Riddles, Rhymes and Alliteration Jane Turner 2017-07-05 "Riddles, Rhyme and Alliteration" is an activity-based resource that encourages children aged 4-7 years to concentrate, listen to and discriminate between different speech sounds. Teachers can use the material

separately or as part of a phonics programme, as each activity has the flexibility to be used with individuals, groups or whole classes. Older children who have listening and auditory discrimination difficulties, poor listening skills, and mild to moderate hearing loss or 'glue ear' can also benefit from using the material. Each of the eighteen sections is based on a particular phoneme and includes two or three pages of illustrations to accompany the activities. The activities are photocopiable and include: riddles which can be solved with the help of the picture pages; exercises on alliteration and rhyming words; tongue twisters; a story containing words beginning with the target phonemes; and a puzzle worksheet based on some of the words from the picture pages. All of the activities have clear instructions and are presented orally by the teacher, except the puzzle worksheets that encourage the child to work independently. The picture pages can also be coloured in at school or at home to help consolidate what has been taught. Written by a teacher for teachers, "Riddles, Rhyme and Alliteration" will prove a welcome resource for those who have limited time for preparation.

This book continues by etching a lasting memory of the vowel sounds and blending them to consonants. Blending is riming in this program and it is easy for the teacher to lead in and the students to follow. Phonics, Rhythms, & Rhymes is an engaging medium for explicit instruction about specific spelling-sound correspondence and the alphabetic principle in general. Rhyming (riming, blending) provides opportunities for self-assessment and correction, as construction of sound in each new word is compared with the sounds of words that students know. It supports students who are struggling to recognize letters automatically by reinforcing letters and sounds already learned. The research based program activities accentuate beginning and ending sounds which is vital in speaking, spelling, and writing Standard English words. Meanwhile, the physical manipulation of letters on pages accommodate students who might otherwise have difficulty sustaining their attention in whole-group instruction. While literacy in K, 1st, and 2nd grade is based on skill mastery of blending consonants to vowels, digraphs, diphthongs, and finals; literacy in the 3rd grade

is based on skill mastery of blending consonant blends to vowels, digraphs, diphthongs, and endings; and literacy in the 4th grade and Intervention engenders all of the skills. Our research-based program has developed this opportunity to make dreams come true for students, teachers, and parents.
