**Spomenik Monument Database** Donald Niebyl 2018 Spomenik - the Serbo-Croat/Slovenian word for monument - refers to the pioneering abstract memorials built in Josip Tito's Yugoslavia between the 1960s and the 1990s, marking the horror of occupation by Axis forces and the triumph of their defeat during World War II. Through these imaginative creations, a forward-looking socialist society, free of ethnic tensions, was envisaged. This publication brings together more than 80 examples of these stunning brutalist monuments. Each has been extensively photographed and researched by the author to make this book the most comprehensive survey available of this obscure and fascinating architectural phenomenon. A fold-out map on the reverse of the dust jacket shows the exact location of each spomenik using GPS coordinates.

**A Taste of Honey** Shelagh Delaney 2014-10-13 It's chaotic - a bit of love, a bit of lust and there you are. We don't ask for life, we have it thrust upon us. Written by Shelagh Delaney when she was nineteen, *A Taste of Honey* is one of the great defining and taboo-breaking plays of the 1950s. When her mother, Helen, runs off with a car salesman, feisty teenager Jo takes up with a black sailor who promises to marry her before he heads for the seas, leaving her pregnant and alone. Art student Geoff moves in and assumes the role of surrogate parent until misguidedly,

he sends for Helen and their unconventional setup unravels. *A Taste of Honey* offers an explosive celebration of the vulnerabilities and strengths of the female spirit in a deprived and restless world. Bursting with energy and daring, this exhilarating and angry depiction of harsh, working-class life in post-war Salford is shot through with love and humour, and infused with jazz. The play was first presented by Theatre Workshop at the Theatre Royal Stratford, London, on 27 May 1958.

With endless wit, imaginative wordplay and underlying heartache, he offers profound insights into modern life, exploring themes as diverse as love, death, the inestimable value of a mobile phone charger, the unbearable torment of forgetting to put the rubbish out, and the improbable nuances of the English language. Constantly experimenting with literary form, Bilston's words have been known to float off the page, take the shape of the subjects they explore, and reflect our contemporary world in the form of Excel spreadsheets, Venn diagrams and Scrabble tiles. **Planning for Crime Prevention** Ted Kitchen 2004-08-02 Crime and the fear of crime are issues high in public concern and on political agendas in most developed countries. This book takes these issues and relates them to the contribution that urban planners and participative planning processes can make in response to these problems. Its focus is thus on the extent to which crime opportunities can be prevented or reduced through the design, planning and management of the built environment. The perspective of the book is transatlantic and comparative, not only because ideas and inspiration in this and many other fields increasingly move between countries but also because there is a great deal of relevant theoretical material and practice in both the USA and the UK which has not previously been pulled together in this systemic manner.

**Mobility Justice** Mimi Sheller 2018-09-25

Mobility justice is one of the crucial political and ethical issues of our day We are in the midst of a global climate crisis and experiencing the

extreme challenges of urbanization. In *Mobility Justice*, Mimi Sheller makes a passionate argument for a new understanding of the contemporary crisis of movement. Sheller shows how power and inequality inform the governance and control of movement. She connects the body, street, city, nation, and planet in one overarching theory of the modern, perpetually shifting world. Concepts of mobility are examined on a local level in the circulation of people, resources, and information, as well as on an urban scale, with questions of public transport and "the right to the city." On the planetary level, she demands that we rethink the reality where tourists and other elites are able to roam freely, while migrants and those most in need are abandoned and imprisoned at the borders. *Mobility Justice* is a new way to understand the deep flows of inequality and uneven accessibility in a world in which the mobility commons have been enclosed. It is a call for a new understanding of the politics of movement and a demand for justice for all.

**The Road to Wigan Pier** GEORGE ORWELL  
Before he authored the dystopian 1984 and the allegorical Animal Farm, George Orwell was a journalist, reporting on England's working class — an investigation that led him to examine democratic socialism. In the 1930s, the Left Book Club, a socialist group in England, sent George Orwell to investigate the poverty and mass unemployment in the industrial north of England. Once there, he went beyond the requests of the book club, to investigate the employed as well. Orwell chose to live as the coal miners did — sleeping in foul lodgings, subsisting on a meager diet, struggling to feed a family on a dismal wage, and going down into the hellish, backbreaking mines. What Orwell saw clarified his feelings about socialism, and in *The Road to Wigan Pier*, he pointedly tells why socialism, the only remedy to the shocking conditions he had witnessed, repelled "so many normal decent people." "Orwell's code was a simple one, based on truth and 'decency'; he was important — and original — because he insisted on applying that code to his own Socialist comrades as well as to the class enemy...It is the best sociological reporting I know."—The New Yorker
