Painting Michael Bennett
2014-05-23 Have you ever seen a paint job so impressive that you wished your home could look that elegant? The formula, says Master Painter Michael Bennett, is combining knowledge, quality workmanship, premium products, and the right attitude. Calling upon his more than three decades of experience, Michael has created this intermediate-level instructional and reference guide for interior painting. Far more than a basic "how-to" or cookie-cutter DIY, Interior Architectural Painting: A tradesman's guide takes you through every step of the process of finishing or restoring a room: setup; understanding substrates; tools: how to choose and use them; repairing and preparing surfaces such as plaster, drywall, wood, metal, and masonry; how to identify quality coatings that are oil-based or waterborne and when and where to employ them; application techniques; identifying and solving

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert
1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art

historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white

photographs illustrate works from the Middle Ages to the 20th century.

House Painting Inside & Out

Mark Dixon 1997 Explains the basics of house painting, from preparing to work to interior and exterior painting techniques, to using the right tools and cleaning up.

The Business of Painting

Arthur Cole 2012-10-11 Every year many highly skilled professionals in the painting trade attempt to go into business on their own. Even though they may be excellent painters, almost all of them fail. They fail because they don't know how to run a painting enterprise as a business. Knowing the trade is necessary but not enough. This book teaches the professional how to succeed in business from the initial organization to the most complex management skills. It provides easy-to-follow lessons in all the needed methods of management in the business of painting. (See the table of contents on its website, THEBUSINESSOFPAINING.COM.)The author is a college

graduate, a veteran of army's counterintelligence corps, a former public high school history teacher, and apprentice painter in his teens who thought he knew a lot about the trade. (he didn't).Even while teaching school he ran a sideline business in house painting and hired experienced painters to work for him while he was busy in the school. During school vacations he worked alongside of his more skilled employees and learned from them a lot more of the trade. He also picked up lots of management acumen by way of trial and error and quizzing other business people who always seemed willing to pass along their knowledge. This seemingly foolish approach to a career as a painting contractor did actually work but it took years to perfect. Following the guidance of this book can allow the professional painter to bypass all the mistakes made by the author in his progress to success. the business he started by doing the work by himself now employs fifty painters and works in six

states. The author decided very early that he disliked working for homeowners and moved into commercial work where quality requirements were high and most of the customers were honest. As of this publication date, the author is now in his twentieth year of retirement. His teaching background influenced his urge to write this book and he sincerely hopes and expects that all painting contractors who follow its advice can succeed.

Young House Love Sherry Petersik 2015-07-14 This New York Times bestselling book is filled with hundreds of fun, deceptively simple, budget-friendly ideas for sprucing up your home. With two home renovations under their (tool) belts and millions of hits per month on their blog YoungHouseLove.com, Sherry and John Petersik are home-improvement enthusiasts primed to pass on a slew of projects, tricks, and techniques to do-it-yourselfers of all levels. Packed with 243 tips and ideas—both classic and

unexpected—and more than 400 photographs and illustrations, this is a book that readers will return to again and again for the creative projects and easy-to-follow instructions in the relatable voice the Petersiks are known for. Learn to trick out a thrift-store mirror, spice up plain old roller shades, "hack" your Ikea table to create three distinct looks, and so much more.
