Soon Annie finds herself caught in a destructive web of love, lies, and murder that only her sharp insight and fierce intelligence can unravel. The second in the Annie MacPherson mystery series, which began with *Sea of Troubles*.

Pierre Bonnard Pierre Bonnard 2009 "The vibrant late paintings of Pierre Bonnard (1867-1947) are considered by many to be among his finest achievements. Working in a small converted bedroom of his villa in the south of France, Bonnard suffused his late canvases with radiant Mediterranean light and dazzling color. Although his subjects were close at hand--usually everyday scenes taken from his immediate surroundings, such as the dining

room table being set for breakfast, or a jug of flowers perched on the mantelpiece - Bonnard rarely painted from life. Instead, he preferred to make pencil sketches in small diaries and then rely on these, along with his memory, once in the studio." "This volume, which accompanies the first exhibition to focus on the interior and related still-life imagery from the last decades of Bonnard's long career, presents more than seventy-five paintings, drawings, and works on paper, many of them rarely seen in public and in some cases, little known. Although Bonnard's legacy may be removed from the succession of trends that today we consider the foundation of modernism, his contribution to French art in the early decades of the twentieth century is far more profound than history has generally acknowledged. In their insightful essays and catalogue entries the authors bring fresh critical perspectives to the ongoing reappraisal of Bonnard's reputation and to his place within the narrative of twentieth-century art."--Jacket

A Box of Photographs Roger Grenier 2019-04-05

Most attempts to generalize about photography as a medium run up against our experience of the photographs themselves. We live with photos and cameras every day, and philosophies of the photographic image do little to shake our intimate sense of how we produce photographs and what they mean to us. In this book that is equal parts memoir and intellectual and cultural history, French writer Roger Grenier contemplates the ways that photography can change the course of a life, reflecting along the way on the history of photography and its practitioners. Unfolding in brief, charming vignettes, *A Box of Photographs* evokes Grenier's childhood in Pau, his war years, and his working life at the Gallimard publishing house in Paris. Throughout these personal stories, Grenier subtly weaves the story of a

lifetime of practicing and thinking about photography and its heroes—Henri Cartier-Bresson, Weegee, Alfred Eisenstaedt, George Brassai, Inge Morath, and others. Adding their own insights about photography to the narrative are a striking range of writers, thinkers, and artists, from Lewis Carroll, Albert Camus, and Arthur Schopenhauer to Susan Sontag, Edgar Degas, and Eugène Delacroix. Even cameras themselves come to life and take on personalities: an Agfa accompanies Grenier on grueling military duty in Algeria, a Voigtlander almost gets him killed by German soldiers during the liberation of Paris, and an ill-fated Olympus drowns in a boating accident. Throughout, Grenier draws us into the private life of photographs, seeking the secrets they hold for him and for us. A valedictory salute to a lost world of darkrooms, proofs, and the gummed paper corners of old photo albums, *A Box of Photographs* is a warm look at the most honest of life's mirrors.

The Optical Unconscious Rosalind E. Krauss
1994-07-25 The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style

of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in

colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Not a Box Board Book Antoinette Portis

2011-09-27 A box is just a box . . . unless it's not a box. From mountain to rocket ship, a small rabbit shows that a box will go as far as the imagination allows. Inspired by a memory of sitting in a box on her driveway with her sister, Antoinette Portis captures the thrill when pretend feels so real that it actually becomes real—when the imagination takes over and inside a cardboard box, a child is transported to a world where anything is possible.

More than One Picture Felix Thürlemann
2019-11-26 This thought-provoking and original

book argues that hyperimages—calculated displays of images on walls or pages—have played a major role in the history of art. In exhibitions, illustrated art books, and classrooms, artworks or their photographic reproductions are arranged as calculated ensembles that have their own importance. In this volume, Felix Thürlemann develops a theory of this type of image use, arguing that with each new gathering of images, an art object is reinterpreted. These hyperimages have played a major role in the history of art since the seventeenth century, and the main actors of the art world are all hyperimage creators. In part because the hyperimage is not permanently available, this interplay of images has been largely unexplored. Through case studies organized within three groups of producers—collectors and curators, art historians, and artists—Thürlemann proposes a theory of the hyperimage, explores the semiotic nature of this plural image use, and discusses

the arrangement and interpretation of such pictures in order to illuminate the phenomenon of Western image culture from the beginning of the seventeenth century until today. His analysis of the ways in which images are assembled and associated provides a crucial context for the explosive present-day deployment of images on digital devices.

Seurat's Circus Sideshow Richard Thomson 2017-02-15 Georges Seurat (1859–1891) created just six major figure paintings during his lifetime, one of which, the alluring Circus Sideshow (Parade de cirque), has remained the most challenging to interpret since it first intrigued viewers at the 1888 Salon des Indépendants in Paris. Unlike Seurat's earlier sunlit scenes, Circus Sideshow presents a nighttime tableau depicting a parade—a street show enticing passersby to purchase tickets. With its geometrically precise composition, muted colors, and elements of abstraction, the painting stands apart as a masterpiece of Neo-Impressionism and heralds Seurat's subsequent depictions of popular entertainments. This book,

the first comprehensive study of Circus Sideshow, situates the painting in the context of nineteenth-century Paris and of the many social changes France was undergoing. Renowned art historian Richard Thomson illuminates the roles of caricature, naturalist and avant-garde painting, and circus advertising; examines Seurat's use of contemporary aesthetic theory; and discusses how artists ranging from Rouault to Picasso mined the sideshow theme into the twentieth century. Illustrated with Seurat's related drawings, works by other artists, and period posters and broadsides, Seurat's Circus Sideshow delves into the history of traveling circuses and seasonal fairs in France, exploring the ongoing appeal of this traditional form of popular entertainment through the fin de siècle. Two additional essays describe the painting's enthusiastic reception in New York upon its 1929 debut and present the results of a fresh technical examination of the canvas, making this volume the definitive resource on one of Seurat's

most captivating works.

American Bookseller 1993

Book of Imaginary Media Eric Kluitenberg 2006 Have you ever wondered if one day Windows 2028 might just know what you're thinking and type it? In this collection of essays, a selection of today's top media and sci-fi theorists weigh in. The Book of Imaginary Media explores the persistent idea that technology may one day succeed where no human has, not only in space or in nature, but also in interpersonal communication. Building on insights from media archeology, Siegfried Zielinski, Bruce Sterling, Erkki Huhtamo and Timothy Druckrey spin a web of associations between the fantasy machines of Athanasius Kircher, the mania of stereoscopy and "dead" media. Edwin Carels and Zoe Beloff descend into the cinematographic caverns of spiritualism and the iconography of death, and renowned cartoonists including Ben Katchor depict their own visionary media fantasies. On the enclosed DVD, artist Peter

Blegvad provides hilarious commentary in a sonnet version of his On Imaginary Media.
