[Ancient Egypt Transformed](#) Adela Oppenheim 2015-10-12 The Middle Kingdom (ca. 2030–1650 B.C.) was a transformational period in ancient Egypt, during which older artistic conventions, cultural principles, religious beliefs, and political systems were revived and reimaged. *Ancient Egypt Transformed* presents a comprehensive picture of the art of the Middle Kingdom, arguably the least known of Egypt's three kingdoms and yet one that saw the creation of powerful, compelling works rendered with great subtlety and sensitivity. The book brings together nearly 300 diverse works— including sculpture, relief decoration, stelae, jewelry, coffins, funerary objects, and personal possessions from the world's leading collections of Egyptian art. Essays on architecture, statuary, tomb and temple relief decoration, and stele explore how Middle Kingdom artists adapted forms and iconography of the Old Kingdom, using existing conventions to create strikingly original works. Twelve lavishly illustrated chapters, each with a scholarly essay and entries on related objects, begin with discussions of the distinctive art that arose in the south during the early Middle Kingdom, the artistic developments that followed the return to Egypt's traditional capital in the north, and the renewed construction of pyramid complexes. Thematic chapters devoted to the pharaoh, royal women, the court, and the vital role of family explore art created for different strata of Egyptian society, while others provide insight into Egypt's expanding relations with foreign lands and the themes of Middle Kingdom literature. The era's religious beliefs and practices, such as the pilgrimage to Abydos, are revealed through magnificent objects created for tombs, chapels, and temples. Finally, the book discusses Middle Kingdom archaeological sites, including excavations undertaken by the Metropolitan Museum over a number of decades. Written by an international team of respected

Egyptologists and Middle Kingdom specialists, the text provides recent scholarship and fresh insights, making the book an authoritative resource.

House of Eternity John K. McDonald 1996-11-28 Nefertari, the favorite queen of Rameses II, was buried about 3,200 years ago in the most exquisitely decorated tomb in Egypt's Valley of the Queens. Discovered in 1904 by Italian explorer Ernesto Schiaparelli, the tomb had deteriorated to a disastrous extent when emergency consolidation began in 1986. The six-year conservation project of the GCI and the Egyptian Antiquities Organization was completed in 1992. In this fascinating exploration of the tomb, John McDonald takes the reader through each chamber, describing the hieroglyphic messages depicted in the brilliant wall paintings and discussing the images within the context of Egyptian beliefs. He also offers insights into the life of Nefertari, the development and symbolism of royal tombs, and the construction and decoration of the tombs. House of Eternity is illustrated with historic black-and-white images and more recent color photographs that reveal the vibrant beauty of the wall paintings. In November 1995 the tomb was reopened to the public. Because of the potential for damage and deterioration to the fragile wall paintings caused by increased humidity, carbon dioxide, and microbiological activity introduced by visitors to the tomb, the number permitted to enter daily is strictly controlled by the Egyptian authorities. This book results from a desire of the GCI to enrich visitors' experience by providing a detailed descriptive walk-through of the tomb while conveying a strong message regarding the need for conservation and continuous monitoring to ensure the long-term survival of the tomb's paintings. Visitors to the tomb and the armchair traveler alike will find House of Eternity to be an excellent resource for understanding Nefertari's journey to the afterlife and for appreciating the extraordinary depictions of that journey on the walls of Nefertari's tomb.

**Voices from Ancient Egypt** R. B. Parkinson 1991 Voices from Ancient Egypt is an anthology presenting translations of sixty documents from a

golden age of ancient Egyptian culture (c. 2081 - 1600 BC). The documents illustrate all aspects of life and the place of literacy in an early civilisation. The 'voices' range from the high formal literature of religious rituals and royal monuments to the hurried requests of the bureaucrats and the jokes of harrassed workmen. They tell a tale not only of the intellectual beliefs of the elite, but of family feuds, love and murder, as well as the pastoral dreams of a society trying to attain its vision of absolute order in a chaotic universe. This volume is a reissue of the valuable introduction to ancient Egyptian literature, first published in 1991.

*The British Museum Book of Ancient Egypt* A. Jeffrey Spencer 2007 "This thoughtful and highly readable book covers every aspect of Egyptian culture, from early prehistory, through the three millenia of pharaonic history, to late Roman antiquity when Christianity replaced the ancient Egyptian religion and the hieroglyphic script finally died out. The expert authors draw on the most recent discoveries and research, as well as the vast Egyptian collections of the British Museum, to illustrate the many facets of this magnificent ancient kingdom. The opening chapters explore the geography and climate of the Nile valley, the social and economic life of its inhabitants, and the many periods of Egypt's history. Later chapters discuss the Egyptians' religious beliefs, as presented in ancient

art and texts; their funerary practices; their distinctive and harmonious art and architecture; their technical achievements in working stone, metals, precious stones, pottery, glass, wood and other materials; and Egypt's neighbours, in particular their southern neighbour Nubia, whose remarkable civilization deserves to be equally well known." - back cover. *Egypt Art* Rose-Marie Hagen 2007 Treasures from the ancient land of the Pharaohs

**The Judgement of the Dead and the Weighing of the Heart Before Osiris** E. A. Wallis Budge 1990-01-01

*Egyptian Ideas of the Future Life* Sir Ernest Alfred Thompson Wallis Budge 1899 A study of ancient Egyptian religious texts will convince the reader that the Egyptians believed in One God, who was self-existent, immortal, invisible, eternal, omniscient, almighty, and inscrutable; the maker of the heavens, earth, and underworld; the creator of the sky and the sea, men and women, animals and birds, fish and creeping things, trees and plants, and the incorporeal beings who were the messengers that fulfilled his wish and word. It is necessary to place this definition of the first part of the belief of the Egyptian at the beginning of the first chapter of this brief account of the principal religious ideas which he held, for the whole of his theology and religion was based upon it; and it is also necessary to add that, however far back we follow his literature, we never seem to approach a time when he was without this remarkable belief. It is true that he also developed polytheistic ideas and beliefs, and that he cultivated them at certain periods of his history with diligence, and to such a degree that the nations around, and even the stranger in

his country, were misled by his actions, and described him as a polytheistic idolater. But notwithstanding all such departures from observances, the keeping of which befitted those who believed in God and his unity, this sublime idea was never lost sight of; on the contrary, it is reproduced in the religious literature of all periods. Whence came this remarkable characteristic of the Egyptian religion no man can say, and there is no evidence whatsoever to guide us in formulating the theory that it was brought into Egypt by immigrants from the East, as some have said, or that it was a natural product of the indigenous peoples who formed the population of the valley of the Nile some ten thousand years ago, according to the opinion of others. All that is known is that it existed there at a period so remote that it is useless to attempt to measure by years the interval of time which has elapsed since it grew up and established itself in the minds of men, and that it is exceedingly doubtful if we shall ever have any very definite knowledge on this interesting point.

**Death and Salvation in Ancient Egypt** Jan Assmann 2005-10-13  
"Human beings," the acclaimed Egyptologist Jan Assmann writes, "are the animals that have to live with the knowledge of their death, and culture is the world they create so they can live with that knowledge." In his new book, Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole. Drawing on the unfamiliar genre of the death liturgy, he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt. Assmann describes in detail nine different images of death: death as the body being torn apart, as social isolation, the notion of the court of the dead, the dead body, the mummy, the soul and ancestral spirit of the dead, death as separation and transition, as homecoming, and as secret. *Death and Salvation in Ancient Egypt* also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual.
