Gender Bias as Related to Women in the Workplace Nancy Elder Walden Ph.D. 2000-08-14 The book traces the history of gender bias toward women throughout history and contains a study specifically geared toward bias, which occurs in the careers of women, and demonstrates that the participation of females and males in the workforce is quite evident. A considerable amount of research exists that describes the lack of gender equity in the workplace. What is happening in the workplace and what should be happening in the workplace, in fact, appears to be quite different. This empirical study includes original surveys, secondary analyses of the data, and reports that offer significant factors with regards to gender equity in the workplace. As reported in numerous pieces of literature, men are often unable to understand what women want which is

*The Trapped Woman* Josefina Figueira-McDonough 1987-08 The Trapped Woman examines the ways in which gender-based definitions of deviant behaviour affect the treatment of women and their access to resources in contemporary society. The contributors argue that many of the standards that define 'normal' behaviour for men paradoxically label the same behaviour 'deviant' for women. The policy implications of such gender-based definitions are examined with reference to mental health, drug use, crime, poverty and single parent families, employment and physical health areas.

and reviews research findings on factors contributing to sex inequalities in education. The book is organized into two parts. Part 1 is titled "The Nature of Sex Differences in Learning and Education" and has three chapters. Chapter 1, "The Female Experience of Schools and Colleges: A Descriptive Overview," describes the strides made in higher levels of female enrollments and the inequalities that remain; chapter 2, "Sex Differences in Early Socialization and Upbringing and Their Consequences for Educational Choices and Outcomes," discusses traditional sex roles, how different socialization agents reinforce each other, and different ways in which schools and teachers contribute to this process; and chapter 3, "The Development of Sex Stereotyped Attitudes Among Boys and Girls: Different Models of Their Origins and Their Educational Implications," examines three models of the origins and development of sex differences in attitudes and educational attainment. Chapters 1 and 3 include extensive
