full range and register of the jazz scene, from the very first Newport Jazz Festival to recent performances (in clubs and on CDs) by a rising generation of musicians. Here are definitive portraits of such major figures as Duke Ellington, Dizzy Gillespie, Django Reinhardt, Martha Raye, Buddy Rich, Charles Mingus, Louis Armstrong, Billie Holiday, Art Tatum, Bessie Smith, and Earl Hines—a list that barely scratches the surface.

Generations of readers have learned to listen to the music with Balliett's graceful guidance. For five decades he has captured those moments during which jazz history is made. Though Balliett's knowledge is an encyclopedic treasure, he has always written as if he were listening for the first time. Since its beginnings in New Orleans at the turn of the century, jazz has been restlessly and relentlessly evolving. This is an art form based on improvising, experimenting, shapeshifting—a constant work in progress of sounds and tonal shades, from swing and Dixieland, through boogie-woogie, bebop, and hard bop, to the "new thing," free jazz, abstract jazz, and atonal jazz. Yet, in all its forms, the music is forever sustained by what Balliett calls a "secret emotional center," an "aural elixir" that "reveals itself when an improvised phrase or an entire solo or even a complete number catches you by surprise." Balliett's celebrated essays invariably capture the

so-called "sound of surprise"—and then share this sound with general readers, music students, jazz lovers, and popular American culture buffs everywhere. As The Los Angeles Times Book Review has observed, "Few people can write as well about anything as Balliett writes about jazz."

**Animation, Caricature, and Gag and Political Cartoons in the United States and Canada**

John Lent 1994-07-21

One of four volumes dealing with the world of comic art, this volume is a comprehensive, international bibliography dealing with animation, caricature, gag, illustrative, magazine, and political cartoons in the United States and Canada. Reflecting the substantial growth of comic art literature in recent years, it is representative of various types of publications, writing formats and styles, and languages from all over the world. The four volumes attempt for the first time to pull together the massive amount of comic art literature worldwide. Organized with meticulous detail, the work consists of numerous resources, including an annotated directory of 66

comic art-related periodicals; a section of comic art functions, activities, and relationships with various socio-cultural phenomena, such as education, eroticism, ethnicity, race, social consciousness, and violence; as well as historical and contemporary parts on animation, caricature, gag cartoons, and political cartoons. At least 224 animators, caricaturists, and cartoonists are singled out for special prominence. Business, legal, and technical aspects of each genre make up other categories. The book is enhanced by Maurice Horn's foreword, retracing the pioneer work he and others did in the field of comic art studies. To further help the user, the indices are systematically broken down by authors, cartoonists, characters and titles, periodicals, and subjects.

one conversations contained in this engaging and highly accessible book, we hear from the musicians themselves, in their own words, direct and unfiltered. Peter Zimmerman's interviewing technique is straightforward. He turns on a recording device, poses questions, and allows his subjects to improvise, similar to the way the musicians do at concerts and in recording sessions. Topics range from their early days, their struggles and victories, to the impact the music has had on their own lives. The interviews have been carefully edited for sense and clarity, without changing any of the musicians' actual words. Peter Zimmerman tirelessly sought virtuosi whose lives span the twentieth and twenty-first centuries. The reader is rewarded with an intimate look into the past century's extraordinary period of creative productivity. The oldest two interview subjects were born in 1920 and all are professional musicians who worked in jazz for at least five decades, with a few enjoying

careers as long as seventy-five years. These voices reflect some seventeen hundred years of accumulated experience yielding a chronicle of incredible depth and scope. The focus on musicians who are now emeritus figures is deliberate. Some of them are now in their nineties; six have passed since 2012, when Zimmerman began researching The Jazz Masters. Five of them have already received the NEA's prestigious Jazz Masters award: Sonny Rollins, Clark Terry, Yusef Lateef, Jimmy Owens, and most recently, Dick Hyman. More undoubtedly will one day, and the balance are likewise of compelling interest. Artists such as David Amram, Charles Davis, Clifford Jordan, Valery Ponomarev, and Sandy Stewart, to name a few, open their hearts and memories and reveal who they are as people. This book is a labor of love celebrating the vibrant style of music that Dizzy Gillespie once described as "our native art form." Zimmerman's deeply knowledgeable, unabashed passion for jazz brings out the

Filled with personal recollections and detailed accounts of their careers and everyday lives, this highly readable, lively work succeeds in capturing their stories for present and future generations. An important addition to the literature of music, *The Jazz Masters* goes a long way toward "setting the record straight."
